- **Communication activities:** *Student's Book* pages 138 & 140
- **Pairwork.** Put students into A and B pairs and ask them to turn to their respective pages and study the photo.
- They then work with their partner and show each other their photo. They describe the similarities and differences between the two photos and decide what links them.
- Refer students to the *Useful language* box below the exercise to help them.

That people sometimes use animals to work and entertain them.

- **Pairwork.** Students use the categories in the box to discuss with a partner the different ways animals are used by humans.

Possible answers:

leisure/entertainment: circuses
research: testing on animals for medical purposes or to test cosmetics
security: sniffer dogs to test for drugs or explosives at airports; to protect property
sport: horseracing; greyhound racing; fox hunting
work: dogs for the blind and other disabilities;
workhorses for pull carts; mules and camels to carry people's belongings in some countries

- Pairs join up with another pair to compare their ideas in exercise 2. They then discuss the questions.

DID YOU KNOW?

- **Pairwork.** Students read the information and discuss the questions.
- You could then ask students to report back briefly on anything interesting they heard in their discussions.

Web research task

- **Methodology guidelines:** *Web research tasks*, page xiv

Crafts

- If you have a class that likes dogs, get them to find out what happened at the most recent Crufts dog show. Ask them these questions:

- 1 Which breed of dog was *Best in Show*?
- 2 Can you find a photo of the winner?
- 3 What were other prizes awarded for?
- 4 If you want your dog to enter next year, what exactly must it do (or you do) to be accepted?

Direct Instruction: A practitioner's handbook Kurt Engelmann,2024-04-05 Direct Instruction DI is a powerful instructional approach designed to ensure that students master critical skills and content required for more advanced learning Although DI has existed since the late 1960s there are many common misconceptions about the approach

its potential to enhance student learning and the way its proper implementation facilitates students academic success This book provides a systematic explanation of the Direct Instruction methodology and DI program design as it outlines a roadmap for teachers and school leaders on how to implement DI successfully Divided into three main sections the first section describes DI as a coherent and complete teaching and learning system that contrasts DI with lower case di or explicit instruction which focuses on effective instructional delivery techniques The second section provides a step by step guide to implementing DI The third section is devoted to cautions about implementing DI This section reinforces the notion that the physical possession of the DI curricula does not by itself lead to student success Those who adopt DI need to ensure that it is implemented with fidelity for the benefit of their students who are reliant on them to provide them with the means to achieve their academic potential so they may lead healthy productive lives
