In particular, the aim of WBL 2008 was to bring together researchers from academia as well as commercial developers from industry to explore ideas, exchange and share experiences and further build the blended learning research network. The inspirations and new ideas were expected to emerge from intensive discussions during formal sessions and social activities. The main focus of WBL 2008 was on the most critical areas of blended learning, namely e-Learning Platforms and Tools, Design Model and Framework of e-Learning Systems, Practice and Experience, Sharing and Pedagogical Issues. In total, the workshop selected 17 papers from authors of different countries for presentation and publication, a task which was not easy due to the high quality of the submitted papers. Using stringent selection criteria, submissions were rigorously reviewed based on their originality, significance, relevance, and clarity of presentation by an international Program Committee from Germany, Spain, UK, Italy, Ireland, Romania, Hong Kong, Japan, Taiwan, and Macao.
