How Do Stories Save Us? Scott Holland, 2006 The postmodern turn in theology reminds us that religion is imaginative before it becomes prosaic or propositional Theologians are now joining literary critics novelists and poets in asking the question How Do Stories Save Us Claiming that the truth of religion like the truth of its nearest analogue art is primordially a truth of manifestation this book explores the question in constructive conversation with the hermeneutics of David Tracy With Tracy's analogical imagination as a guide Scott Holland takes the reader on an intellectual adventure through narrative theology literary criticism poetics ritual studies and aesthetics in the composition of a theology of culture

Verses Against the Darkness Greg Dawes, 2006 Verses Against the Darkness offers a new assessment of Pablo Neruda's poetry by looking at the intersection of his aesthetic method and political radicalism from 1925 to 1954 It challenges the canonical view that Neruda was a gifted verse maker who in 1936 let himself be carried away by the excesses of communist politics Instead by focusing primarily on Tercera residencia 1935-1945 Greg Dawes argues for an uneven yet steady evolution and continuity in Neruda's work politics and morality Dawes relies on historical accounts biographies literary history and criticism and on Neruda's political and aesthetic theory to prove that his poetry became contrary to received critical opinion more sophisticated literarily and politically as he became more radicalized during the Spanish Civil War and World War II and as he developed his dialectical realism or guided spontaneity Greg Dawes is Associate Professor of Latin American and World Literatures at North Carolina State University and is the editor of the on line journal *A contracorriente*

Historical Dictionary of the Dirty Wars David Kohut, Olga Vilella, 2016-11-16. The *Historical Dictionary of the Dirty Wars* covers the period 1954-1990 in South America when authoritarian regimes waged war on subversion, both real and imagined. The term "dirty war" (guerra sucia) though originally associated with the military dictatorship in Argentina from 1976 to 1983, has since been applied to neighboring dictatorships in Paraguay (1954-1989), Brazil (1964-1985), Bolivia (1971-1981), Uruguay (1973-1985), and Chile (1973-1990). Although the concept is by no means peculiar to Latin America, the term has become a byword for state-sponsored repression anywhere in the world; these regimes were among its most notorious practitioners. In the mid-1970s they joined forces along with Ecuador and Peru to create Operation Condor, a top secret network of military dictatorships that kidnapped, tortured, and disappeared one another's political opponents. Their death squads operated both nationally and internationally, sometimes beyond the region. This third edition of *Historical Dictionary of the Dirty Wars* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on the countries themselves, guerrilla and political movements that provoked, though by no means exonerated, governmental reaction; leading guerrilla, human rights, military, and political figures; local, regional, and international human rights organizations; expressions of cultural resistance; art, film, literature, music, and theater; and artistic figures, filmmakers, novelists, and playwrights whose works attempted to represent or resist the period of repression. This book is an excellent access point for students, researchers, and anyone wanting to know more about the dirty wars of South America.

Historical Dictionary of the "dirty Wars" David R. Kohut, Olga Vilella, Beatrice Julian, 2003. During the 1970s and 1980s, national security regimes in Argentina, Chile, and Uruguay declared war on suspected subversives, carrying out campaigns of mass human rights violations. The *Historical Dictionary of the Dirty Wars* describes the period, including the background and aftermath.

I Read it at the Movies Mark Axelrod, 2007. In *I Read It at the Movies*, Mark Axelrod, a veteran screenwriter, fiction writer, and literature professor, alerts you to the pitfalls that sink poorly written adaptations, describes which writing tools to hone for this kind of work, and tells you exactly how to use them. Axelrod leads you through a close reading of four films made from adapted screenplays: *Blade Runner*, *Death in Venice*, *Lolita*, and *The Postman*, examining in detail what choices the writer made and whether those choices succeeded. He ultimately leads you to understand why a script devoted to the letter of its source work is less desirable and less likely to be well received than one embodying the originating story's spirit.
