Wonderful Hope Khonje, Travis Mitchell, 2019-10-07 Strengthening Disaster Resilience in Small States Commonwealth

Perspectives offers timely and expert analysis of differentiated exposure of small states to natural disasters including an

examination of specific interventions for strengthening small states resilience to this phenomenon The Routledge Companion to Bourdieu's 'Distinction' Philippe Coulangeon, Julien Duval, 2014-10-30 This edited collection explores the genesis of Bourdieu's classical book *Distinction* and its international career in contemporary Social Sciences. It includes contributions from contemporary sociologists from diverse countries who question the theoretical legacy of this book in various fields and national contexts. Invited authors review and exemplify current controversies concerning the theses promoted in *Distinction* in the sociology of culture, lifestyles, social classes and stratification with a specific attention dedicated to the emerging forms of cultural capital and the logics of distinction that occur in relation to material consumption or bodily practices. They also empirically illustrate the theoretical contribution of *Distinction* in relation with such notions as field or habitus which fruitfulness is emphasized in relation with some methodological innovations of the book. In this respect a special focus is put on the emerging stream of distinction studies and on the opportunities offered by the geometrical data analysis of social spaces **Class in the New Millennium** Will Atkinson, 2017-02-17 *Class in the New Millennium* paints a fresh and comprehensive picture of social class in Britain today. Anchored in a broad repertoire of methods and pursuing a distinctive theoretical agenda, it not only painstakingly maps the structure transformation and effects of the UK's key fault lines but goes behind closed doors to see how they play out in everyday family life. Throughout the book Atkinson throws new light on a diverse array of themes including the continued effects of deindustrialisation, educational expansion, feminisation of the workforce and surging employment insecurity, the persistence of lifestyle cleavages despite cultural and technological change, the growth of political disengagement, the transformation of the Labour Party and the rise of nationalism, the entwinement of class with space, place and physical movement and the way in which class interacts with intimate relations to shape not just the way we decorate our walls or talk over the dining table but the very reproduction of the class structure itself. This innovative title will appeal to scholars as well as advanced undergraduate and postgraduate students interested in the fields of sociology, politics and political science, cultural studies, cultural geography, social policy and social work *Herbal Medicines In Women's Life* Shan-Yu Su, Titilayo Fakeye, Jung Chao, 2022-07-05 Invisible Borders in a Bordered World Alexander C. Diener, Joshua Hagen, 2022-09-02 This book critically challenges the usual territorial understanding of borders by examining the often messy internal transborder, ambiguous and in-between spaces that co-exist with traditional borders. By considering those less visible aspects of borders, the book develops an inclusive understanding of how contemporary borders are structured and how they influence human identity, mobility and belonging. The introduction and conclusion provide theoretical and contextual framing while chapters explore topics of global labor and refugees, unrecognized states, ethnic networks, cyberspace, transboundary resource conflicts and indigenous and religious spaces that rarely register on conventional maps or commonplace understandings of territory. In the end, the volume demonstrates that despite being invisible on most maps, these borders have a very real material and tangible presence and consequences for

those people who live within alongside and across them **The Wrong Prescription for Women** Maureen C. McHugh, Joan C. Chrisler, 2015-07-14 This groundbreaking book challenges the medicalized approach to women's experiences including menstruation pregnancy and menopause and suggests that there are better ways for women to cope with real issues they may face Before any woman diets douches botoxes reduces reconstructs or fills a prescription for antidepressants statins hormones menstrual suppressants or diet pills she should read this book Contesting common medical practice the book addresses the many aspects of women's lives that have been targeted as deficient in order to support the billion dollar profits of the medical pharmacological industry and suggests alternatives to these remedies The contributors psychologists sociologists and health experts are also gender experts and feminist scholars who recognize the ways in which gender is an important aspect of the human experience In this eye opening work they challenge the marketing and science that increasingly render women's bodies and experiences as a series of symptoms diseases and dysfunctions that require treatment by medical professionals who prescribe pharmaceutical and surgical interventions Each article in the book addresses the marketing of a specific condition that has been constructed in a way that convinces a woman that her body is inadequate or her experience and behavior are not good enough Among the topics addressed are menstruation menopause pregnancy post partum adjustment sexual desire weight body dissatisfaction moodiness depression grief and anxiety
