Atlantis Silva Rofert, The story of Atlantis begins not with ancient ruins discovered beneath the waves but with the brilliant mind of a Greek philosopher walking through the marble halls of Athens around 360 BCE Plato student of Socrates and teacher of Aristotle crafted what would become one of history's most enduring mysteries when he penned the dialogues Timaeus and Critias In these works he described a magnificent island civilization that existed nine thousand years before his time a utopian society that fell into moral decay and was subsequently destroyed by the gods in a single day and night of earthquakes and floods Plato's account was vivid and detailed He described Atlantis as a naval power located beyond the Pillars of Hercules modern day Strait of Gibraltar The island was larger than Libya and Asia combined organized in concentric circles of land and water At its center stood a magnificent temple dedicated to Poseidon god of the sea surrounded by walls plated with brass tin and the mysterious metal orichalcum which gleamed like fire The Atlanteans were described as a hybrid race descended from the union of Poseidon and a mortal woman named Cleito According to Plato's narrative Atlantis was initially a paradise of justice and virtue The people were noble wise and prosperous They possessed advanced technology and knowledge that allowed them to create a sophisticated civilization with impressive architecture efficient agriculture and powerful naval forces The island was blessed with abundant natural resources including precious

metals exotic animals and fertile soil that supported a large population *Atlantis* J. Allan Danelek, 2008 The lost civilization of Atlantis whether mythical or historical offers possible clues about our past and holds important lessons for our future Join author J Allan Danelek on a compelling journey of discovery as he attempts to answer questions surrounding the controversial twelve thousand year old legend Was it a real place or did Plato invent the story If it did exist what could have led to the widespread destruction of an entire civilization And are we heading down the same road to self annihilation Fact or Fiction Bringing new life to Plato's dialogues on Atlantis Danelek offers original theories about the lost world's culture and downfall This engaging exploration covers all aspects of Atlantean lore from historical maps and geological sciences to popular theories both traditional and contemporary At the heart of every story lies an ultimate truth and timeless lesson What can Atlantis teach us about the fate of humanity *The Round Towers of Atlantis* Henry O'Brien, 2002 This fascinating book first published in 1834 as *The Round Towers of Ireland or the Mysteries of Freemasonry of Sabatism and of Buddhism* was an instant sensation at the time and was one of the first modern studies of Atlantis Round Towers pre Christian Megalithic Architecture and Secret Societies In addition to being a sourcebook on Atlantis Research Druidic Culture and origins of modern Celtic Christianity the book is a treasure trove of ancient esoteric lore and arcane knowledge of the past Includes The History of the Tuatha de Danaans The Round Towers and Megalithic Crosses of Ireland are pre Christian Ireland's strange connections with ancient India Persia and China Ancient Secret Societies and Ireland Ancient Egyptians and Ireland Pre Christian Messiahs Mithraism and Ireland The Connections Between Atlantis and Ireland *Encyclopedia of New Religious Movements* Peter Clarke, 2004-03-01 New Religious Movements NRMs can involve vast numbers of followers and in many cases are radically changing the way people understand and practice religion and spirituality Moreover many are having a profound impact on the form and content of mainstream religion The Encyclopedia of New Religious Movements provides uniquely global coverage of the phenomenon with entries on over three hundred movement from almost every country in the world Coverage includes movements that derive from the major religions of the world and to neo traditional movements movements often overlooked in the study of NRMs In addition to the coverage of particular movements there are also entries on topics themes key thinkers and key ideas for example the New Age Movement Neo Paganism New Religion and gender NRMs and cyberspace NRMs and the law the Anti Cult Movement Swedenborg Jung Teilhard de Chardin Lovelock Gurdjieff al Banna Qutb The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative energy of NRMs of their extraordinary diversity and the often surprising ways in which they can propagate geographically The most ambitious publication of its sort the Encyclopedia of New Religious Movements is a major addition to the reference literature for students and researchers of the field in religious studies and the social sciences Entries are cross referenced with short bibliographies for further reading There is a full index *Atlantis in America* Ivar Zapp, George Erikson, 1998 This text presents evidence for a new theory that the great stone spheres of Costa Rica and

sighting stones throughout the Pacific were used to teach sea routes and constellation paths to navigators of the ancient world It reveals substantial links between Meso America and Egypt and the Middle East
