style Karen W Arenson New York Times Reviews of this book Mr Kirp is both quite fair and a good reporter he has a keen eye for the important ways in which bean counting has transformed universities making them financially responsible and also more concerned about developing lucrative specialties than preserving the liberal arts and humanities Shakespeare Einstein and the Bottom Line is one of the best education books of the year and anyone interested in higher education will find it to be superior Martin Morse Wooster Washington Times Reviews of this book There is a place for the market in higher education Kirp believes but only if institutions keep the market in its place Kirp s bottom line is that the bargains universities make in pursuit of money are inevitably Faustian They imperil academic freedom the commitment to sharing knowledge the privileging of need and merit rather than the ability to pay and the conviction that the student consumer is not always right Glenn C Altschuler Philadelphia Inquirer Reviews of this book David Kirp s fine new book Shakespeare Einstein and the Bottom Line lays out dozens of ways in which the ivory tower has leaned under the gravitational influence of economic pressures and the market Carlos Alcal Sacramento Bee Reviews of this book The real subject of Kirp s well researched and amply footnoted book turns out to be more than this volume s subtitle the marketing of higher education It is in fact the American soul Where will our nation be if instead of colleges transforming the brightest young people as they come of age they focus instead on serving their paying customers and chasing the tastes they should be shaping Where will we be without institutions that value truth more than money and intellectual creativity more than creative accounting Kirp says plainly that the heart of the university is the common good The more we can all reflect upon that common good not our pocketbooks or retirement funds but what is good for the general mass of men and women the better the world of the American university will be and the better the nation will be as well Peter S Temes San Francisco Chronicle Reviews of this book David Kirp s excellent book Shakespeare Einstein and the Bottom Line provides a remarkable window into the financial challenges of higher education and the crosscurrents that drive institutional decision making Kirp explores the continuing battle for the soul of the university the role of the marketplace in shaping higher education the tension between revenue generation and the historic mission of the university to advance the public good This fine book provides a cautionary note to all in higher education While seeking as many additional revenue streams as possible it is important that institutions have clarity of mission and values if they are going to be able to make the case for continued public support Lewis Collens Chicago Tribune Reviews of this book In this delightful book David Kirp tells the story of markets in U S higher education It should be read by anyone who aspires to run a university faculty or department Terence Kealey Times Higher Education Supplement The monastery is colliding with the market American colleges and universities are in a fiercely competitive race for dollars and prestige The result may have less to do with academic excellence than with clever branding and salesmanship David Kirp offers a compelling account of what s happening to higher education and what it means for the future Robert B Reich University Professor Brandeis University and former U S Secretary of Labor Can universities keep their purpose

Kelly, Mark Schneider, 2012-09-01 What will it take to achieve President Obama s higher education completion agenda The United States long considered to have the best higher education in the world now ranks eleventh in the proportion of 25 to 34 year olds with a college degree As other countries have made dramatic gains in degree attainment the U S has improved more slowly In response President Obama recently laid out a national completion agenda with the goal of making the U S the best educated nation in the world by the

year 2020 Getting to Graduation explores the reforms that we must pursue to recover a position of international leadership in higher education as well as the obstacles to those reforms This new completion agenda puts increased pressure on institutions to promote student success and improve institutional productivity in a time of declining public revenue In this volume scholars of higher education and public policymakers describe promising directions for reform They argue that it is essential to redefine postsecondary education and to consider a broader range of learning opportunities beyond the research university and traditional bachelor degree programs to include community colleges occupational certificate programs and apprenticeships The authors also emphasize the need to rethink policies governing financial aid remediation and institutional funding to promote degree completion     **Blackwood's Magazine** ,1887     Blackwood's Edinburgh Magazine ,1887
