Dissecting A Tomato For Kids:

Dissecting Stephen King Heidi Strengell, 2005 In a thoughtful well informed study exploring fiction from throughout Stephen King's immense oeuvre Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage Tapping into the wellsprings of the gothic to reveal contemporary phobias King invokes the abnormal and repressed sexuality of the vampire the hubris of Frankenstein the split identity of the werewolf the domestic melodrama of the ghost tale Drawing on myths and fairy tales he creates characters who like the heroic Roland the Gunslinger and the villainous Randall Flagg may either reinforce or subvert the reader's childlike faith in society And in the manner of the naturalist tradition he reinforces a tension between the free will of the individual and the daunting hand of fate Ultimately Strengell shows how King shatters our illusions of safety and control King places his decent and basically good characters at the mercy of indifferent forces survival depending on their moral strength and the responsibility they may take for their fellow men
