Let's Talk About Varsity ,2009 The Youth Dividend Jan H. Hofmeyr,2012 Social Justice and Education in the 21st Century Willie Pearson Jr.,Vijay Reddy,2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country s developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy **Student Financing of Higher Education** Donald Heller,Claire Callender,2013-06-07 The financing of higher education is undergoing great change in many countries around the world In recent years many countries are moving from a system where the costs of funding higher education are shouldered primarily by taxpayers through government subsidies to one where students pay a larger share of the costs There are a number of factors driving these trends including A push for massification of higher education in the recognition that additional revenue streams are required above and beyond those funds available from governments in order to achieve higher participation rates Macroeconomic factors which lead to constraints on overall government revenues Political factors which manifest in demands for funding of over services thus restricting the funding available for higher tertiary education A concern that the returns to higher education accrue primarily to the individual rather than to society and thus students should bear more of the burden of paying for it This volume will help to contribute to an understanding of how these trends occur in various countries and regions around the world and the impact they have on higher education institutions students and society as a whole With contributions for the UK USA South Africa and China this vital new book gives a truly global picture of the rapidly changing situation Access to Success and Social Mobility through Higher Education Stuart Billingham,2018-08-23 This collection of essays illuminates the benefits drawbacks challenges and opportunities of the push to widen access to success and social mobility through university and other post secondary education experiences in the UK and internationally Creating the New African University ,2023-05-25 Creating the New African University grapples with the existence of African universities particularly in post independent Africa where Higher Education Institutions HEIs are supposed to live up to the expectations of being adaptive in dealing with prevalent complex dynamic contemporary and future challenges facing African societies The book tackles the issue of what ought to be done for African universities to maintain a structure and identity that ensures their relevance in Africa s development through generating and transforming knowledge into actions for the common good It engages issues within the context of how post colonial transformative obligations have been managed in light of the prevalent epistemological and pedagogical

underpinnings that form the foundations of these universities as they seek to break from the clutches of colonial legacies This book further highlights an urgent need to do away with silos and embrace a multidisciplinary interdisciplinary transdisciplinary and cross disciplinary dialogical approach towards knowledge generation Such an approach is essential in efforts aimed at enhancing the sustainable reconfiguration of university structures and functions whilst linking knowledge produced to diverse social economic and political facets of African societies in ways that promote and sustain competitiveness in a rapidly globalising world beset with technological advancements

Financing Access and Equity in Higher Education ,2019-02-11 The demand for higher education worldwide is booming Governments want well educated citizens and knowledge workers but are scrambling for funds The capacity of the public sector to provide increased and equitable access to higher education is seriously challenged What are the on the ground realities of developing financial resources and policies to meet the twin goals of equity and access without jeopardizing quality This volume provides in depth reports from selected countries and sub regions Morocco Korea England Uganda Poland Oman East and southern Africa Southeast Asia Brazil and Egypt Each chapter is written by a seasoned educator participating in the Fulbright New Century Scholar program for 2007 2008 Given the near universal constraints of declining resources but increasing enrollments the authors identify common trends such as the public private divide the privatization of the public sector and diversification of funding To address these issues the chapters examine a surprising variety of policy instruments such as means testing targeted subsidies cost sharing institutional aid student bursaries and tax exemptions

Discrimination in an Unequal World Miguel Angel Centeno,Katherine S. Newman,2010-09 Is globalization

making our world more equal or less Proponents of globalization argue that it is helping and that in a competitive world no one can afford to discriminate except on the basis of skills Opponents counter that globalization does nothing but provide a meritocratic patina on a consistently unequal distribution of opportunity Yet despite the often deafening volume of the debate there is surprisingly little empirical work available on the extent to which the process of globalization over the past quarter century has had any effect on discrimination Tackling this challenge Discrimination in an Unequal World explores the relationship between discrimination and unequal outcomes in the appropriate geographical and historical context Noting how each society tends to see its particular version of discrimination as universal and obvious the editors expand their set of cases to include a broad variety of social relations and practices However since methods differ and are often designed for particular national circumstances they set the much more ambitious and practical goal of establishing a base with which different forms of discrimination across the world can be compared Derived from a broad array of methods the book draws many important lessons on the new means by which the world creates social hierarchies the democratization of inequality and the disappearance of traditional categories

Higher Education, 2023-11-02 COVID wrought havoc on the world's economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

Government Managing Risk Bruce Chapman, 2006-09-27 Higher education rates are increasing throughout the Western world yet at the same time government budgets face increasing constraints This has ensured that the importance of student support is recognized in many countries In recent years there has been a world wide movement towards the use of income contingent loans ICL for higher education ICLs are now used in six countries following the Australian innovation of 1989 with the governments of many more countries looking very seriously

at the model This impressive new book by Bruce Chapman analyzes ICLs particularly their use in supporting students exploring the experiences of a number of other countries adopting them Chapman presents analysis of a number of disparate case studies to illustrate how ICLs can aid risk management policy reforming in both progressive and administratively feasible ways This book describes examines and promotes an exciting new role for the public sector as a manager of risk and argues that ICLs have enormous potential to change the extent and nature of social and economic activities With the author's experience in the design and implementation of the Australian student financial support schemes this is a knowledgeable informative and enlightening book that will be useful to researchers students and policy makers alike **Pretoria Student**

South Africa Can Work Frans Rautenbach, 2017-08-18 What will it take to turn South Africa around In this insightful

and provocative book Frans Rautenbach proposes a complete overhaul of policy thinking and provides fresh arguments that effectively address South Africa's unemployment, race problems and lack of education. Rautenbach examines the fundamental problem of rent seeking to which he proposes two antidotes: the free market and decentralisation of government. Along the way he tackles holy cows such as affirmative action, trade unions, labour law and welfare payments. He also addresses contentious topics such as racism, white privilege, political correctness, state funding of higher education and mounting evidence that trade unions substantially suppress employment growth. Written by a labour lawyer with a proven track record in a range of policy issues, *South Africa Can Work* speaks effectively to a cross section of readers of all disciplines and brings sorely needed good news.

Scholarship Models around the Globe - Embracing Diversity, New Trends and Opportunities Katherine Meltzoff, Elsa Justino, Ines Casquilho-Martins, 2025-05-14 *Scholarship Models Around the Globe: Embracing Diversity, New Trends and Opportunities* offers a comprehensive exploration of global higher education funding systems and their impact on students' academic journeys and career trajectories. With a focus on equity, inclusion and the challenges faced by historically marginalized groups, this volume provides insights into diverse scholarship models across different regions. By examining the interplay between financial support and access to higher education, the book highlights both the successes and limitations of various funding initiatives. It explores how social mobility fosters sustainable development and addresses systemic inequalities while offering policy recommendations for more inclusive and effective programmes. Engaging with comparative case studies from Africa, Latin America, the Middle East and beyond, this volume is an essential resource for researchers, educators and policymakers seeking to understand the evolving dynamics of higher education funding. Rich with diverse perspectives, this book highlights emerging trends and innovative practices, making it an essential part of the ongoing conversation on educational equity and the future of global scholarship programs.

The Responsive University and the Crisis in South Africa, 2021-05-31 Around the world, higher education is faced with a fundamental question: what is the basis for our claim of societal legitimacy? In this book, the authors go beyond the classical response regarding teaching, research and community engagement. Instead, the editor puts forward the proposition that the answer lies in responsiveness: the extent to which universities respond or fail to respond to societal challenges. Moreover, because of its intractable legacy issues and crisis of inequality, the question regarding the societal legitimacy of universities is particularly clearly manifested in South Africa, one of the most unequal countries in the world. *The Responsive University* brings together contributions on the issue of responsiveness from a number of international university leaders, half of them specifically addressing the South African situation within the context of the international situation as presented by the other authors. In the global discussion about the role of universities in society, this book provides a conceptual framework for a way forward.
