Hidden Lives Duncan Green, 1998-01-01 On Third World streets or First World televisions Latin America's children are
seen but seldom listened to Child labourers street children and shanty town kids are portrayed in the West as helpless
victims passive big eyed and hungry besieged by poverty and violence However this text argues that if you talk to the

children themselves a different picture emerges one of children as active energetic and resourceful fighters struggling to improve their lives get an education and earn a living The book explores the lives of children through their own eyes and voices It argues that child participation is both a right and a necessity if child centred social programmes are to succeed More broadly harnessing the energy of children could help the region tackle pressing environmental and social problems Duncan Green talks to children across the continent watching them at work and play on the streets or in the home He interviews children in Brazil Jamaica Peru Columbia Honduras and Nicaragua as well as teachers welfare workers and other adults involved in their lives He provides comprehensive background research to support his findings while photographs illustrate the text The Philadelphia Album and Ladies' Literary Port Folio ,1831 **Hidden Oregon** Maria
