Yo' Mama, Mary Mack, and Boudreaux and Thibodeaux Jeanne Pitre Soileau, 2016-12-14 Winner of the 2018 Chicago Folklore Prize and Winner of the 2018 Opie Prize Jeanne Soileau a teacher in New Orleans and south Louisiana for more than forty years examines how children's folklore especially among African Americans has changed From the tumult of integration to the present her experience afforded unique opportunities to observe children as they played With integration in New Orleans during the 1960s Soileau notes how children began to play with one another almost immediately Children taught each other play routines chants jokes jump rope rhymes cheers taunts and teases all the folk games that happen in normal play on the street and playground When adults the judges and attorneys the parents and the politicians haggled and shouted children began to hold hands in a circle fall down together to Ring

around the Rosie and tease each other in new and creative ways Children's ability to adapt can be seen not only in their response to social change but in how they adopt and utilize pop culture and technology Vast technological changes in the last third of the twentieth century influenced the way children sang danced played and interacted Soileau catalogs these changes and studies how games evolve and transform as much as they are preserved She includes several topics of study oral narratives and songs jokes and tales and teasing formulae gleaned from mostly African American sources Because much of the field work took place on public school playgrounds this body of oral narratives remains of particular interest to teachers folklorists linguists and those who study play In the end Soileau shows that despite the restrictions of air conditioning shorter recess periods ever increasing hours of television watching the growing popularity of video games and carefully scripted after school activities many children in south Louisiana sustain traditional games At the same time they invent varied and clever new ones As Soileau observes children strive through their folk play to learn how to fit into a rapidly changing society

Women and Migration Deborah Willis, Ellyn Toscano, Kalia Brooks Nelson, 2019-03-08 The essays in this book chart how women's profound and turbulent experiences of migration have been articulated in writing photography art and film As a whole the volume gives an impression of a wide range of migratory events from women's perspectives covering the Caribbean Diaspora refugees and slavery through the various lenses of politics and war love and family The contributors which include academics and artists offer both personal and critical points of view on the artistic and historical repositories of these experiences Selfies motherhood violence and Hollywood all feature in this substantial treasure trove of women's joy and suffering disaster and delight place memory and identity This collection appeals to artists and scholars of the humanities particularly within the social sciences though there is much to recommend it to creatives seeking inspiration or counsel on the issue of migratory experiences

REJECTED: How the Media Excluded Alternative Candidates in the 2008

Primary Michael Soha, 2008-09-15 In the 2008 Presidential primary three largely unknown candidates emerged to challenge the status quo and call for major reform in Washington Dennis Kucinich and Mike Gravel on the Democratic side and Ron Paul on the Republican side This book focuses on their experience in trying to run for president against a political media institution that neither valued nor wanted their presence Using their experience as a case study the power and influence of our media in shaping what choices we face on election day is examined As a critique this text stands to indict the mainstream press for failing to provide a diverse group of candidates and in turn severely truncating our democratic process

The American Robot Dustin A. Abnet, 2020-03-27 Although they entered the world as pure science fiction robots are now very much a fact of everyday life Whether a space age cyborg a chess playing automaton or simply the smartphone in our pocket robots have long been a symbol of the fraught and fearful relationship between ourselves and our creations Though we tend to think of them as products of twentieth century technology the word robot itself dates to only 1921 as a concept they have colored US society and culture for far longer as Dustin A Abnet shows to dazzling effect in The American Robot In tracing the

history of the idea of robots in US culture Abnet draws on intellectual history religion literature film and television He explores how robots and their many kin have not only conceptually connected but literally embodied some of the most critical questions in modern culture He also investigates how the discourse around robots has reinforced social and economic inequalities as well as fantasies of mass domination chilling thoughts that the recent increase in job automation has done little to quell The American Robot argues that the deep history of robots has abetted both the literal replacement of humans by machines and the figurative transformation of humans into machines connecting advances in technology and capitalism to individual and societal change Look beneath the fears that fracture our society Abnet tells us and you re likely to find a robot lurking there
