Operations Management for Healthcare Jan Vissers, Sylvia Elkhuisen, Nathan Proudlove, 2022-11-25 This fully updated edition of the bestselling textbook on Health Service Operations Management provides an invaluable reference for students and researchers in the fields of healthcare management operations management and patient flow logistics Featuring theoretical frameworks and a comprehensive set of practical case studies this book also covers subjects such as hospital planning and supply chain management in healthcare quality assurance and performance management Healthcare

managers work together with healthcare professionals in a multitude of challenging scenarios Trade offs have to be made between waiting times for customers and efficient use of scarce resources between quality of care and quality of services between the perspective of a single pathway and the total system and between the perspective of a single provider and that of a network of providers working together in the chain of primary care hospitals nursing homes and home care This book guides healthcare students and professionals through a set of practical tools and resources ranging from simple queueing models to more complicated analytical models to help address these issues The book can be used at an undergraduate level by introducing concepts definitions and approaches and at a postgraduate level through the application of approaches to operations management problems in healthcare practice It will serve as a primary textbook for a health service operations management course module in a Master s program on healthcare management University on the Border Lis Lange, Vasu Reddy, Siseko H. Kumalo, 2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university

Entropy Applications in Environmental and Water Engineering Huijuan Cui, Bellie Sivakumar, Vijay P. Singh, 2019-03-07 Entropy theory has wide applications to a range of problems in the fields of environmental and water engineering including river hydraulic geometry fluvial hydraulics water monitoring network design river flow forecasting floods and droughts river network analysis infiltration soil moisture sediment transport surface water and groundwater quality modeling ecosystems modeling water distribution networks environmental and water resources management and parameter estimation Such applications have used several different entropy formulations such as Shannon Tsallis R nyi Burg Kolmogorov Kapur configurational and relative entropies which can be derived in time space or frequency domains More recently entropy based concepts have been coupled with other theories including copula and wavelets to study various issues associated with environmental and water resources systems Recent studies indicate the enormous scope and potential of entropy theory in advancing research in the fields of environmental and water engineering including establishing and explaining physical connections between theory and reality The objective of this Special Issue is to provide a platform for compiling important recent and current research on the applications of entropy theory in environmental and water engineering The contributions to this Special Issue have addressed many aspects associated with entropy theory applications and have shown the enormous scope and potential of entropy theory in advancing research in the

fields of environmental and water engineering **MMS 2018** Lucia Knapčíková ,Dragan Perakovič,Michal Balog,Marko Periša,2018-12-04 The conference aims at creating synergies of practice and research increasing the potential and commercial viability of research and development in the field of innovative technologies in management of manufacturing systems Industry 4 0 logistics and traffic transport system The ambition of the MMS 2018 conference is to establish channels of communication and disseminate knowledge among stakeholders in mentioned ecosystem Therefore we cordially invite experts researchers academicians and practitioners in relevant fields to share their knowledge from the field of innovative ecosystem for management of manufacturing systems Industry 4 0 logistics and traffic transport system **Machine Tools** Lubomír Šooš,Jiri Marek,2020-10 Successful producers of machine tools today must offer customers highly efficient and accurate machines This can only be achieved with the help of modern software in research construction production and quality control Trends in development are oriented towards modular construction machines The application of modern tools and the progressive construction of headstock has increased cutting speeds thus significantly increasing the machine s productivity The first section of the book is focused on trends in the development of machines A second very significant machine parameter is accuracy The rigidity of the machine is a necessary condition for achieving its required accuracy The second part of the book is dedicated to the effect of the individual constructional nodes on stability the optimization of system rigidity and the measuring of the accuracy of the machining tools The aim of the third and final section of the book is to point out the widest possibilities for the application of machine tools in industry An example is presented of the application of machining tools in the orthoses manufacture Review of the state of the world fishery resources: Inland fisheries Food and Agriculture Organization of the United Nations,2018-11-05 The FAO Fishery and Aquaculture Circular C942 Revision 3 C942 Rev 3 updates and expands the scope of previous revisions of the circular C942 Rev 3 is an important baseline document intended to assist in the global understanding of inland fisheries and inform dialogue on their current and future role The third revision reviews the status and trends of inland fisheries catch at global continental and subcontinental levels It places inland capture fisheries in the context of overall global fish production and calls attention to the importance of inland capture fisheries with respect to food security and nutrition and the Sustainable Development Goals It quantifies global inland fisheries resources in terms of food production nutrition employment economic contribution with respect to those countries regions or subnational areas where they are important A characterization approach to distinguish large scale and small scale fishing operations and their relative contributions is provided The review provides estimated economic values of inland fisheries as well as a valuation of potential replacement cost of these in terms of dollars other resources such as land and water feeds There is also an analysis of the extent and economic value of recreational inland fisheries The contribution to employment and the gender differences related to this are quantified The linkages between inland fisheries and biodiversity are also explored C942 Rev 3 discusses ways to measure and assess inland fisheries in particular how to establish more

Investment case for tobacco control in Vanuatu United Nations Development Programme, World Health Organization, 2024-06-20 A key support for FCTC 2030 project countries is the development of a WHO FCTC investment case. These investment cases analyze the health and economic costs of tobacco use as well as the potential economic benefits that can come from implementing key WHO FCTC measures. Focusing on the economic rationale for tobacco control, the WHO FCTC investment cases provide policymakers and other stakeholders with country level evidence to inform tobacco control policy making. The investment case for Vanuatu was prepared under the FCTC 2030 project in close collaboration with governments of FCTC 2030 project countries, the Convention Secretariat, UNDP and WHO.

Water Resources Monitoring, Management, and Sustainability Subodh Chandra Pal, Shouraseni Sen Roy, Asish Saha, Mohamed Abioui, 2024-09-02 Water Resources Monitoring, Management and Sustainability Application of Geostatistics and Geospatial Modeling Volume 16 a new volume in the Developments in Environmental Science series introduces a variety of advanced modeling techniques like changing climate and land use land cover hydrological models and machine learning approaches. These techniques are applied to address water resources and environmental monitoring as well as planning and sustainable management of water resources. Further, the book discusses how to manage water resources at various local, regional and international levels while incorporating environmental considerations. Finally, it delves into cutting edge techniques based on open source software and R statistical programming, Google Earth Engine and modeling in modern artificial intelligence techniques with a particular emphasis on recent trends in data mining techniques and robust modeling in water resource crisis related hazards. Provides essential information on new methods for managing water resources to minimize the global water crisis. Illustrates a geospatial technology approach to data mining techniques, data analysis, modeling, risk assessment and visualization and management strategies in many elements of natural and societal hazards. Includes works that address the connection between water, climate change and the environment.

Online Teaching and Learning in Higher Education Pedro Isaias, Demetrios G. Sampson, Dirk Ifenthaler, 2020-09-29 This book explores a variety of facets of online learning environments to understand how learning occurs and succeeds in digital contexts and what teaching strategies and technologies are most suited to this format. Business, health, government and education are some of the core sectors of society which have been experiencing deep transformations due to a generalized digitalization. While these changes are not novel, the swift progress of technology and the rising complexity of digital environments place a focus on the need for further research and novel strategies. In the context of education, the promise of increased flexibility and broader access to educational resources is impelling much of higher education's course offerings to online environments. The 21st century learner requires an education that can be pursued anytime and anywhere and that is more aligned with the demands of a digital society. Online education not only assists students to successfully integrate a workforce that is increasingly digital but it helps them

to become more comfortable with the use of technology in general and hence more prepared to be prolific digital citizens The variety of settings portrayed in this volume attest to the unlimited opportunities afforded by online learning and serve as valuable evidence of its benefit for students educational experience Moreover these research efforts assist a more comprehensive reflection about the delivery of higher education in the context of online settings

Geometry of CR-Submanifolds and Applications Bang-Yen Chen, Mohammad Hasan Shahid, Gabriel-Eduard Vilcu, 2025-08-29 This book attempts to present a comprehensive survey of the geometry of CR submanifolds The theory of submanifolds is one of the most interesting topics in differential geometry The topic is introduced by Aurel Bejancu as a generalization of holomorphic and totally real submanifolds of almost Hermitian manifolds in 1978 Afterward the study of CR submanifolds became a very active research subject Organized into 22 chapters the book starts with basic knowledge of Riemannian manifolds and submanifolds almost Hermitian manifolds and their subclasses Hopf fibration symmetric spaces and a general inequality for submanifolds in complex space forms in Chaps 1 and 2 Later it presents the main results on CR submanifolds in Kaehler manifolds the basic inequalities associated with CR submanifolds in Kaehler manifolds and several theories and results related to Kaehler manifolds in Chaps 3 11 Further the book discusses the

basics of almost contact metric manifolds and their subclasses CR submanifolds of Sasakian trans Sasakian and quasi Sasakian manifolds with a particular attention on the normal CR submanifolds in Chap 12 It also investigates the contact CR submanifolds of S manifolds the geometry of submersions of CR submanifolds and the results on contact CR warped product submanifolds in Chaps 16 18 20 In Chapter 19 we discuss submersions of CR submanifolds The book also presents some recent results concerning CR submanifolds of holomorphic statistical manifolds In particular it gives the classification of totally umbilical CR statistical submanifolds in holomorphic statistical manifolds as well as a Chen Ricci inequality for such submanifolds Chapter 21 In the last chapter we present results on CR submanifolds of indefinite Kaehler manifolds and their applications to physics

The Devil Made Me Do It Nicky Falkof, 2025-08-01 South Africa can sometimes appear to be awash with occult crime From satanist conspiracies and

witchcraft accusations to muti murders and demonic possession a trawl through our national news suggests a society at war with the forces of evil Why does the occult have such a grasp on our collective imagination In this vastly unequal country with its crises of gender based violence child abuse poverty and unemployment there are more than enough obvious dangers to our social stability Why then are South Africans so quick to blame the supernatural for violence and misfortune How do beliefs in occult crime intersect with problems of gender race and class And is there any truth to these supernatural tales The Devil Made Me Do It examines these and other thorny questions by probing the stories beliefs and rumours behind the so called occult crimes that have entranced South Africa s fractured psyche They include the murder of a child mistaken for a tokoloshe in the 1920s the satanic panic that gripped the nation in the 1980s and 1990s the Krugersdorp cult killings of 2012 16 and the muti murder of a six year old girl in 2022 What can these crimes and the way they are represented by media police and other institutions tell us about South Africa today
