## **Atlantis The Lost Continent Finally Found:**

**Atlantis** Arysio Santos, 2005-06 Thousands of books have already been written on Atlantis since its reality was first disclosed by the great philosopher Plato some two and a half millennia ago Hence one may well wonder whether a new book on the subject is really needed Can anything new actually be said about Atlantis The answer is a most categorical yes After all the riddle of Atlantis has never been satisfactorily solved so far The present book is an attempt by a reputed scientist to scientifically compare and refute perhaps for the first time ever the various existing theories on Atlantis location and reality The author also expounds his own theory which definitively locates Atlantis in Indonesia In his research Prof Santos marries the most recent results and techniques of Modern Science to the sacred and folk lore of all the peoples of the world knitting humanity together in a solution to the riddle of Atlantis that neatly ties together the vast scientific and traditional evidence which was always there but never before seen by other researchers The reader whether a scientist with an open mind or a lay person is led to conclude that Plato could well have been telling the truth after all since the information provided by the great philosopher is so uncannily confirmed by the recent scientific finds of all sorts **ATLANTIS PROF. Nunn,2008-10-31 Islands as well as entire continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region s ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the

establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents original data and research on island disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future

**I Found Atlantis** Henry B. Ambrose,2005-12 The book I Found Atlantis has solved the Mystery of Atlantis The research shows that Atlantis The Garden of Eden and Noah s Ark all occurred at the same time place and were the same people In 4 243 BC an Egyptian astronomer discovered that the star Sirius rose at sunrise This caused the earth to shift on its axis causing the North Pole to tilt toward the sun The glaciers melted and the water level rose in the Atlantic Ocean It reached its zenith 3 700 BC and submerged Atlantis Great Britain was once known as Atlantis See my website at [www ifoundatlantis com](http://www.ifoundatlantis.com)

**From the First Rising Sun** Charla Jean Morris,2011-08-10 While in medical school which I did not have the privilege of completing once a week we had a small group discussion class called Focus On Problems Each group had a leader a member of the medical school staff or someone closely associated with the school usually an MD or Ph D Our group leader was Dean of the Medical School H David Wilson MD One class period focused on working with patients of different ethnic backgrounds Dr Wilson asked me what were some of the traditions of my tribe in regard to medicine that would be helpful for a doctor to know My reply was that I had been raised like a white that I had grown up learning about various herbal and natural remedies but that I knew

nothing about the specific medical traditions ceremonial or secular of my people I had always longed to know of the traditions of my people before that but circumstances of my family history had not allowed it That question in the Focus On Problems class caused that longing to intensify into a sharp pang of longing that would not be satisfied until many years later While in the first two years of medical school as a nontraditional student I was in an environment that encouraged the development of the knowledge of Native American traditions We had Native American speakers that came and elaborated on Native American traditions One area that was lacking was tribal histories but what academics label prehistory I commented to her that when white man came they did all they could to destroy our social and religious fabric so the old traditions were not passed down to most of the remaining members of the tribes Now we know nothing of our old history There is nothing left The white side of my family history is easy to know but not my Cherokee and Choctaw side She replied by saying that yes many of our peoples have lost their old traditions and it is sad

Irwanto, 2019-02-22 Sundaland is a bio geographical region of Southeastern Asia which encompasses the Sunda Shelf the part of the Asian continental shelf that was exposed during the Last Ice Age It included the Malay Peninsula on the Asian mainland as well as the large islands of Kalimantan Java and Sumatera and their surrounding islands Sundaland is in the tropics surrounded by oceans and within the Ring of Fire Benefitting from the heavy precipitation volcanic deposits in Sundaland develop into some of the richest forestry and agricultural lands and developed into some of the richest fauna on Earth The vast majority of scholars accept that every living human being is descended from a small group in Africa who then dispersed into the wider world Archaeological and fossil evidence support an early migration of modern humans left Africa and followed the coastlines of Africa Arabia India and Sundaland After migrating from the semi deserted savannas of Africa man first found a place in Sundaland where food was abundant and it was there that they left hunter gatherer culture and invented farming agriculture trading and civilization which made humanity first flourished All this took place during the Last Glacial period The sea levels continued to rise gradually to peak levels about 5 500 years ago causing land loss on tropical coasts with flat continental shelves Cracks in the earth's crust as the weight of the ice shifted to the seas set off catastrophic events compounded by earthquakes volcano eruptions super waves and floods drowned the coastal cultures and all the flat continental shelves of Southeast Asia and wiped out many populations As the sea rolled in there was a mass migration from the sinking continent Genetic studies show that there has been a sharp decline in the population of the world and population turnovers from Southeast East and South Asia to Europe Near East and the Caucasus beginning at the the end of the Younger Dryas period The Younger Dryas disasters are also documented as legends myths or tales in almost every region on Earth observable with tremendous similarities They are common across a wide range of cultures extending back into Bronze Age and Neolithic prehistory The overwhelming consistency among legends and myths of flood and the repopulation of man from a flood hero similar to the Noah Flood are found in distant parts of the Earth The myths similar to the Garden of Eden

Western Pacific from the early historical period to the present Transcending the artificial boundaries of macro regions and nation states and trying to bridge the arbitrary divide between inherently cosmopolitan high cultures e g Sanskritic Sinitic or Islamicate and local or indigenous cultures this multidisciplinary volume explores the metaphor of Monsoon Asia as a vast geo environmental area inhabited by speakers of numerous language phyla which for millennia has formed an integrated system of littorals where crops goods ideas cosmologies and ritual practices circulated on the sea routes governed by the seasonal monsoon winds The collective body of work presented in the volume describes Monsoon Asia as an ideal theatre for circulatory dynamics of cultural transfer interaction acceptance selection and avoidance and argues that despite the rich ethnic linguistic and sociocultural diversity a shared pattern of values norms and cultural models is discernible throughout the region

**Pebbles on the Beach** M. Jankiraman Ph.D.,2020-10-28 This planet abounds in myths and legends prevalent in various cultures More often than not these are based on a kernel of truth The facts get grossly exaggerated through the ages much like a fishing tale Pebbles on the Beach is a concise examination of many of these There are adequate references given at the end of each chapter in case the reader wishes to follow up on these Some of the stories examined are pertaining to the year 2012 the biblical end of times as well as the story of Atlantis the Ark of the Covenant and an examination of the secrets of the Great Pyramid at Giza in Egypt amongst others This book also includes an investigation of the story of Moses especially the identity of the Pharaoh responsible for the Exodus This is a result of many years of patient study of such topics by the author and is presented for the first time in the form of one book for easy reading One is reminded of the famous quote attributed to Sir Isaac Newton wherein he said that I seem to have been only like a boy playing on the sea shore and diverting myself in now and then finding a smoother pebble or a prettier shell than ordinary whilst the great ocean of truth lay all undiscovered before me
