The Myth of Achievement Tests James J. Heckman,John Eric Humphries,Tim Kautz,2014-01-14 Achievement tests play an important role in modern societies They are used to evaluate schools to assign students to tracks within schools and to identify weaknesses in student knowledge The GED is an achievement test used to grant the status of high school graduate to anyone who passes it GED recipients currently account for 12 percent of all high school credentials issued each year in the United States But do achievement tests predict success in life The Myth of Achievement Tests shows that achievement tests like the GED fail to measure important life skills James J Heckman John Eric Humphries Tim Kautz and a group of scholars offer an in depth exploration of how the GED came to be used throughout the United States and why our reliance on it is dangerous Drawing on decades of research the authors show that while GED recipients score as well on achievement tests as high school graduates who do not enroll in college high school graduates vastly outperform GED recipients in terms of their earnings employment opportunities educational attainment and health The authors show that the differences in success between GED recipients and high school graduates are driven by character skills Achievement tests like the GED do not adequately capture character skills like conscientiousness perseverance sociability and curiosity These skills are important in predicting a variety of life outcomes They can be measured and they can be taught Using the GED as a case study the authors explore what achievement tests miss and show the dangers of an educational system based on them They call for a return to an emphasis on character in our schools our systems of accountability and our national dialogue Contributors Eric Grodsky University of Wisconsin Madison Andrew Halpern Manners Indiana University Bloomington Paul A LaFontaine Federal Communications Commission Janice H Laurence Temple University Lois M Quinn University of Wisconsin Milwaukee Pedro L Rodr guez Institute of Advanced Studies in Administration John Robert Warren University of Minnesota Twin Cities

Leadership, Myth, & Metaphor Daniel Cherry,Jeff Spiegel,2006-01-06 Use the creative energy of metaphor to clarify and make your leadership vision a reality How do you see yourself as an educator How would you describe yourself as a leader Have you ever considered using metaphors to reframe your leadership practice vision and mission Often leaders stumble when asked to articulate their values ethics and purpose This book illustrates the significance of leadership archetypes and metaphoric reframing in understanding and facilitating organizational change Leadership Myth Metaphor reports on the findings of a professional development study funded by the Gates Foundation of more than 250 superintendents and principals celebrating educators unique individual core values while acknowledging their shared intrinsic beliefs including A commitment to a cause beyond oneself A devotion to an ethic of care A desire to improve the condition of society A wish to make a significant impression on student and adult lives A conviction to inspire others to seek their full potential Awareness of yourself on a personal and professional level leads to a deeper consideration of your mission as a leader and of your purpose in life **Private Education** Geoffrey Walford,2005-11-24 Private schools are central to the reproduction of social

inequality For example whilst in the UK providing only about seven per cent of the school population about half of the undergraduates at Oxford and Cambridge still come from the private sector Private schools have long been associated with privilege and elitism While this traditional elitist aspect to the private sector is still central the private school sector is actually far more diverse that is usually acknowledged It now includes many small schools and faith based schools that may not offer the traditional advantages of the private sector but which provide a particular environment deemed desirable by parents In spite of their educational and social importance there has been very little academic research and writing on private schools The proposed book will be the culmination of Professor Walford s research into private schools over the past twenty years
