From Technology Transfer to Intercultural Development S. Strijbos, Jan van der Stoep, 2012-02-01 The idea for this book has been born in a dialogue between the authors of In Search of an Integrative Vision for Technology 2006 and a group of scholars and practitioners from South Africa whose research and development activities focuses on problems of traditional African society and culture Although there existed awareness in the writing of the earlier book that the search for normativity for our technological society should encompass the different cultural spheres of the world no attention has been paid to the problem of interculturality Focussing on the development of technology in the developed societies the emphasis was laid on finding a basis for interdisciplinarity bridging the gaps between the sciences and humanities as well as between theory and practice

According to the vision that has been elaborated on in the above book not the autonomous dynamics of technology as a free flying projectile should determine the future of our global world but guidance has to be provided by a normative perspective on technology for the common good of all people and cultures Following further this line of research the current book aims to address explicitly the intercultural dimension of technology in our globalising world The International Handbook of Positive Psychology Edward C. Chang, Christina Downey, Hongfei Yang, Ingo Zettler, Mine Muyan-Yılık, 2022-02-02 This handbook discusses the latest findings from different fields of positive psychology from a global perspective by providing a coherent framework to get a better understanding of the development and practice of positive psychology It starts with the parameters of positive psychology and a summary of the historical rise of positive psychology both first wave and second wave of positive psychology in the US and its slow but steady growth on a global scale This handbook highlights the major contributions of positive psychologists across 17 major regions of the world on theory research assessment and Practice It discusses how positive psychology can progress human living in different countries and it shows the reasons why positive psychology has become an important source in research and education around the world **ICT Education** Salah Kabanda, Hussein Suleman, Stefan Gruner, 2018-12-31 This book constitutes the refereed proceedings of the 47th Annual Conference of the Southern African Computer Lecturers Association on ICT Education SACLA 2018 held in Gordon's Bay South Africa in June 2018 The 23 revised full papers presented together with an extended abstract of a keynote paper were carefully reviewed and selected from 79 submissions The papers are organized in topical sections playfulness media and classrooms academia and careers teaching programming adaptation and learning teamwork and projects learning systems topic teaching **Decolonising Higher Education in the Era of Globalisation and Internationalisation** Kehdinga George Fomunyan, 2019-07-01 Conceived within a context of transdisciplinarity and pluriversalism and in rigorous response to the Eurocentric globalising and nationalising structures of power that undergird and inhabit contemporary praxis in higher education especially in African higher education this collection of essays brings to the on going discourse on decolonisation fresh rich probing and multilayered perspectives that should accelerate the process of decolonisation not only in higher education in Africa but also in the global imaginary A remarkable courageous and potentially revolutionary achievement this book deserves a special place on curricula throughout the world of higher education *Recalibrating teacher training in African higher education institutions* Sifiso Sibanda, Gideon (Deon) P. van Tonder, Washington T. Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education

of underprivileged citizens and education particularly modes and modalities of delivery has to be reimagined to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark

Theoretical Approaches to Multi-Cultural Positive Psychological Interventions Llewellyn Ellardus Van Zyl, Sebastiaan Rothmann Sr., 2019-06-11

This volume provides theoretical perspectives on and approaches to the development or enhancement of positive psychological capacities within various multi cultural professional and organizational contexts Specifically it presents theoretical frameworks for the identification development and optimization of positive psychological capacities through a contemporary multi cultural and multi disciplinary lens In recent years the applicability of positive psychological intervention PPI techniques has transposed the boundaries of clinical practice into a wide array of complementary domains such as law education business and even design sciences such as architecture These interventions target the enhancement of positive psychological capacities e g strength identification and use high performance learning appreciative design job crafting in order to not only improve individual functioning well being and the treatment of various forms of psychopathology but also to enhance team functioning performance organizational growth and community development Despite its importance very little research has been done on the design of PPIs applicable to multi cultural contexts The contributions to this volume provide insights into this hitherto neglected area of research

Intercultural Autoethnographies Claude-Hélène Mayer, Alyssa Govender, Present Raymond Ramalepe, 2025-07-23 Intercultural Autoethnographies brings together 20 personal narratives offering a deep exploration into the intercultural voyages of young South Africans These positive autoethnographies delve into ways to traverse diversity and cultural differences and show the complexities of the transforming Post Apartheid society

Becoming a teacher Josef de Beer, 2020-12-31 This book disseminates original research on learning in and from practice in pre service teacher education Authors such as Lederman and Lederman describe the student teaching practicum or work integrated learning WIL which is an essential component of pre service teacher education as the elephant in the room These authors note that the capstone experience in any teacher education programme is the student teaching practicum a fter all this is where the rubber hits the road However many teacher educators will agree that this WIL component is sometimes very insufficient in assisting the student teacher to develop their own footing and voice as a teacher This is the gap that this research book addresses Most of the chapters in the book report empirical data with the exception of two chapters that can be categorized as systematic reviews WIL is addressed from various angles in the chapters Chapter 6 focuses on research related to what makes Finnish teacher education so effective and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school based on Finnish insights in Johannesburg Chapter 3 highlights the challenges faced in open and distance learning teacher education contexts Several of the chapters disseminate research

findings on alternative interventions to classic WIL namely where safe spaces or laboratories are created for student teachers to learn and grow professionally These could either be simulations such as software programmes and avatars in the intervention described in Chapter 2 student excursions as the findings in chapters 5 7 and 10 portray or alternative approaches to WIL e g Chapters 11 and 12 The book is devoted to scholarship in the field of pre service teacher education The target audience is scholars working in the fields of pre service teacher education work integrated learning and self directed learning The book makes a unique contribution in terms of firstly its extensive use of Cultural Historical Activity Theory as a research lens and secondly in drawing on various theoretical frameworks Both quantitative and qualitative research informed the findings of the book

Study SA ,2006 Positive Psychological Intervention Design and Protocols for Multi-Cultural Contexts Llewellyn Ellardus Van Zyl,Sebastiaan Rothmann Sr.,2019-06-11 This volume presents innovative and contemporary methodologies and intervention protocols for the enhancement of positive psychological attributes in multicultural professional and organizational contexts Most methods models and approaches that underpin positive psychological interventions are confined to clinical samples closed systems or monocultural contexts which restrict their applicability to particular contexts Extensive practical intervention protocols designs and methods which usually accompany first draft intervention papers are condensed into brief paragraphs in final manuscripts or removed in their entirety This in turn reduces their potential for replicability or adoption by consumers practitioners or industry This volume develops guidelines for enhancing positive psychological attributes such as positive moods e g positive affect life satisfaction strengths e g gratitude humour cognitions e g hope optimism and behaviours e g emotional regulation positive relationship building within various multicultural contexts Thereby it shows how positive psychology interventions can be replicated to a wide range of contexts beyond those in which they were developed

International Handbook of Universities ,2010 *Data Management, Analytics and Innovation* Neha Sharma,Amlan Chakrabarti,Valentina Emilia Balas,2019-09-24 This book presents the latest findings in the areas of data management and smart computing big data management artificial intelligence and data analytics along with advances in network technologies It addresses state of the art topics and discusses challenges and solutions for future development Gathering original unpublished contributions by scientists from around the globe the book is mainly intended for a professional audience of researchers and practitioners in academia and industry

Self-directed learning research and its impact on educational practice Elsa Mentz,Roxanne Bailey,2021-05-17 This scholarly book is the third volume in an NWU book series on self directed learning and is devoted to self directed learning research and its impact on educational practice The importance of self directed learning for learners in the 21st century to equip themselves with the necessary skills to take responsibility for their own learning for life cannot be over emphasised The target audience does not only consist of scholars in the field of self directed learning in Higher Education and the Schooling sector but includes all scholars in the field of teaching and learning in all education and training sectors

The book contributes to the discourse on creating dispositions towards self directed learning among all learners and adds to the latest body of scholarship in terms of self directed learning Although from different perspectives all chapters in the book are closely linked together around self directed learning as a central theme following on the work done in Volume 1 of this series Self Directed Learning for the 21st Century Implications for Higher Education to form a rich knowledge bank of work on self directed learning
