Interests Of State The Politics Of Language Multiculturalism And Feminism In Canada:

Interests of State Leslie A. Pal, 1993-05-20 Leslie Pal explores a phenomenon unique to Canadian politics the direct funding of advocacy groups by the government and makes a significant contribution to the debate on the role of the state in shaping society Focusing on groups concerned with the official languages multiculturalism and women s issues he argues that funding was not neutral but was driven by state interests and particularly by a national unity agenda Interests of State Leslie Alexander Pal, Leslie A. Pal, 1995 An exploration of the direct funding of advocacy groups by the government Focusing on groups concerned with the official languages multiculturalism and women s issues Leslie Pal argues that funding is not neutral but is driven by state interests and by a national unity agenda *Language and Politics in the United States and Canada* Thomas K. Ricento, Barbara Burnaby, 1998-05 Explores parallel and divergent developments in language policy and language rights in the U S and Canada especially the past 4 decades as a basis for reflection on what can be learned from one country s experience by the other *Constitutional Politics in Canada and the United States* Stephen L. Newman, 2012-02-01 The Canadian constitutional reforms of 1982 which included a Charter of Rights and Freedoms analogous to the American Bill of Rights brought about a convergence with American constitutional law As in the U S Canadian courts have shown themselves highly protective of individual rights and they have not been shy about assuming a leading and sometimes controversial political role in striking down legislation In clear and easy to understand language the contributors not only chart but also explore the reasons for areas of similarity and difference in the constitutional politics of Canada and the United States **Women and Political Representation in Canada** Caroline Andrew, Manon Tremblay, 1998 This collection of essays explores the often antagonistic relationship between women and political life in Canada While women make up little over half of the total population in Canada they are in many ways conspicuous by their absence from the Canadian political scene Published in English *Canadian Language Policies in Comparative Perspective* Michael A. Morris, 2010 A systematic examination of language policies in Canada based on domestic and international comparisons *The Myth of the Sacred* Donald E. Abelson, Patrick James, Michael Lusztig, 2002 In this collection the authors challenge the myth of the sacred the idea that certain aspects of the constitutional process judicial political behaviour interest group politics and centralization of power are untouchable politically They suggest that certain actors and institutions have contributed to a myth about the normative basis of Canadian constitutional politics a myth perpetuated through the popular media as well as much of the scholarly literature Such actors often disguise their overtly political behavior with a cloak of impartiality presenting their actions as furthering the public good and therefore immune to challenge The Myth of the Sacred seeks to challenge this ideal At its core this myth embodies the Trudeauian ideal of Canadian society one that features a constitution that empowers impartial judges at the expense of politically motivated legislators one that allows each individual to enjoy a uniform range of rights freedoms and means of belonging to the larger

Canadian society and one that seeks to ensure the primacy of the national government rather than the provincial Trudeau called his vision the Just Society But justice is an illusive and amorphous concept Defining it much less institutionalizing it is fraught with risk In modern liberal democracies justice is typically understood as the product of some mix of liberty and equality process and substance with the amount of each component varying according to taste It is not unusual for political actors to seek to institutionalize their own formulas for justice but it is also not reasonable to expect these formulas to go unchallenged Such a challenge represents the dominant theme of this volume Contributors include Donald E Abelson Tom Flanagan University of Calgary Patrick James James B Kelly Brock University Michael Lusztig Christopher P Manfredi McGill University Hudson Meadwell McGill University Anthony A Peacock Utah State University Mark Rush Washington and Lee University and Shannon I Smithey Kent State University **How Ottawa Spends, 1993-94** Susan D. Phillips, 1993

Aboriginal Rights and Self-Government Curtis Cook, Juan David Lindau, 2000 The essays address problems of constructing new political arrangements practical questions about the viability of multiple governments within one political system and epistemological questions about recognizing and understanding the other BOOK JACKET **A Civil Society?** Miriam Smith, 2005-04-01 Focusing on the traditional state centred arenas of group and social movement influence such as Parliament elections the bureaucracy and the courts this book argues that the terrain of group politics in Canada has been restructured by the transition from the Keynesian welfare state era to the era of neoliberal globalization It surveys the main approaches to the study of collective action in the Canadian context including theories such as pluralism neo Marxism historical institutionalism and rational choice theory The core of the analysis draws on political economy and historical institutionalism to explore the ways in which Canadian political institutions are in the midst of a fundamental transformation brought on by the shift to neoliberalism Miriam Smith argues that political institutional changes in federalism and intergovernmental relations the role of the courts in the wake of the Charter the decline of the legislature the concentration of power at the centre the relative displacement of the public service the regionalization of the brokerage party system and the rise of professional lobbyists have altered the scope for group politics in Canada The restructuring of Canadian politics has gone beyond the level of policy change reshaping the central institutions of the state The core political institutions of the Canadian state are in the midst of their own restructuring process one that will make a less democratic Canada

Rebuilding Canadian Party Politics R. Kenneth Carty, William Cross, Lisa Young, 2007-11 This book is about the collapse of Canadian party politics in the early 1990s about the end of a party system that had governed Canada s national politics for several decades and about the ongoing struggle to build its successor Civil Religion in Political Thought Ronald L. Weed, John von Heyking, 2010-03 The essays in this volume blend historical and philosophical reflection with concern for contemporary political problems They show that the causes and motivations of civil religion are a permanent fixture of the human condition though some of its manifestations and proximate causes have shifted in an age of multiculturalism religious

toleration and secularization *Policy Change, Courts, and the Canadian Constitution* Emmett Macfarlane, 2018-01-01

Policy Change Courts and the Canadian Constitution aims to further our understanding of judicial policy impact and the role of the courts in shaping policy change Bringing together a group of political scientists and legal scholars this volume delves into a diverse set of policy areas including health care issues the regulation of elections criminal justice policy minority language education citizenship refugee policy human rights legislation and Indigenous policy While much of the public law and judicial politics literatures focus on the impact of the constitution and the judicial role scholarship on courts that makes policy change its central lens of analysis is surprisingly rare Multidisciplinary in its approach to examining policy issues this book focuses on specific cases or policy issues through a wide ranging set of approaches including the use of interview data policy analysis historical and interpretive analysis and jurisprudential analysis *Constraining the Court* James B. Kelly, 2024-05-01

When the Supreme Court of Canada makes a decision that invalidates a statute it creates a constitutional moment But does that have a direct and observable impact on public policy *Constraining the Court* explores what happens when a statute involving a significant public policy issue French language rights in Quebec supervised consumption sites abortion or medical assistance in dying is declared unconstitutional James B Kelly examines the conditions under which Parliament or provincial territorial legislatures attempt to contain the policy impact of judicial invalidation and engage in non compliance without invoking the notwithstanding clause He considers the importance of the issue the unpopularity of a judicial decision the limited reach of a negative rights instrument such as the Charter the context of federalism and the mixture of public and private action behind any legislative response While the Supreme Court s importance cannot be denied this rigorous analysis convincingly concludes that a judicial decision does not necessarily determine a policy outcome

The Moral Economies of Ethnic and Nationalist Claims Bruce J. Berman, André Laliberté, Stephen J. Larin, 2016-09-15 At a time when states armed insurgent movements and ethnic and nationalist political parties make claims based on the defence of communal interests and political and religious ideologies with often deadly consequences it is important to understand the discourses and actions that are used to legitimize these claims This book argues that competing moral economies the beliefs and practices that normatively regulate and legitimize the distribution of wealth power and status in a society play an important role in ethnic and nationalist conflict Bringing together international experts on the politics of ethnicity and nationalism this final volume in the prestigious EDG series investigates how moral economies have been challenged in identity based communities in ways that precipitate or exacerbate conflicts The combination of theoretical chapters and case studies ranging from Africa and Asia to North America provides compelling evidence for the value of moral economy analysis in understanding problems associated with ethnic and nationalist mobilization and conflict
