Houghton Mifflin Kindergarten Look At Us:

Differentiated Literacy Instruction for English Language Learners Alice L. Quioco, Sharon H. Ulanoff, 2009

Differentiated Literacy Instruction for English Language Learners assists teachers in developing a multifaceted approach to successful instruction uniquely clarifying the critical role of culture and language in working with English language learners. Carefully crafted chapters guide literacy educators from initial assessment to the development of successful differentiated instruction. Drawing on their vast experience with teaching English Learners, Alice Quioco and Sharon Ulanoff offer teachers a myriad of practical strategies, lots of authentic teacher examples, and detailed lesson plans. They identify how to build English skills with English learners at every developmental level. In addition, the authors also feature a chapter detailing the steps necessary to reach English learners who have been identified for special education, a topic infrequently covered in other texts. The explicit lesson plans, field studies, and classroom vignettes crystallize the theories presented in this text. Teachers will find that Differentiated Literacy Instruction for English Language Learners promotes a personalized approach to English learning that will prove to be a vital tool for anyone hoping to maximize their students' potential. What reviewers say: The authors know their field and they recognize and confirm teachers' abilities and expertise to enhance English language learners' content literacy development. Janet Richards, University of South Florida. I think the authors do a wonderful job connecting theory to practice. The writers do an excellent job of writing a clear and interesting text. Debra Price, Sam Houston State University. There is much value in the pedagogical features of this book. I have never seen such an extensive explanation of language acquisition and the different ways teachers can assess English learners. I think that it will be the best book on the market in this regard. Deanna Gilmore, Washington State University.

At the turn of the nineteenth century, the German kindergarten, banned by the Prussian government as revolutionary, spread rapidly to nations around the globe, becoming at once a local and modernizing institution. This book is a collection of case studies that describe the remarkable diffusion, adoption, and transformation of the kindergarten in eleven modern and developing nations. The contributors to the volume examine the process by which the idea of the kindergarten arrived and was adopted in these countries, a process that invariably demonstrated the immense power of local cultures.

whether Christian Buddhist or Islamic to respond to and reformulate borrowed ideas Borrowing cultures do not engage in passive mimicry the studies show but recast ideas for their own purposes Beginning with Germany the chapters of this book follow the kindergarten idea as it passed in the nineteenth and early twentieth centuries to the United States then England Australia Japan China Poland Russia Vietnam Turkey and Israel The contributors examine such complex political social and cultural issues as the relationship of gender to national educational policies the impact of mi

Cycles of Poverty and Crime in America's Inner Cities Lewis D. Solomon,2018-02-06 Despite the best hopes of the past half century black urban pathologies persist in America The inner cities remain concentrations of the uneducated unemployed underemployed and unemployable Many fail to stay in school and others choose lives of drugs violence and crime Most do not marry leading to single parent households and children without a father figure The cycle repeats itself generation after generation It is easy to argue that nothing works given the policy failures of the past For Lewis D Solomon fatalism is not acceptable A complex and interrelated web of issues plague inner city black males joblessness the failure of public education crime mass incarceration and drugs the collapse of married

two parent families and negative cultural messages Rather than abandon the black urban underclass Solomon presents strategies and programs to rebuild lives and revitalize America s inner cities These approaches are neither government oriented nor dependent on federal intervention and they are not futuristic Focusing on rehabilitative efforts Solomon describes workforce development prisoner reentry and the role of nonprofit organizations Solomon s strategies focus on the need to improve the quality of America s workforce through building human capital at the socioeconomic bottom The goal is to enable more people to fend for themselves thereby weaning them from dependency on public sector handouts Solomon shows a path forward for inner city black males

The Annual American Catalog, 1900-1909 ,1906 Schooling, the Puritan Imperative, and the Molding of an American National Identity Douglas McKnight,2003-05-14 Present day America is perceived by many as immersed in a moral crisis with national identity fractured and uncertainty and anxiety about the future Public schools in this country are historically and still today the major institution charged with preserving and teaching the symbols of national identity and a morality that is the concrete expression of those symbols and the ideas for which they stand A widespread belief is that only through schooling can America be saved from the current crisis but the schools have failed in this mission and must be reformed In this book Douglas McKnight develops a historical interpretation of how the New England Puritans generated a powerful belief system and set of symbols that have fed American identity and contributed to preserving and perpetuating it into the present time He explores the relationship between the purposes of education and how this term has shifted in meaning and the notion of an American identity and morality rooted in the Puritan concept of an errand into the wilderness that serves a particular sacred secular purpose The phrase errand into the wilderness is taken from a 1956 book by Perry Miller with this title where it refers to the Puritan dream of creating a city in the wilderness the North American Colonies that would be a utopian community a beacon for the rest of the world for how to organize and live in the ideal religious community Highly pertinent to the current debate about the purposes and crisis in education and in America morality in schools the cultural function of education the changing nature of the language of education the complex relation of schooling and national identity this book explicates these elements within the American psyche by exploring the effects of the Puritan symbolic narrative at three different points in American history Puritans during the 1600s and 1700s the Gilded Age when the urban Protestant middle class ascended to cultural dominance and the present age Schooling the Puritan Imperative and the Molding of an American National Identity Education s Errand Into the Wilderness makes an important contribution to the fields of curriculum studies and the history of education It will interest students and scholars in these fields as well as those in educational philosophy religion and education intellectual and social history and American studies

Motherhood, Childhood, and Parenting in an Age of Education Maryellen Schaub,2023-05-05 Motherhood as a celebrated yet underappreciated role is often thought of as a natural process something instinctive that we refine by watching our own mothers and others in our community We rarely think of motherhood as

something that is time and culturally specific yet like culture itself it is socially constructed and both motherhood and childhood evolve over time With the rise in educational attainment of mothers in the American population the expectations associated with childhood increasingly include not just education but cognitive development and extracurricular activities as the partnership between parents and education intensifies in the joint project of human development of children Motherhood Childhood and Parenting in an Age of Education offers a new way to conceptualize the high demands of contemporary parenthood It traces the emerging narrative about the good mother changes in the underlying assumptions of what constitutes the good mother and the implications for the good childhood as education grows in institutional strength This book demonstrates that education is driving the formation of the parent and child roles in the dominant contemporary culture of the US although alternate models exist Education itself has expanded over time to become our largest social intervention defining behaviors and beliefs such as parental involvement in schooling the unengaged parent and the deficient student
