Wonnig, 2020-07-22 From the first rude ridgeways to the modern interstate superhighway the evolution of the road is a fascinating story Readers will learn the progression of roads from the first ridgeways roads in the ancient world Roman roads and the development of the revolutionary McAdam Road Native Americans developed an extensive system of trails for both trade and war The Short History of Roads and Highways Indiana Edition includes information on early Amerindian trails pioneer traces and the beginnings of the modern Indiana highway system

Indiana's Historic National Road Alan E. Hunter, Joseph M. Jarzen, 2011 The Indiana National Road Association works to preserve protect and promote the Historic National Road This byway is designated an All American Road through the National Scenic Byways program and traverses six states from Baltimore Maryland to East St Louis Illinois The road began as a primary route west for pioneers and today the byway allows travelers to explore the American past it is truly the road that built the nation This volume continues the story that began on the eastern leg of Indiana's Historic National Road inviting readers to complete their photographic journey westward from Indianapolis to Terre Haute These images document the people and stories that are part of the National Road's heritage and it is hoped this book will encourage advocacy for the protection of important heritage resources **Historic Landscape Directory** , 1991 *Cycling & Walking for Regional Development* Paolo Pileri, Rossella Moscarelli, 2020-08-28 This book investigates why and how cycle and walking paths can help to promote the regeneration of marginalized areas facing depopulation and economic decline In addition it offers a broad overview of recent scientific research into slow tourism and marginality spatial inequality and explores the linkages between these topics Key issues are addressed by experts from various disciplinary backgrounds and potential measures are proposed for the integration of slow tourism into strategies for regional development Particular attention is devoted to the

VENTO project which involves the creation of a 700 km long cycle route from Venice to Turin that passes through various rural and marginalized areas of northern Italy The goal research process design and early lessons from this important project are all discussed in detail Moreover the book describes policies and strategies that have successfully been used to enhance the slow tourism infrastructure in other European countries Given its scope the book will appeal to researchers professionals and students interested in e g policymaking tourism planning regional development and landscape and urban planning

Silk Road Footprints: Transnational Transmission of Sacred Thoughts and Historical Legacy David W. Kim, 2025-06-10

The Silk Road generally evokes images of places cultures and peoples linked by the exchange of exotic goods and fabled treasures The notion of the subject however often disregards the historical fact that the Silk Road routes functioned as a unique channel for spreading religious ideas culture and literature The personal or community beliefs of the Silk Road were changed radically as a result of the impact of external influences *Silk Road Footprints Transnational Transmission of Sacred Thoughts and Historical Legacy* demonstrates that sacred communities interacted coexisted competed and influenced each other over long periods These include those local traditions that evolved in ancient China the Middle East Africa Central Asia Korea and Japan and the subsequent larger traditions that arose in the region Judaism Buddhism Christianity and Islam as well as the shamanistic and animistic traditions of various nomadic peoples The history of religions along the Silk Road is a remarkable illustration of how beliefs and civilisations often reflect a broad pattern of synthesis rather than clash This book indicates that Asia South Southeast East Asia and China one of the most pluralistic religious regions in the world has become a center of attention as a bridge between cultures Ultimately the creative study of the Silk Road and religious transnationalism evidences the implication that the local groups have been developed under the new environment of sacred principles and traditions as well as political influence CRM ,2010 *Cultural Landscape Report for John Muir National Historic Site, 2005* ,2005 *Cultural Landscape Report for Martin Van Buren National Historic Site* David L. Roads, Tourism and Cultural History Rosemary Kerr, 2018-12-20 Roads and road tourism loom large in the Australian imagination as distance and mobility have shaped the nation's history and culture but roads are more than simply transport routes they embody multiple layers of history mythology and symbolism Drawing on Australian travel writing diaries and manuscripts tourism literature fiction poetry and feature films this book explores how Australians have experienced and imagined roads and road touring beyond urban settings from Aboriginal songlines to modern day road trips It also tells the stories of iconic roads including the Birdsville Track Stuart Highway and Great Ocean Road and suggests alternative approaches to heritage and tourism interpretation of these important routes The ongoing impact of the colonial past on Indigenous peoples and contemporary Australian society and culture including representations of the road and road travel is explored throughout the book The volume offers a new way of thinking about roads and road tourism as important strands in a nation's cultural fabric
