How Much Khanyisa Registration:

Electric Capitalism David A. McDonald, 2012-05-16 Although Africa is the most under supplied region of the world for electricity its economies are utterly dependent on it There are enormous inequalities in electricity access with industry receiving abundant supplies of cheap power while more than 80 per cent of the continent's population remain off the power grid Africa is not unique in this respect but levels of inequality are particularly pronounced here due to the inherent unevenness of electric capitalism on the continent This book provides an innovative theoretical framework for understanding electricity and capitalism in Africa followed by a series of case studies that examine different aspects of electricity supply and consumption The chapters focus primarily on South Africa due to its dominance in the electricity market but there are important lessons to be learned for the continent as a whole not least because of the aggressive expansion of South African capital into other parts of Africa to develop and control electricity Africa is experiencing a renewed scramble for its electricity resources conjuring up images of a recolonisation of the continent along the power grid Written by leading academics and activists *Electric Capitalism* offers a cutting edge yet accessible overview of one of the most important developments in Africa today with direct implications for health gender equity environmental sustainability and socio economic justice From nuclear power through prepaid electricity meters to the massive dam projects taking place in central Africa an understanding of electricity reforms on the continent helps shape our insights into development debates in Africa in particular and the expansion of neoliberal capitalism more generally

Contesting Transformation Marcelle C. Dawson, Luke Sinwell, 2014-04-10 *Contesting Transformation* is a sober and critical reflection on the wave of social movement struggles which have taken place in post Apartheid South Africa Moving beyond a social movement scholarship that has tended to romanticise emergent movements this collection takes stock of the contradiction and complexity that is necessarily entangled in all forms of popular resistance Through an exploration of labour strikes legal organisations community protest and local government elections the contributors consider how different movements conceive of transformation and assess the extent to which these understandings challenge the narrative of the ruling African

National Congress ANC An empirically grounded analysis from a coterie of leading researchers and analysts Contesting Transformation is the definitive critical survey of the state of popular struggle in South Africa today **The Big Issue, Cape Town ,2004** **State of the Nation ,2007** **Reimagining Social Movements** Professor Antimo L Farro,Professor Henri Lustiger-Thaler,2014-05-28 The social scientific study of social movements remains largely shaped by categories concepts and debates that emerged in North Atlantic societies in the late 1960s and early 1970s namely resource mobilization framing collective identity and new social movements It is now however increasingly clear that we are experiencing a profound period of social transformation associated with online interactivity informationalization and globalization Written by leading experts from around the world the chapters in this book explore emerging forms of movement and action not only in terms of the industrialized countries of the North Atlantic but recognizes the importance of globalizing forms of action and culture emerging from other continents and societies This is the first book to bring together key authors exploring this transformation in terms of action culture and movements It not only engages with critical transformations in the nature of collective action but also makes a significant contribution to the globalizing of sociology

Drum ,2007 *Cost Recovery and the Crisis of Service Delivery in South Africa* David A. McDonald,David Alexander McDonald,John Pape,2002 There has been a dramatic shift worldwide from welfare municipalism where the state both subsidized and provided essential municipal services to a neoliberal vision of balanced budgets fiscal restraint and privatization Cost recovery is at the heart of this new municipal vision with far reaching implications for access to services affordability and privatization This book brings together a theoretical and empirical review of the impact of cost recovery on basic municipal services such as water refuse collection and electricity with particular reference to South Africa It describes the theory and practice of cost recovery and presents six case studies drawing on participatory and ethnographic research The final chapter examines alternative future possibilities reformist or equity oriented **The Youth Book** David Barnard,1997 The object of this publication is to provide youth as well as people and organizations involved and interested in youth related issues with a comprehensive source of information on South African young organizations and related relevant issues **East London and Border ,1998** **Southern Resistance in Critical Perspective** Marcel Paret,Carin Runciman,Luke Sinwell,2017-03-27 From the Arab Uprising to anti austerity protests in Europe and the US Occupy Movement to uprisings in Brazil and Turkey resistance from below is flourishing Whereas analysts have tended to look North in their analysis of the recent global protest wave this volume develops a Southern perspective through a deep engagement with the case of South Africa which has experienced widespread popular resistance for more than a decade Combining critical theoretical perspectives with extensive qualitative fieldwork and rich case studies Southern Resistance in Critical Perspective situates South Africa s contentious democracy in relation to both the economic insecurity of contemporary global capitalism and the constantly shifting political terrain of post apartheid nationalism The analysis integrates worker

community and political party organizing into a broader narrative of resistance bridging historical divisions between social movement studies labor studies and political sociology SAMI ,2007 Mergent International Manual ,2009 *North West Province* ,1998
