Alcoholism A Brief History Treatments Recovery:

Broadening the Base of Treatment for Alcohol Problems Institute of Medicine, Committee on Treatment of Alcohol Problems, 1990-02-01 In this congressionally mandated study an expert committee of the Institute of Medicine takes a close look at where treatment for people with alcohol problems seems to be headed and provides its best advice on how to get there Careful consideration is given to how the creative growth of treatment can best be encouraged while keeping costs within reasonable limits Particular attention is devoted to the importance of developing therapeutic approaches that are sensitive to the special needs of the many diverse groups represented among those who have developed problems related to their use of man's oldest friend and oldest enemy This book is the most comprehensive examination of alcohol treatment to date

Research on Alcoholics Anonymous and Spirituality in Addiction Recovery Marc Galanter, Lee Anne Kaskutas, 2008-12-05 It was once taken for granted that peer assisted groups such as Alcoholics Anonymous had no real value in recovery from addiction More recently evidence based medicine is recognizing a spiritual component in healing especially when it comes to addiction The newest edition of *Recent Developments in Alcoholism* reflects this change by focusing on the 12 step model of recovery as well as mindfulness meditation and other spiritually oriented activity More than thirty contributors bring together historical background research findings and clinical wisdom to analyze the compatibility of professional treatment and nonprofessional support day to day concepts of relapse prevention the value of community building in recovery and much more Among the topics covered 1 How and why 12 step groups work 2 The impact of the spiritual on mainstream treatment 3 The impact of AA on other nonprofessional recovery programs 4 AA outcomes for special populations 5 Facilitating involvement in 12 step programs 6 Methods for measuring religiousness and spirituality in alcohol research Whether one is referring clients to 12 step programs or seeking to better understand the process this is a unique resource for clinicians and social workers Developmental psychologists too will find Volume 18 *Research on Alcoholics Anonymous and Spirituality in Addiction Recovery* a worthy successor to the series *Family Interventions in Substance Abuse* Oliver Morgan, Cheryl Lizke, 2013-09-13 Leading clinicians discuss the latest evidence based approaches to working with families that have an addicted or substance abusing member *Family Intervention in Substance Abuse Current Best Practices* gathers together in one easy to read volume the most effective family based clinical approaches to work with families and the difficult issues of substance abuse The field's most respected and best known clinicians discuss the latest interventions that prove most effective and how to easily integrate them into clinical practice This unique text is ideal for clinical trainers and professors working with students in the addictions and family therapy fields *Family Intervention in Substance Abuse Current Best Practices* provides students practicing professionals and educators with a range of clinical strategies from engaging resistant substance abusers into treatment to therapy from a systemic viewpoint to relapse prevention This essential text comprehensively discusses nine of the most current and evidence based approaches to working

with families that have an addicted or substance abusing member Each chapter contains basic theoretical descriptions case applications practical points for implementation reviews of the outcome studies and extensive bibliographies Topics discussed in Family Intervention in Substance Abuse Current Best Practices include Family systems interventions Motivational Interviewing stages of family recovery from addiction integration of clinical work with Twelve Step programs strategies for engaging reluctant alcohol and other drug abusers working with adolescent alcohol and other drug abusers behavioral couples work for alcoholism and drug abuse and more Family Intervention in Substance Abuse Current Best Practices is an invaluable resource for students counselors social workers addiction specialists marriage and family therapists psychologists psychiatrists and professors and trainers in the fields of addiction and family therapy Treatment and Rehabilitation of the Chronic Alcoholic Benjamin Kissin,2012-12-06 The present volume contains a large variety of treatment approaches to the long term rehabilitation of the alcoholic ranging from the biological to the physiological to the psychological to the social The multiplicity of proposed therapies each of which has its strong proponents suggests that alcoholism is either a complex medical social disease syndrome requiring a multipronged treatment approach or a very simple illness for which we have not yet discovered the remedy The latter may indeed be true but we cannot use what we do not know and must use what we do know We do however have the obligation to be responsible in our treatment to provide the best that is known at this time and to be discriminating in our prescription of appropriate treatment for individual patients If there is one conclusion we would like to offer in our preface it is that alcoholics constitute a markedly heterogeneous population with widely disparate needs for whom at least at our present level of knowledge a broad spectrum of treatment modalities is necessary If this is true then probably most of this book has validity With this volume on the treatment and rehabilitation of the chronic alcoholic we bring to completion our five volume series The Biology of Alcoholism As the title of the present volume indicates we have departed from our original intention to deal solely with biological aspects of the syndrome and have attempted rather to produce a more comprehensive work **Substance Abuse Treatment** Sylvia I. Understanding the Alcoholic's Mind : The Nature of Craving and How to Control It Arnold M. Ludwig Evalyn A. Edwards Professor of Psychiatry University of Kentucky School of Medicine, 1987-11-26

Despite the immense obstacles they face many alcoholics do manage to recover The question is how In this groundbreaking book a doctor with over 25 years experience working with alcoholics gets inside their minds and explains the behaviors and thought processes they use to get sober and stay sober In most instances Arnold Ludwig has found that a lasting recovery can only begin after certain crucial attitude changes Regardless of the motivation of alcoholics powerful forces lure them back to drink To remain sober alcoholics must recognize these forces and the dangerous frame of mind that fuels them Then they must use a variety of techniques that have been demonstrated to be effective for resisting temptation particularly during the early phases of recovery In time individuals will need to develop a set of attitudes values and behaviors which the author describes in detail that perpetuate and strengthen their sobriety Being sober is far more than simply not drinking it is a new way of life Over the years the author has worked with over 1000 alcoholics from all walks of life and within many different settings hospital clinics Alcoholics Anonymous meetings detoxification centers and private homes about one fourth of whom had quit drinking for significant periods of time Incorporating the findings of other researchers into his own and including many clinical vignettes and personal anecdotes he explores the basic principles necessary for achieving a successful recovery Ludwig has especially concerned himself with the nature of alcoholic craving and loss of control and describes the techniques that can help individuals to conquer their urges and also to lessen the chances of relapse This book does not use the word treatment Instead it talks about what is really at the heart of the matter sobriety and how to achieve it It will give new hope

and insight not only to the recovering alcoholic but also to their families counselors and doctors
