## **Hospitals And Clinic Psychology Bursaries For Undergraduate For 2015:**

*Acceptance and Commitment Therapy for Insomnia* Renatha El Rafihi-Ferreira, 2024-02-21 This book presents a complete guide for psychotherapists to apply a protocol based on Acceptance and Commitment Therapy ACT to the treatment of insomnia. It describes an evidence-based treatment program for insomnia based on the theoretical model of ACT which allows clinicians to both apply it as monotherapy or in conjunction with behavioral components that are associated with better insomnia treatment outcomes such as stimulus control and sleep restriction. Cognitive Behavioral Therapy for Insomnia CBT-I is the current psychotherapy of choice to treat insomnia but there are patients who have difficulties in adhering to some therapeutic elements and others who are refractory to this modality. Therefore, new therapeutic modalities are needed. ACT applied to insomnia has shown effective results, presenting another way to deal with the cognitive components involved in sleep difficulties. *Acceptance and Commitment Therapy for Insomnia: A Session By Session Guide* aims to bridge the gap between the available evidence on the use of ACT for insomnia and clinical practice by providing in one single volume all the necessary tools for clinical psychologists, psychiatrists, psychotherapists, and mental health professionals interested in applying this innovative evidence-based approach to the treatment of insomnia. This innovative and well-written volume offers therapists a practical evidence-based alternative to traditional Cognitive Behavioral Therapy or medication-dependent treatments for insomnia. It is important to have such choices, and Acceptance and Commitment Therapy ACT has unusual strengths in focusing on the whole person and their overall quality of life instead of the features of sleep disruption alone. Using a carefully crafted session-by-session approach, it equips professionals with the tools to adapt ACT to individual patient needs, making a meaningful difference in their journey towards restful sleep and greater well-being. Highly recommended. Steven C. Hayes, Ph.D., Foundation Professor of Psychology, Emeritus, University of Nevada, Reno. Originator of Acceptance and Commitment Therapy.

Nursoy-Demir, 2024-12-30 Maristāns and Islāmic Psychology outlines how the novel methods tools and approaches for treating  
psychological illnesses developed in the maristāns hospitals of the Muslim world can be utilised today in formulating a  
practical implementation of Islāmic psychology IP As a trademark of the Islāmic Civilisation the maristāns were institutions of  
healing that boasted the world's first treatment centres for treating psychological illnesses They also served as the centres  
where theoretical concepts developed by early Muslim scholars physicians theologians and philosophers who contributed to  
the creation of IP were translated into practical clinical applications A detailed examination of the treatment modalities  
within these historical treatment centres provides a promising model for creating a holistic approach to psychological healing  
that is grounded in Islāmic heritage This text completes such an examination highlighting the practical IP treatment methods  
in fourteen maristāns geographically spread throughout the Muslim world in order to bridge this centuries long model of  
psychological care to the modern context As part of the Islāmic Psychology and Psychotherapy Focus series this book

provides a foundation for mental health professionals who either directly deliver mental health services or are involved in creating theories institutions or spaces of IP and psychotherapeutic practices
