Accounting for Common Costs Murray C. Wells, 2006 During the 1960s and 1970s a remarkable series of books was produced by academic staff in the field of accounting at the University of Sydney It was a period when academic research was largely analytical rather than empirically based For the most part the interests of academics at Sydney were largely directed at questioning the status quo either in the way accounting or auditing was practiced or in the conventional wisdom expressed in textbooks of the time The Sydney Accounting Classics series reflects the diversity of interests of the Sydney school at that time It also recognises the tremendous impact of the foundation professor of accounting R J Chambers This reprint series ensures that the ideas developed during this period remain available to new generations of scholars and researchers The Sydney Accounting Classics series is an initiative of the Accounting Foundation in association with Sydney University Press Accounting for Common Costs The editor of the 1978 edition called this a seminal work in one of the most difficult allocation problems in accounting Accounting for Common Costs

contains a comprehensive historical study of the allocation of costs in accounting practice as well as discussion of points of difference and the need to promote economic efficiency Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense Information Quality and Management Accounting Stephan Leitner, 2013-01-24 One of the main aims of management accounting is to provide managers with accurate information in order to provide a good basis for decision making There is evidence that the information provided by management accounting systems MAS is distorted and the occurrence of biases in accounting information is widely accepted among users of MAS At the same time the intensity and the frequency of use of MAS increase too Consequently the quality of the provided information is critical The focus of this simulation study is twofold On the one hand the impact of the sophistication of traditional costing systems on error propagation in the case of a set of input biases is investigated On the other hand the impact of single and multiple input biases on the quality of the information provided by traditional costing systems is focused In order to investigate the research questions a simulation approach is applied **A History of Management Accounting** Trevor Boyns, J. R. Edwards, 2013 There is growing interest in the history of accounting amongst both accounting practitioners and accounting academics This interest developed steadily from about 1970 and really took off in the 1990s However there is a lack of texts dealing with major aspects of accounting history that can be used in classrooms to inform new researchers and to provide a source of reference for established researchers The great deal of research into cost and management accounting in Britain published in academic journals over the last twenty years including the authors own contributions makes *The History of Cost and Management Accounting* an essential contribution to the field

Management Control Theory A.J. Berry, J. Broadbent, D.T. Otley, 2019-05-23 First published in 1998 this volume of readings provides an overview of the development of the study of Management Control theory over the past 35 years The period encompasses the publication of a major and seminal text by Anthony and Dearden in 1965 which acted as a touchstone in defining the range and scope of management control systems This laid management control s foundations in accounting based mechanisms of control an element which has been seen as both a strength and a constraint A good deal of work has followed providing both a development of the tradition as well as a critique In this volume we attempt to provide a range of readings which will illustrate the variety of possibilities that are available to researchers scholars and practitioners in the area The readings illustrate the view that sees control as goal directed and integrative They go on to explore the idea of control as adaption consider its relationship with social structure and survey the effects of the interplay between the organisation and the environment The essays included are not intended to lead the reader through a well ordered argument

which concludes with a well reasoned view of how management control should be Instead it seeks to illustrate the many questions which have been posed but not answered and to open up agendas for future research **Cost Accounting** Dr. Saroj Kumar,Dr. Jeetendra Pratap Singh,2024-05-01 According to the New Syllabus of University of Lucknow as per the semester system *NAA Management Accounting* ,1966 Accounting Edward J. McLaney,Eddie McLaney,2009-09 Designed to help you study Accounting An Introduction 4th edition is praised for its clear accessible and uncluttered style It provides a comprehensive introduction to the main principles of financial accounting management accounting and the core elements of financial management It has a clear and unequivocal focus on how accounting information can be used to improve the quality of decision making by managers This combined with the book s strong practical emphasis provides you with the perfect grounding for your future career as a manager **Introduction to Accounting** William J. Bruns,1971
