

The illustration depicts two House Finches perched on a light brown, textured branch. The bird in the upper left is shown in profile, facing left, with its head slightly turned. It has a prominent reddish-brown crest, a black throat and face, and a body of warm brown. Its wings show grey and black feathers with a distinct yellow stripe. The bird in the lower right is also in profile, facing right, with similar plumage. It is perched lower on the branch, and a small cluster of red berries is visible near its feet. Several other clusters of red berries are scattered along the branch and in the background. The overall style is a detailed acrylic painting with soft shading and visible brushstrokes.
