Inflation Mark Blyth, Nicolò Fraccaroli, 2025-05-06 One of the Financial Times s Best Summer Books of 2025 An essential dose of clear thinking on one of the most contentious issues in economic policy Adam Tooze A fresh revealing and myth busting guide to the ins and outs of inflation from two leading political economists Inflation is back and its impact can be felt everywhere from the grocery store to the mortgage market to the results of elections around the world What s more tariffs and trade wars threaten to accelerate inflation again Yet the conventional wisdom about inflation is stuck in the past Since the 1970s there has only really been one playbook for fighting inflation raise interest rates thereby creating unemployment and a recession which will lower prices But this simple story hides a multitude of beliefs about why prices go up and how policymakers can wrestle them back down beliefs that are often wrong damaging and have little empirical basis Leading political economists Mark Blyth and Nicol Fraccaroli reveal why inflation really happens challenge how we think about it and argue for fresh approaches to combat it With accessible and engaging commentary and a good dose of humor Blyth and Fraccaroli bring the complexities of economic policy and inflation indices down to earth Policymakers around the world may have pulled off a so called soft landing but Inflation warns they must update their thinking Now tariffs climate shocks demographic change geopolitical tensions and politicians promising to upend the global order are all combining to create a more inflationary future making a new paradigm for understanding inflation urgently necessary Astute timely and engaging Inflation is a must read for anyone seeking to understand the forces shaping our economy and politics

Arbitration in Switzerland Dr. Manuel Arroyo, 2018-08-06 Arbitration in Switzerland *International Business Ethics* Stephan Rothlin, Dennis McCann, 2015-07-29 This book addresses an essential need felt by many who seek to promote best business practices in China and East Asia namely the need for culturally appropriate instructional materials basic information case studies and ethical perspectives that will allow managers and entrepreneurs to understand and embrace the challenge of moral leadership in business In an era characterized by globalization and the increasing importance of the economies of China India Japan and SE Asia international business ethics must reflect the concerns of the people living and working in this area the moral and spiritual traditions that have nurtured them and their specific contributions to sustainable development This book presents twenty important case studies taken from newsworthy events of the past few years in which Asians and others have attempted to respond to this challenge Each case study has been selected and shaped in order to highlight various aspects of doing business in Asia starting with basic principles and moving on to the specific responsibilities that businesses have towards their various stakeholders The authors contend that the best way to appreciate the relevance of Asian moral and spiritual traditions is to determine their specific contribution to virtue ethics where the ancient traditions of both East and West converge in their focus on the qualities of moral leadership that form the basis of best business practice Exploring the case studies will enable readers to appreciate the continued relevance of these ethical perspectives in Asian business

Best business practice clearly involves learning to do business and playing the game according to the rules but the necessity of playing by the rules is not likely to become clear until one takes up the path that leads to a virtuous life in business developing a moral character chiefly based on integrity

The Struggle of Democratisation against Authoritarianism in Contemporary Africa Kenneth Good, 2020-05-07 This book discusses how the historical dimensions in Kenya Zimbabwe and South Africa are similar dominated by oppressive settler colonialism and authoritarian independent governments their ruling elites characterised by greed and corruption Zimbabwe is outstandingly oppressive plagued from the start by planned regularised ferocious and unparalleled violence as described in one chapter Perpetrated by ZANU PF and President Robert Mugabe it targeted the organised urban poor Hope arose when the trade unions created the MDC in Harare in 1999 A chapter on South Africa is also included and outlines how a small ANC elite chose external armed struggle around 1960 Their campaign marooned thousands of young people in Angolan camps for no military gains and the neglect of domestic political development A new and independent formation the United Democratic Front from 1983 tried to build a popular non racial participatory democracy However an intolerant ANC was determined on its supremacy and Nelson Mandela suppressed the Front in 1991 No similar democratic aspiration has subsequently appeared Another country examined in this text is Tunisia which since 2010 has been totally different utilising an organised civil society a democratic Islamist party and wide readiness to compromise an open politics is being created against big odds
