The Other Side Of Darkness By Derrick Jensen:

A Language Older Than Words Derrick Jensen, 2004-03-01 At once a beautifully poetic memoir and an exploration of the various ways we live in the world *A Language Older Than Words* explains violence as a pathology that touches every aspect of our lives and indeed affects all aspects of life on Earth This chronicle of a young man's drive to transcend domestic abuse offers a challenging look at our worldwide sense of community and how we can make things better

Anarcho-primitivism , The Culture of Make Believe Derrick Jensen, 2004-03-30 Derrick Jensen takes no prisoners in *The Culture of Make Believe* his brilliant and eagerly awaited follow up to his powerful and lyrical *A Language Older Than Words* What begins as an exploration of the lines of thought and experience that run between the massive lynchings in early twentieth century America to today's death squads in South America soon explodes into an examination of the very heart of our civilization *The Culture of Make Believe* is a book that is as impeccably researched as it is moving with conclusions as far reaching as they are shocking *Walking on Water* Derrick Jensen, 2005-04-30 Remember the days of longing for the hands on the classroom clock to move faster Most of us would say we love to learn but we hated school Why is that What happens to creativity and individuality as we pass through the educational system *Walking on Water* is a startling and provocative look at teaching writing creativity and life by a writer increasingly recognized for his passionate and articulate critique of modern civilization This time Derrick Jensen brings us into his classroom whether college or maximum security prison where he teaches writing He reveals how schools perpetuate the great illusion that happiness lies outside of ourselves and that learning to please and submit to those in power makes us into lifelong clock watchers As a writing teacher Jensen guides his students out of the confines of traditional education to find their own voices freedom and creativity Jensen's great gift as a teacher and writer is to bring us fully alive at the same moment he is making us confront our losses and count our defeats It is at the center of *Walking on Water* a book that is not only a hard hitting and sometimes scathing critique of our current educational system and not only a hands on method for learning how to write but like Julia Cameron's *The Artist's Way* a lesson on how to connect to the core of our creative selves to the miracle of waking up and arriving breathless but with dry feet on the far shore **Thought to Exist in the Wild** Derrick Jensen, 2007 Provides a history of zoos examines the faults of zoos and argues for their dissolution *Dreams* Derrick Jensen, 2011-01-04 Jensen's furthest reaching book yet *Dreams* challenges the destructive nihilism of writers like Richard Dawkins and Sam Harris who believe that there is no reality outside what can be measured using the tools of science He introduces the mythologies of ancient cultures and modern indigenous peoples as evidence of alternative ways of understanding reality informed by thinkers such as American Indian writer Jack Forbes theologian and American Indian rights activist Vine Deloria Shaman Martin Prechtel Dakota activist and scholar Waziyatawin and Okanagan Indian writer Jeannette Armstrong He draws on the wisdom of Dr Paul Staments author of *Mycelium Running How Mushrooms Can Help Save the World* sociologist Stanley Aronowitz who discusses science's lack

of accountability to the earth and many more As in his other books Jensen draws heavily from his own life experience living alongside the frogs redwoods snails birds and bears of the upper northwest about which he writes with exquisite tenderness Having taken on the daunting task of understanding one s dreams as a source of knowledge Jensen achieves the near impossible in this breathtakingly brave and ambitious new work **How Shall I Live My Life?** Derrick Jensen,2011-01-26 In this collection of interviews Derrick Jensen discusses the destructive dominant culture with ten people who have devoted their lives to undermining it Whether it is Carolyn Raffensperger and her radical approach to public health or Thomas Berry on perceiving the sacred be it Kathleen Dean Moore reminding us that our bodies are made of mountains rivers and sunlight or Vine Deloria asserting that our dreams tell us more about the world than science ever can the activists and philosophers interviewed in **How Shall I Live My Life** each bravely present a few of the endless forms that resistance can and must take Interviews include George Draffan Jesse Wolf Hardin Vine Deloria David Abram Steven Wise Jan Lundberg David Edwards Thomas Berry Carolyn Raffensperger and Kathleen Dean Moore **Songs of the Dead** Derrick Jensen,2009-03-01 A serial killer stalks the streets of Spokane acting out a misogynist script from the dark heart of this culture Across town a writer named Derrick has spent his life tracking the reasons political psychological spiritual for the sadism of modern civilization And through the grim nights Nika a trafficked woman tries to survive the grinding violence of prostitution Their lives and the forces propelling them are about to collide Derrick s current project is a book called Possession which asks the ontological question of who is responsible for the culture of domination that s destroying the earth Who actually benefits from a dead planet the endgame that s fast approaching What if the answer is something way bigger than humans Meanwhile with motivations opposite to Derrick s the serial killer is asking much the same question of the women he kidnaps as his final act of possession and Nika is next Derrick s metaphysical explorations suddenly take on more urgency as visions both terrifying and sacred begin to intrude and past and future collapse without warning All Derrick knows is Nika s name and her impending death The only person who believes him is his partner Allison a woman with both strengths and scars whose past has led her to a commitment to justice no matter what the cost As the visions intensify and the killer draws nearer Derrick and Allison are compelled to act making themselves the next targets Derrick must learn to negotiate a world of spirits and demons living and dead before it s too late And what hangs in the balance is not just their lives but also the fate of life on earth With **Songs of the Dead** Derrick Jensen has written more than a thriller This is a story lush with rage and tenderness on its way to being a weapon **What We Leave Behind** Derrick Jensen,Aric McBay,2011-01-04 What We Leave Behind is a piercing impassioned guide to living a truly responsible life on earth Human waste once considered a gift to the soil has become toxic material that has broken the essential cycle of decay and regeneration Here award winning author Derrick Jensen and activist Aric McBay weave historical analysis and devastatingly beautiful prose to remind us that life human and nonhuman will not go on unless we do everything we can to facilitate the most basic process on earth the root of

policy issues *Truths Among Us* Derrick Jensen, 2011-09-01 From Derrick Jensen acclaimed author of *Endgame* and *The Culture of Make Believe* comes a prescient thought provoking collection of interviews with ten leading writers philosophers teachers and activists To function in this society we are asked to live by lies that humans have the right to take what they want from the earth without giving back that knowledge is limited to that which can be quantified that corporations and governments know what is best for our future Our instinctive outrage at environmental collapse political conspiracy and corporate corruption is stifled by the double speak of popular opinion telling us that the progress of civilization demands unquestioning allegiance to those in power But the brave voices in *Truths Among Us* seek to help us acknowledge the values we know in our hearts are right and inspire within us the courage to act on them Among those who share their wisdom here is acclaimed sociologist Stanley Aronowitz who shows us that science is but one lens through which we can discover knowledge Luis Rodriguez poet and peacemaker asks us to embrace gang members as people instead of stereotypes while the brilliant Judith Herman helps us gain a deeper understanding of the psychology of abusers in whatever form they may take Paul Stamets reveals the power of fungi whose intelligence like that of so many nonhumans is often ignored And writer Richard Drinnon reminds us that our spiritual paths need not be narrowed by the limiting mythologies of Western civilization Following *How Shall I Live My Life* and *Resistance Against Empire* Jensen's third collection of interviews reinforces a simple premise with which he has long challenged his readers if we shut our ears and eyes to the cacophony of consumption oriented distractions and pause to listen to the wisdom of our own hearts the truths among us will reveal themselves Interviewees include George Gerbner Stanley Aronowitz Luis Rodriguez Judith Herman John Keeble Richard Drinnon Paul Stamets Marc Ian Barasch Mart n Prechtel and Jane Caputi *Monsters* Derrick Jensen, 2017-10-01 *Monsters* is an illustrated collection of wild weird and whimsical tales with a twist These stories are not about mythical creatures here the creatures speak for themselves There's an orc who hates Tolkien a young demon awash in teenage angst an angel abandoned by Jesus who finds the Fates Jensen creates a world both delicately dreamlike and all too real where the villain is sometimes the victim and evil is not always what we thought If stories teach us how to be human then the stories in *Monsters* are the ones we need now These are fractured fairy tales for grown ups where the roots of sadism are laid bare and the horrors of human supremacism are firmly faced But as in all of Jensen's work love is both always possible and also a call to action By turns macabre melancholy and magical these stories and their accompanying images will leave you wondering who the real monsters are and how they can be defeated ***Listening to the Land*** Derrick Jensen, 2004-03-01 In this far ranging and heartening collection Derrick Jensen gathers conversations with environmentalists theologians Native Americans psychologists and feminists engaging some of our best minds in an exploration of more peaceful ways to live on Earth Included here is Dave Foreman on biodiversity Matthew Fox on Christianity and nature Jerry Mander on technology and Terry Tempest Williams on an erotic connection to the land With intelligence and compassion *Listening to the Land* moves

from a look at the condition of the environment and the health of our spirit to a beautiful evocation of eros and a life based on love **Books Out Loud** ,2007 Soulcraft Bill Plotkin,2010-10-05 Since 1980 depth psychologist Bill Plotkin has been guiding women and men into the wilderness the redrock canyons and snow crested mountains of the American West but also into the wilds of the soul He calls this work soulcraft There s a great longing in all people to uncover the secrets and mysteries of our individual lives to find the unique gift we were born to bring to our communities and to experience our full membership in the more than human world This journey to soul is a descent into layers of the self much deeper than personality a journey meant for each one of us not just for the heroes and heroines of mythology A modern handbook for the journey Soulcraft is not an imitation of indigenous ways but a contemporary nature based approach born from wilderness experience the traditions of Western culture and the cross cultural heritage of all humanity Filled with stories poems and guidelines Soulcraft introduces over 40 practices that facilitate the descent to soul including dreamwork wilderness vision fasts talking across the species boundaries council self designed ceremony nature based shadow work and the arts of romance being lost and storytelling The Concept of Violence Mark Vorobej,2016-02-26 This study focuses on conceptual questions that arise when we explore the fundamental aspects of violence Mark Vorobej teases apart what is meant by the term violence showing that it is a surprisingly complex unwieldy and highly contested concept Rather than attempting to develop a fixed definition of violence Vorobej explores the varied dimensions of the phenomenon of violence and the questions they raise addressing the criteria of harm agency victimhood instrumentality and normativity Vorobej uses this multifaceted understanding of violence to engage with and complicate existing approaches to the essential nature of violence first Vorobej explores the liberal tradition that ties violence to the intentional infliction of harm and that grows out of a concern for protecting individual liberty or autonomy He goes on to explore a more progressive tradition one that is usually associated with the political left that ties violence to the bare occurrence of harm and that is more concerned with an equitable promotion of human welfare than with the protection of individual liberty Finally the book turns to a tradition that operates with a more robust normative characterization of violence as a morally flawed or forbidden response to the ontological fact of human vulnerability This nuanced and in depth study of the nature of violence will be especially relevant to researchers in applied ethics peace studies and political philosophy **5th Inning** E. Ethelbert Miller,2012-05-01 The 5th Inning is poet and literary activist E Ethelbert Miller s second memoir Coming after Fathering Words The Making of an African American Writer published in 2000 this book finds Miller returning to baseball the game of his youth in order to find the metaphor that will provide the measurement of his life At 60 he ponders whether his life can now be entered into the official record books as a success or failure The 5th Inning is one man s examination of personal relationships depression love and loss This is a story of the individual alone on the pitching mound or in the batters box It s a box score filled with remembrance It s a combination of baseball and the blues The paperback has an additional chapter **Deep Green**

Resistance Derrick Jensen, Aric McBay, Lierre Keith, 2011-01-04 For years Derrick Jensen has asked his audiences Do you think this culture will undergo a voluntary transformation to a sane and sustainable way of life No one ever says yes Deep Green Resistance starts where the environmental movement leaves off industrial civilization is incompatible with life Technology can't fix it and shopping no matter how green won't stop it To save this planet we need a serious resistance movement that can bring down the industrial economy Deep Green Resistance evaluates strategic options for resistance from nonviolence to guerrilla warfare and the conditions required for those options to be successful It provides an exploration of organizational structures recruitment security and target selection for both aboveground and underground action Deep Green Resistance also discusses a culture of resistance and the crucial support role that it can play Deep Green Resistance is a plan of action for anyone determined to fight for this planet and win
