Creating the New African University , 2023-05-25 Creating the New African University grapples with the existence of African universities particularly in post independent Africa where Higher Education Institutions HEIs are supposed to live up to the expectations of being adaptive in dealing with prevalent complex dynamic contemporary and future challenges facing African societies The book tackles the issue of what ought to be done for African universities to maintain a structure and identity that ensures their relevance in Africa s development through generating and transforming knowledge into actions for the common good It engages issues within the context of how post colonial transformative obligations have been managed in light of the prevalent epistemological and

pedagogical underpinnings that form the foundations of these universities as they seek to break from the clutches of colonial legacies This book further highlights an urgent need to do away with silos and embrace a multidisciplinary interdisciplinary transdisciplinary and cross disciplinary dialogical approach towards knowledge generation Such an approach is essential in efforts aimed at enhancing the sustainable reconfiguration of university structures and functions whilst linking knowledge produced to diverse social economic and political facets of African societies in ways that promote and sustain competitiveness in a rapidly globalising world beset with technological advancements A Better Future Jacqueline Bhabha, Wenona Giles, Faraaz Mahomed, 2020-09-17 This book explores the exclusion of underprivileged groups from higher education a critical frontier for diversity and equality endeavors **Service-Learning Paradigms** Kenneth Colburn, Jr., Rona Newmark, 2007-07 The papers in this volume have been selected primarily from the presentations at the International Symposium on Service Learning cosponsored by Stellenbosch University in South Africa and the University of Indianapolis in the United States It aims to explore service learning paradigms for the 21st century New Paradigms for Theory Research and Curriculum Development New Paradigms for Teaching and Learning and Paradigms for Intercommunity and Interdisciplinary Collaboration This volume provides clear evidence that the paradigm of service learning has gone global and international Service learning has become the new coin of the academic and civic realm for issues of connecting teaching scholarship and community services Proceedings of the Focus Conference (TFC 2024) Manyane Makua, Mariam Akinlolu, Phiwayinkosi Gumede, Mashango Sithole, Cebo Nyondo, Ntombikhona Nene, Mandlenkosi Mhlongo, 2024-12-31 This is an open access book The Teaching and Learning Development Centre TLDC at Mangosuthu University of Technology MUT invites you to the 11th Focus Conference scheduled for 14 to 16 August 2024 at Southern Sun Elangeni Hotel Durban South Africa The theme of the Conference Three Decades of Democracy reflecting on Higher Education Achievements Challenges Impact and the Future is aptly aligned with South Africa's 30 years of democracy celebration The Conference brings together leading scholars academics policymakers and practitioners in the higher education and TVET sectors to share their research and express their perspectives concerning the Conference theme and sub themes The Future We Chose Busani Ngcaweni, 2014-01-17 This book foregrounds emerging and different perspectives on the centenary of the ANC which was celebrated in February 2012 Differing in tenor methodology and style we present nineteen chapters that tackle various epochs and events in the making of the centenary of the oldest political organisation in Africa The book offers new angles to our understanding of what sustained the ANC over one hundred years in spite of all the internal and external contradictions There is arguably a view that part of what distinguishes the ANC from other revolutionary movements in the continent is that from the turn of the twentieth century its founders prioritised national unity across tribal ethnic linguistic religious gender and racial identities This ideal of national unity informed their responses to the formation of the Union of South Africa in 1910 and the declaration of the South African Republic in 1961 In principle the

leadership was opposed not to these manifestations of concrete nation state formation but to the practice of excluding the majority of South African citizens according to racial markers As a contribution to the historiography of the ANC and that of South Africa which it was established to liberate the book tackles the following critical questions what traits in the ANC s genetic code have kept it alive for one hundred years Is the ANC on course to meeting its historical mission of building an equitable nonracial non sexist and socially democratic society as articulated in the Africans Claims the Freedom Charter and the Strategy and Tactics documents Finally would the ANC continue to retain relevance for a bicentenary especially as it now contends with new internal and external contradictions in an increasingly unequally society and unipolar world order This new hypothetical architecture hopefully will be employed by many others engaged in the study of the rise and fall of political organisations *Campus Student Activism, Politics, and Citizenship in the 21st Century* Tshishonga, Ndwakhulu, 2025-04-03

Student activism and citizenship remain an integral part of the governance of academic institutions democratizing the learning environment and advancing democratic values and societal change As a result student activism has become a key aspect of the global higher education landscape Individually and through the student councils students have been at the forefront fighting for social justice and equality inside their academic institutions and in larger society by fusing activism with citizenship Through student activism and citizenship students demonstrate their power to keep governments responsible and in redirecting the voices of students in higher education s decision making processes Further exploration may afford students the opportunity to influence social change by partaking in educational policy reforms and broadening global sociopolitical and economic growth *Campus Student Activism Politics and Citizenship in the 21st Century* examines the dynamics of campus politics through student activism and citizenship perspectives academia public private and civil society sectors It explores how student leadership engages university society stakeholders including management and governance structures and student welfare and institutional policy reformation in defense of the rights and interests of students This book covers topics such as higher education political engagement and social justice and is a useful resource for policymakers government officials sociologists political scientists academicians and researchers **Responsibility of Higher Education Systems**, 2020-06-29

The evolving societal political and economic landscape has led to increased demands on higher education institutions to make their contribution and benefits to society more visible and in many cases with fewer public resources This book contributes to the understanding of the responsibilities of Higher Education and the challenges posed to the production and circulation of knowledge It raises questions about the role of higher education in society its responsibility towards students and staff and regarding its intended impact The book brings together a range of topical papers and a diversity of perspectives scientific investigations of reputed scholars critical evidence based papers of third space professionals and policymakers perspectives on the daily practice and management of higher education institutions and systems The variety of both content and contributors elevates the richness of the book and its relevance for a large audience

Corrupted Jonathan D Jansen, 2023-02-01 In South African higher education the images of

dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict Corrupted takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly

Knobil and Neill's Physiology of Reproduction Tony M. Plant, Anthony J. Zeleznik, 2014-11-15 The Fourth Edition of Knobil Neill continues to serve as a reference aid for research to provide the historical context to current research and most importantly as an aid for graduate teaching on a broad range of topics in human and comparative reproduction In the decade since the publication of the last edition the study of reproductive physiology has undergone monumental changes Chief among these advances are in the areas of stem cell development signaling pathways the role of inflammation in the regulatory processes in the various tissues and the integration of new animal models which have led to a greater understanding of human disease The new edition synthesizes all of this new information at the molecular cellular and organismal levels of organization and present modern physiology a more understandable and comparative context The Fourth Edition has been extensively revised reflecting new fundamental advancements in this rapidly advancing field Provides a common language for researchers across the fields of physiology endocrinology and biology to discuss their understanding of reproduction Saves academic researchers time in quickly accessing the very latest details on reproductive physiology as opposed to searching through thousands of journal articles

Student Activism in the Global South Kurauone Masungu, 2024-09-01 This book makes an original conceptual and empirical contribution to debates on the role of student activism in enhancing social justice within education in the Global South using South Africa as a case study The book explores the development of higher education students political
