Modern life after 1945 seemed to promise both utopia and catastrophe. Both could it seem be achieved at the push of a button. Published to accompany a major V&A exhibition, *Cold War Modern: Design 1945-1970*, this book explores how the politics of the Cold War shaped architecture and design. A major urban history of the design and development of postwar San Francisco. *Designing San Francisco* is the untold story of the formative postwar decades when U.S. cities took their modern shape amid clashing visions of the future. In this pathbreaking and richly illustrated book, Alison Isenberg shifts the focus from architects and city planners, those most often hailed in histories of urban development and design, to the unsung artists, activists, and others who played pivotal roles in rebuilding San Francisco between the 1940s and the 1970s. Previous accounts of mid-century urban renewal have focused on the opposing terms set down by Robert Moses and Jane Jacobs: put simply, development versus preservation. And have followed New York City models. Now Isenberg turns our attention west to colorful, pioneering, and contentious San Francisco, where unexpectedly fierce battles were waged over iconic private and public projects like Ghirardelli Square, Golden Gateway, and the Transamerica Pyramid. When large-scale redevelopment came to low-rise San Francisco in the 1950s, the resulting rivalries and conflicts sparked the proliferation of numerous allied arts fields and their professionals, including architectural model makers, real estate publicists, graphic designers, photographers, property managers, builders, sculptors, public interest lawyers, alternative press writers, and preservationists. Isenberg explores how these centrally engaged arts professionals brought new ideas to city, regional, and national planning and shaped novel

projects across urban suburban and rural borders San Francisco's rebuilding galvanized far reaching critiques of the inequitable competition for scarce urban land and propelled debates over responsible public land stewardship Isenberg challenges many truisms of this renewal era especially the presumed male domination of postwar urban design showing how women collaborated in city building long before feminism's impact in the 1970s An evocative portrait of one of the world's great cities *Designing San Francisco* provides a new paradigm for understanding past and present struggles to define the urban future     **Journal of Property Management** ,1945     **Popular Mechanics** ,2000-01 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle     *Readers' Guide to Periodical Literature* ,1953
