Henny P.A. Boshuizen, Rainer Bromme, Hans Gruber, 2006-04-11 About the Book Series The idea for the Book Series Innovation and Change in Professional Education ICPE was born in 1996 While working on another publication in this area we noticed that professional educators faced similar problems without even knowing from each other It was this observation that resulted in examining the possibilities for a new publication platform about professional education with input from different professions We wanted to develop a publication source that would bring together educators and researchers to exchange ideas and knowledge about theory research and professional practice But we were not only striving for a book series informing readers about important themes in the professions A second goal was to focus on processes of change and innovation We were heavily involved in innovations going on in our institutions and were convinced that a better understanding was needed in a wide range of issues critically important to the future of professional education It was our belief that scholarly publications about innovation processes may support fundamental change in professional education ICPE reflects our view that professional education deserves such a publication platform It aims to approach critical questions of educational innovations and to examine dynamics of educational change in various professional domains in the context of innovation processes The books will include contributions from frontline practitioners leading researchers or distinguished scholars in professional education delivering reports of empirical or theoretical research reviews interpretations of evaluation studies or descriptions of innovative approaches *Just About Everything a Manager Needs to Know in South*
