Ann Kaplan, 2005-07-11 E Ann Kaplan explores the relationship between the impact of trauma on individuals and on entire cultures and nations Arguing that humans possess a need to draw meaning from personal experience and to communicate what happens to others she examines the forms that are used to bridge the experience **Theater, War, and Memory in Crisis** John Ireland, 2025-03-11 Theater War and Memory in Crisis explores how French and Algerian dramatists have engaged with two traumatic events that continue to haunt France the German occupation and Vichy government from 1940 to 1944 and the Algerian War from 1954 to 1962 John Ireland's investigation is guided by one central question can theater take on issues of violence war trauma and conflicted memory in a fundamentally different way from archival forms of culture such as memoirs narrative fiction and film Throughout the twentieth century French cultural anthropologists classicists and social scientists repeatedly revisited links between archaic religious ritual the practice of sacrifice and Greek tragedy as attempts to understand regulate and mitigate the violence of human conflict and war Ireland argues that contemporary French playwrights dealing with war trauma and contested memory were influenced by aspects of this research that foregrounded the core virtues of oral culture presence and the present the here and now that also regulate theatrical performance That connection to the present encouraged dramatists and performance artists to make live historiographical contributions to reverberating unresolved history but also revived perennial therapeutic values of oral culture that evolved in ancient Greece Theater War and Memory in Crisis brings original readings of canonical authors like Jean Paul Sartre Jean Genet Bernard Marie Kolt s and Kateb Yacine into dialogue with non canonical dramatists such as Armand Gatti Liliane Atlan and Noureddine Aba *Uncivil War* James D. Wilson, Mark Lloyd Perry, 2008 Rarely do academics and policymakers have the opportunity to sit down together and contemplate the broadest consequences of war Our comprehension has traditionally been limited to war's causes execution promotion opposition and immediate political and economic ends and aftermath But just as public health researchers are becoming aware of unexpected subtle and powerful consequences of human economic action we are beginning to realize that war has many short and long term consequences that we poorly understand but cannot afford to neglect These papers contribute to a growing discourse among academics scholars and lawmakers that is questioning and rethinking the nature and purpose of war By studying the effects of war on communities we can more readily understand and anticipate the consequences of present and future conflicts Such an understanding

might well enable us to plan and execute military action with a more clearly defined set of post war goals in mind Whereas traditionally a government at war seeks the defeat of the adversary as its primary and often sole aim through a clearer understanding of war's effects other aims will also become prominent War like surgery could gradually become more refined could minimize damage in ways that are currently unimaginable and could involve an increasingly heavy responsibility to prepare for and facilitate reconstruction Projects such as this volume are of course only the beginning The more we understand the evolving nature of war the better prepared we will be to protect communities from its harmful effects

The Cambridge Companion to War Writing Catherine Mary McLoughlin, 2009-07-16 This Companion covers British and American war writing from Beowulf to Don DeLillo

The Language of War James Dawes, 2009-07 Focusing on American literature from the Civil War World War I and World War II Dawes develops two primary questions How does the strategic violence of war affect literary legal and philosophical representations And in turn how do such representations affect the reception and initiation of violence itself

The Cambridge Companion to War Writing Kate McLoughlin, 2009-07-16 War writing is an ancient genre that continues to be of vital importance Times of crisis push literature to its limits requiring writers to exploit their expressive resources to the maximum in response to extreme events This Companion focuses on British and American war writing from Beowulf and Shakespeare to bloggers on the War on Terror Thirteen period based chapters are complemented by five thematic chapters and two chapters charting influences This uniquely wide range facilitates both local and comparative study Each chapter is written by an expert in the field and includes suggestions for further reading A chronology illustrates how key texts relate to major conflicts The Companion also explores the latest theoretical thinking on war representation to give access to this developing area and to suggest new directions for research In addition to students of literature the volume will interest those working in war studies history and cultural studies

The Memory of Pain Camila Loew, 2011 In this book Camila Loew analyzes four women's testimonial literary writings on the Holocaust to examine and question some of the tenets of the fields of Holocaust studies gender studies and testimony Through a close reading of the works of Charlotte Delbo Margarete Buber Neumann Ruth Kluger and Marguerite Duras Loew foregrounds these authors search for a written form to engage with their experiences of the extreme Although each chapter contains its individual focus and features the book possesses a unity in intention concerns and consequences In the theoretical introduction that unites the four chapters Loew eschews essentialism and revises the emergence of the field of Women and Holocaust studies from the early 1980s on and signals some of its shortcomings In response and in accordance with a recent turn in various disciplines of the Humanities Loew highlights the ethical dimension of testimony and its responsible commitment to the other In dealing with the texts as literary testimonies a complex genre between literature and history testimony is freed from the obligation to respond to the requirements of factual truth and becomes a privileged form to voice the traumatic event and to symbolically explore the role of excess

Lucidity Ian James, Emma Wilson, 2016-05-20 This collection of essays addresses

the question of lucidity as a thematic in literature and film but also as a quality of both expression and insight in literary criticism and critical thought more generally The essays offer treatments of lucidity in itself and in relation to its opposites forms of obscurity and darkness They offer attention to problems of philosophical thought and reason to questions of literary and poetic form and of photographic and filmic contemplation Ranging from engagements with early modern writing through to more recent material the contributions focus in particular on nineteenth and twentieth century French prose and poetry the field which has been the predominant focus of Alison Finch s critical writing They are written as tributes to the distinctively lucid insights of her work and to the breadth and clarity of its intellectual engagement
