Robbins,1994 Popular writers and historians alike have perpetuated the powerful myth of the rugged individualist single handedly transforming the American West In reality William Robbins counters it was the Guggenheims and Goulds the Harrimans and Hearsts and the Morgans and Mellons who masterminded what the West was to become Remove the romance he shows and a darker West emerges a colonial like region where industrial statesmen aided by eastern U S and European capital manipulated investments in pursuit of private gain while controlling wage earning cowboys and miners Robbins argues that understanding the impact of capitalism on the West from the fur trade era to the present is essential to understanding power influence and change in the region Showing how global capitalism had a more profound impact on the modern West than individual initiative he explores violence and racism along the Texas Mexican border colonial style company towns in Montana and the Northwest contrasting traditions astride the U S Canadian boundary pace setting agribusiness and exploitation of labor in California the growing power of metropolitan centers and dependence of rural areas and the emergence of a sizable federal influence To grasp the essence of the West s dramatic transformation Robbins

contends you must look to the mainstays of material relations in the region the perpetually changing character of political and economic culture the inherent instability of resources and the larger constellations of capitalist decision making Consequently he shows shy Western success and failure prosperity and misfortune and expansion and decline were all inseparably linked to the evolution of capitalism at the local regional national and global levels In the tradition of Patricia Nelson Limerick s *Legacy of Conquest* Robbins s study challenges some of our most revered images of the West and invigorates the ongoing debates over its history and meaning for our nation *Coacoochee's Bones* Susan A. Miller,2003 A man born to an elite family Coacoochee used the power of his status in creative ways and Miller uses his career to explain his leadership in terms of Seminole knowledge and governmental structure showing that Coacoochee s concept of leadership was linked as closely to spiritual as to political or military imperatives Her account offers a more nuanced understanding of the Seminole cosmos particularly the reality governing Coacoochee s awareness of his own tribe s circumstances and of long standing borderlands disputes She draws on Seminole American and Mexican sources to help untangle the histories of various emigrant tribes to the borderlands She also examines the status of Seminoles today in light of the suppression of Coacoochee s story including modern Seminole s attempts to recover their lost homeland at El Nacimiento BOOK JACKET

**The Cattle Guard** James F. Hoy,1982      *The Changing American Countryside* Emery N. Castle,1995 The literature on rural America to the extent that it exists has largely been written by urban based scholars perpetuating out of date notions and stereotypes or by those who see little difference between rural and agricultural concerns As a result the real rural America remains much misunderstood neglected or ignored by scholars and policymakers alike In response Emery Castle offers *The Changing American Countryside* a volume that will forever change how we look at this important subject Castle brings together the writings of eminent scholars from several disciplines and varying backgrounds to take a fresh and comprehensive look at the forgotten hinterlands These authors examine the role of non metropolitan people and places in the economic life of our nation and cover such diverse issues as poverty industry the environment education family social problems ethnicity race religion gender government public policy and regional diversity The authors are especially effective in demonstrating why rural America is so much more than just agriculture It is in fact highly diverse complex and interdependent with urban America and the international market place Most major rural problems they contend simply cannot be effectively addressed in isolation from their urban and international connections To

do so is misguided and even hazardous when one fourth of our population and ninety seven per cent of our land area is rural Together these writings not only provide a new and more realistic view of rural life and public policy but also suggest how the field of rural studies can greatly enrich our understanding of national life      *Robert Redford and the American West* Elisa Leonelli, 2007-05-03 ROBERT REDFORD has played many Westerners on the big screen a romantic outlaw in Butch Cassidy and the Sundance Kid 1969 with Paul Newman a sheriff in Tell Them Willie Boy is Here 1968 a mountain man in Jeremiah Johnson 1972 a rodeo cowboy in The Electric Horseman 1979 with Jane Fonda a Montana rancher in The Horse Whisperer 1998 which he also directed He is the founder of Sundance an admirer of Native American art and culture and a committed environmentalist He embodies the best values of the American West      **The Interior Country** Alexander Blackburn, Craig Lesley, Jill Landem, 1987 This book demonstrates the unique focus of modern Western literature upon the inner nuances of human experience rather than upon the traditional regional local color Eastern American social sphere or European manners      *Love + Marriage = Death* Sander L.
