The Stone Angel By James W Nichol:

The Stone Angel James W. Nichol, 2002 **The Stone Angel /by Margaret Laurence ; Adapted for the Stage by James W. Nichol ; Directed by Maureen White, 1992 - House Program** Theatre Passe Muraille Archives (University of Guelph), 1992 *Miracles and Wonders in the Middle Ages and Early Modern Period* Albrecht Classen, 2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women s miraculous conception are identified as deeply impactful for the pre modern world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people s mindsets power structures and the debate between medicine and religion These topics were also greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today **Let's Go to the Grand!** Sheila M. F. Johnston, 2001-10-26 This lavishly illustrated book lovingly documents 100 years in the life of the Grand Theatre of London Ontario which opened in 1901 *Communication, Translation, and Community in the Middle Ages and Early Modern Period* Albrecht Classen, 2022-08-22 Literature serves many purposes and one of them certainly proves to be to convey messages wisdom and instruction and this across languages religions and cultures Beyond that as the contributors to this volume underscore people have always endeavored to reach out to their community members that is to build community to learn from each other and to teach Hence this volume explores the meaning of communication translation and community building based on the medium of language While all these aspects have already been discussed in many different venues the contributors endeavor to explore a host of heretofore less considered historical religious literary political and linguistic sources While the dominant focus tends to rest on conflicts hostility and animosity in the pre modern age here the emphasis rests on communication with

its myriad of challenges and potentials for establishing a community As the various studies illustrate a close reading of communicative issues opens profound perspectives regarding human relationships and hence the social context This understanding invites intensive collaboration between medical historians literary scholars translation experts and specialists on religious conflicts and discourses We also learn how much language carries tremendous cultural and social meaning and determines in a most sensitive manner the interactions among people in a communicative and community based fashion
