Description

This is the story of a man who said that he would stop the motor of the world and did. Was he a destroyer or the greatest of liberators? Why did he have to fight his battle, not against his enemies, but against those who needed him most, and his hardest battle against the woman he loved? What is the world's motor and the motive power of every man? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the characters in this story. Tremendous in its scope, this novel presents an astounding panorama of human life – from the productive genius who becomes a worthless playboy – to the great steel industrialist who does not know that he is working for his own destruction – to the philosopher who becomes a pirate – to the composer who gives up his career on the night of his triumph – to the woman who runs a transcontinental railroad – to the lowest track worker in her Terminal tunnels. You must be prepared, when you read this novel, to check every premise at the root of your convictions. This is a mystery story, not about the murder and rebirth of man's spirit. It is a philosophical revolution, told in the form of an action thriller of violent events, a ruthlessly brilliant plot structure and an irresistible suspense. Do you say this is impossible? Well, that is the first of your premises to check.

Stories of the Self Anna Poletti, 2020-08-25 The importance of personal storytelling in contemporary culture and politics In an age where our experiences are processed and filtered through a wide variety of mediums both digital and physical how do we tell our own story How do we get a life make sense of who we are and the way we live and communicate that to others Stories of the Self takes the literary study of autobiography and opens it up to a broad and fascinating range of material practices beyond the book investigating the manifold ways people are documenting themselves in contemporary culture Anna Poletti explores

Andy Warhol's Time Capsules a collection of six hundred cardboard boxes filled with text objects from the artist's everyday life the mid aughts crowdsourced digital archive PostSecret queer zine culture and its practices of remixing and collaging and the bureaucratic processes surrounding surveillance dossiers Stories of the Self argues that while there is a strong emphasis on the importance of personal storytelling in contemporary culture and politics mediation is just as important in establishing the credibility and legibility of life writing Poletti argues that the very media used for writing our lives intrinsically shapes how we are seen to matter

The Revolution That Wasn't Jen Schradie, 2019-05-13 This surprising study of online political mobilization shows that money and organizational sophistication influence politics online as much as off and casts doubt on the democratizing power of digital activism The internet has been hailed as a leveling force that is reshaping activism From the Arab Spring and Occupy Wall Street to Black Lives Matter and MeToo digital activism seemed cheap fast and open to all Now this celebratory narrative finds itself competing with an increasingly sinister story as platforms like Facebook and Twitter once the darlings of digital democracy are on the defensive for their role in promoting fake news While hashtag activism captures headlines conservative digital activism is proving more effective on the ground In this sharp eyed and counterintuitive study Jen Schradie shows how the web has become another weapon in the arsenal of the powerful She zeroes in on workers rights advocacy in North Carolina and finds a case study with broad implications North Carolina's hard right turn in the early 2010s should have alerted political analysts to the web's antidemocratic potential amid booming online organizing one of the country's most closely contested states elected the most conservative government in North Carolina's history The Revolution That Wasn't identifies the reasons behind this previously undiagnosed digital activism gap Large hierarchical political organizations with professional staff can amplify their digital impact while horizontally organized volunteer groups tend to be less effective at translating online goodwill into meaningful action Not only does technology fail to level the playing field it tilts it further so that only the most sophisticated and well funded players can compete

Transhuman Citizen Ben Murnane, 2024-06-28 This is the story of America's zaniest presidential candidate who wants to turn the whole population into cyborgs It's a true story stranger than fiction Don't stand there Zoltan almost stepped on a landmine He was in Vietnam reporting for National Geographic If his guide hadn't warned him he'd be dead Zoltan didn't want to die Who does But Zoltan realized something else just then He didn't want to die ever In fact he didn't want anyone to die ever again It's an idea he's been pushing now for years He's a leader in the transhumanism movement which wants to merge humans with machines Zoltan drove a bus shaped like a coffin across the US to teach people about the new frontiers of science that mean death is not inevitable His presidential campaigns have attracted global attention Imagine there were no diseases because science had cured them all Imagine storing your mind in a computer Living longer than you ever expected for hundreds of years This is the extraordinary story of Zoltan's war on death

Evil Twins and the Ultimate Insight Bruce Stone, 2023 With the 2020 election political polarization in the U.S. entered a ludicrous end stage Partisanship once a pseudo-rational system of biases has devolved to a conflict between incompatible realities In search of some pathway toward consensus *Evil Twins and the Ultimate Insight* Ayn Rand Vladimir Nabokov and the Polarized Politics of Reading looks to the works of two iconic Russian American writers whose literary rivalry mirrors the rift between political parties in the U.S. The matchup has all the markings of an evil twin narrative pitting Rand the muse of libertarian conservatism against Nabokov the trickster genius of the Western canon Their mid-century novels afford a rare opportunity to arbitrate by proxy American political grievances and resolve in print its electoral dysfunction *Evil Twins and the Ultimate Insight* mounts this critical intervention into the Blue-Red blood feud and contemplates in the cognitive challenges of Nabokov's fiction a remedy for its polarized politics To guard against grandstanding axe-grinding deck-stacking inaccuracy or obfuscation Stone's book proceeds by indirection exploring four scholarly books that all speak to the peculiar relationship between Rand and Nabokov Gene Bell Villada's *On Nabokov* Ayn Rand and the Libertarian Mind 2013 Adam Weiner's *How Bad Writing Destroyed the World* Ayn Rand and the Literary Origins of the Financial Crisis 2016 Michael Rodgers's *Nabokov and Nietzsche Problems and Perspectives* 2018 and Peter Roberts and Herner Saeverot's *Education and the Limits of Reason Reading Dostoevsky Tolstoy and Nabokov* 2018 Each of these books is seriously flawed but their numerous interlocking problems conspire to reveal empirically via negativa how literature might tip the scales in America's partisan deadlock Ultimately Stone argues that when our books get tangled up in our politics their promise to help us see to the bottom of things and scooch closer to the asymptote of truth and reality might be something more than a mirage
