**The Politics of Reparations and Apologies** Stephanie

Wolfe, 2013-11-21 *The Politics of Reparations and Apologies* examines the evolution and dynamics of reparation politics and justice. The volume introduces the key concepts, theories, and terms associated with social movements and, in particular, the redress and reparation movement. Drawing from RRRMs that have their foundation in World War II, the German genocides, the United States internments, and the Japanese comfort women system, the volume explores each case study's relative success or failure in achieving its goals and argues that there are overarching trends that can explain success and failure more generally in the RRRM movement. Using the backdrop of international criminal law and normative concepts of reparations, the volume establishes and analyzes the roles of reparations and apologies in obtaining transitional justice. In each case study, there is a detailed rundown of the political actions that were attempted to obtain redress and reparation for the victims, of how successful the attempts were, and of the crucial factors which influenced the relative success or failure. Crucially, the volume offers a comparative framework of the actions that contribute to a successful outcome for transitional justice. With the increasing normative expectation of justice in post-conflict situations, this volume is a valuable resource for researchers in international affairs, human rights, political science, and conflict studies. [Nazi Collaborators on Trial during the Cold War](#)

Richards Plavnieks, 2017-09-11 This book is a study of the legal reckoning with the crimes of the Latvian Auxiliary Security Police and its political dimensions in the Soviet Union, West and East Germany, and the United States in the context of the Cold War. Decades of work by prosecutors have established the facts of Latvian collaboration with the Nazis during the Holocaust. No group made a deeper mark in the annals of atrocity than the men of the so-called Arajs Kommando and their leader Viktors Arjāns, who killed tens of thousands of Jews on Latvian soil and participated in every aspect of the Holocaust by Bullets. This study also has significance for coming to terms with Latvia's encounter with Nazism, a process that was stunted and distorted by Latvia's domination by the USSR until 1991. Examining the country's most notorious killers, their fates on both sides of the Iron Curtain, and contemporary Latvians' responses in different political contexts, this volume is a record of the earliest phases of this process, which must now continue, and to which this book contributes. **Hiding in Plain Sight**

Eric Stover, Victor Peskin, Alexa Koenig, 2016 *Hiding in Plain Sight* tells the story of the global effort to apprehend the world's most wanted fugitives. Beginning with the flight of tens of thousands of Nazi war criminals and their collaborators after World War II, then moving on to the question of justice following the recent Balkan wars and the Rwandan genocide, and ending with the establishment of the International Criminal Court and America's pursuit of suspected terrorists in the aftermath of 9/11, the book explores the range of diplomatic and military strategies, both successful and unsuccessful, that states and international courts have adopted to pursue and capture war crimes suspects. It is a story fraught with broken promises, backroom politics, ethical dilemmas, and daring escapades, all in the name of international justice and human rights. *Hiding in Plain Sight* is a companion book to the public television documentary *Dead Reckoning: Postwar Justice from World War II to The War on Terror*. Human Medical Research Jan Schildmann, Verena Sandow, Oliver Rauprich, Jochen Vollmann, 2012-03-12 Medical research involving human subjects has contributed to considerable advancements in our knowledge and to medical benefits At the same time the development of new technologies as well as further globalisation of medical research raises questions that require the attention of researchers from a range of disciplines This book gathers the contributions of researchers from nine different countries who analyse recent developments in medical research from ethical historical legal and socio cultural perspectives In addition to reflections on innovations in science such as genetic databases and the concept of targeted therapy the book also includes analyses regarding the ethico legal regulation of new technologies such as human tissue banking or the handling of genetic information potentially relevant for participants in medical research Country and culture specific aspects that are relevant to human medical research from a global perspective also play a part The value of multi and interdisciplinary analysis that includes the perspectives of scholars from normative and empirical disciplines is a shared premise of each contribution      **The Betrayal** Kim Christian Priemel, 2018-05-17 At the end of World War II the Allies faced a threefold challenge how to punish perpetrators of appalling crimes for which the categories of genocide and crimes against humanity had to be coined how to explain that these had been committed by Germany of all nations and how to reform Germans The Allied answer to this conundrum was the application of historical reasoning to legal procedure In the thirteen Nuremberg trials held between 1945 and 1949 and in corresponding cases elsewhere a concerted effort was made to punish key perpetrators while at the same time providing a complex analysis of the Nazi state and German history Building on a long debate about Germany s divergence from a presumed Western path of development Allied prosecutors sketched a historical trajectory which had led Germany to betray the Western model Historical reasoning both accounted for the moral breakdown of a civilised nation and rendered plausible arguments that this had indeed been a collective failure rather than one of a

small criminal clique The prosecutors therefore carefully laid out how institutions such as private enterprise academic science the military or bureaucracy which looked ostensibly similar to their opposite numbers in the Allied nations had been corrupted in Germany even before Hitler's rise to power While the argument depending on individual protagonists subject matters and contexts met with uneven success in court it offered a final twist which was of obvious appeal in the Cold War to come if Germany had lost its way it could still be brought back into the Western fold The first comprehensive study of the Nuremberg trials The Betrayal thus also explores how history underpins transitional trials as we encounter them in today's courtrooms from Arusha to The Hague

*Transitional Justice in Rwanda* Gerald Gahima, 2013 Transitional Justice in Rwanda Accountability for Atrocity comprehensively analyzes the full range of the transitional justice processes undertaken for the Rwandan genocide Drawing on the author's extensive professional experience as the principal justice policy maker and the leading law enforcement officer in Rwanda from 1996-2003 the book provides an in depth analysis of the social political and legal challenges faced by Rwanda in the aftermath of the genocide and the aspirations and legacy of transitional justice The book explores the role played by the accountability processes not just in pursuing accountability but also in shaping the reconstruction of Rwanda's institutions of democratic governance and political reconciliation Central to this exploration will be the examination of whether or not transitional justice in Rwanda has contributed to a foundational rule of law reform process While recognizing the necessity of pursuing accountability for mass atrocity the book argues that a maximal approach to accountability for genocide may undermine the promotion of core objectives of transitional justice Taking on one

of the key questions facing practitioners and scholars of transitional justice today the book suggests that the pursuit of mass accountability particularly where socio economic resources and legal capacity is limited may destabilize the process of rule of law reform endangering core human rights norms Moreover the book suggests that pursuing a strategy of mass accountability may undermine the process of democratic transition particularly in a context where impunity for crimes committed by the victors of armed conflicts persists Highlighting the ongoing democratic deficit in Rwanda and resulting political instability in the Great Lakes region the book argues that the effectiveness of transitional justice ultimately hinges on the nature and success of political transition **Presidential Accountability in Wartime** Stuart Streichler, 2023-11-16

The American presidency has long tested the capacity of the system of checks and balances to constrain executive power especially in times of war While scholars have examined presidents starting military conflicts without congressional authorization or infringing on civil liberties in the name of national security Stuart Streichler focuses on the conduct of hostilities Using the treatment of war on terror detainees under President George W Bush as a case study he integrates international humanitarian law into a constitutional analysis of the repercussions of presidential war powers for human rights around the world Putting President Bush's actions in a wider context Presidential Accountability in Wartime begins with a historical survey of the laws of war with particular emphasis on the 1949 Geneva Conventions and the Nuremberg Tribunal Streichler then reconstructs the decision making process that led to the president's approval of interrogation methods that violated Geneva's mandate to treat wartime captives humanely While taking note of various accountability options from within the executive branch to the International Criminal Court the book illustrates the challenge in holding presidents personally responsible for violating the laws of war through an in depth analysis of the actions taken by Congress the Supreme Court and the public in response In doing so this book not only raises questions about whether international humanitarian law can moderate wartime presidential behavior but also about the character of the presidency and the American constitutional system of government Seeking Accountability for Nazi and War Crimes in East and Central

Europe Irina Tcherneva, Vanessa Voisin, Eric Le Bourhis, 2022 The thirst for post World War II justice transcended the Cold War and mobilized diverse social groups This is a story of their multilayered and at times conflictual interactions In this edited collection sixteen historians develop a new approach to the trials against persons accused of war crimes and mass murder in Europe during the ascendancy of Nazism and the Second World War 1933 1945 Focusing on the social aspects of the demand for justice and making use of previously underexploited local and international sources contributors put to the test the notion of show trials and explore a range of judicial and political cultures from Germany to the Soviet Union Essays uncover the expectations around accountability and forms of mobilization on the part of a range of citizens involved in the trials survivors witnesses perpetrators Nazi hunters and civic activists In addition to the perspective of these citizens contributors invoke the expertise of reporters filmmakers historians investigators and prosecutors who shaped public

representations of justice These shaping efforts the authors show often supported the desire of political authorities to benefit from the publicity of the trials and to contain the spontaneous dissemination of information The book s close examination of interactions between citizens and authorities thus demonstrates the extent and limits of what might be called a coproduction of justice in the process shedding light on the interdependence between historical knowledge and legal prosecution of mass crimes

*The Holocaust and Soviet War Crimes Trials in the Cold War Context* Gintarė Malinauskaitė, 2024-02-23 This volume aims to offer a fresh perspective towards the evaluation of Soviet war crimes trials of Holocaust perpetrators their representation through various means of media and their reception in the context of the Cold War By examining the 1964 Klaipėda war crimes trial in Soviet Lithuania through a microhistorical perspective the book explores the history of the second wave of Soviet justice in the 1960s It attempts to offer insight not only into how this Soviet war crimes trial was initiated and investigated but also into how it was presented in the courtroom and channeled through the media for publicity The book argues that the war crimes trials conducted by the Soviet Lithuanian judiciary can be on one hand perceived as an intrinsic element of Soviet ideological propaganda and on the other viewed as an alternative space for disclosing memories of the mass murder of Jews offering an opposing perspective to the official Soviet politics of memory Intended for both an academic audience and the general public this volume unveils an intertwined compilation of Soviet legal history politics of retribution memory and media during the Thaw period
