philosophical traditions that fed his thought were those of the wider world in which he lived Stroumsa demonstrates that he was deeply influenced not only by Islamic philosophy but by Islamic culture as a whole evidence of which she finds in his philosophy as well as his correspondence and legal and scientific writings She begins with a concise biography of Maimonides then carefully examines key aspects of his thought including his approach to religion and the complex world of theology and religious ideas he encountered among Jews Christians Muslims and even heretics his views about science the immense and unacknowledged impact of the Almohads on his thought and his vision of human perfection This insightful cultural biography restores Maimonides to his rightful place among medieval philosophers and affirms his central relevance to the study of medieval Islam

An Islamic Philosophy of Virtuous Religions Joshua Parens, 2012-02-01 Joshua Parens provides an introduction to the thought of Alfarabi a tenth century Muslim political philosopher whose writings are particularly relevant today Parens focuses on Alfarabi's Attainment of Happiness in which he envisions the kind of government and religion needed to fulfill Islam's ambition of universal acceptance Parens argues that Alfarabi seeks to temper the hopes of Muslims and other believers that one homogeneous religion might befit the entire world and counsels acceptance of the possibility of a multiplicity of virtuous religions Much of Alfarabi's approach is built upon Plato's Republic which Parens also examines in order to provide the necessary background for a proper understanding of Alfarabi's thought
