Morality and the Law in British Detective and Spy Fiction, 1880-1920 Kate Morrison, 2020-05-08 Who decides what is right or wrong ethical or immoral just or unjust In the world of crime and spy fiction between 1880 and 1920 the boundaries of the law were blurred and justice called into question humanity's moral code As fictional detectives mutated into spies near the turn of the century the waning influence of morality on decision making signaled a shift in behavior from idealistic principles towards a pragmatic outlook taken in the national interest Taking a fresh approach to Sir Arthur Conan Doyle's popular protagonist Sherlock Holmes this book examines how Holmes and his rival maverick literary detectives and spies manipulated the law to deliver a fairer form of justice than that ordained by parliament Multidisciplinary this work views detective fiction through the lenses of law moral philosophy and history and incorporates issues of gender equality and race By studying popular publications of the time it provides a glimpse into public attitudes towards crime and morality and how those shifting opinions helped reconstruct the hero in a new image

Jewishness and Beyond Miklós Konrád, 2024-08-06 Throughout the nineteenth century Hungary's government steadily

dismantled obstacles that kept its rapidly expanding Jewish communities from enjoying the full benefits of citizenship. The state's concerted efforts to Magyarize Jews promoted Hungarian language culture and sensibilities but did not officially require Jews to abandon their faith. Nevertheless, tens of thousands of Hungarian Jews converted to Christianity during this era, with conversion rates continuing to rise even as Judaism gained full legal equality. Jewishness and Beyond addresses the apparent contradiction between these two trends. Despite the egalitarian promises and laws of Hungary's liberal nationalist government, the administration and traditional elites as a whole maintained a persistent bias against Jews that spurred particularly high conversion rates among the community's upper echelons. While Christians never forgot converted Jews' origins and increasingly thought of them in racialized terms, they also valued and generally rewarded conversion and the symbolic gesture of baptism. Conversion was an uneven and ever-shifting process in which gender and occupation played key roles, and where the actual percentage of converts within the total Hungarian Jewish population contrasted sharply with both Christian and Jewish perceptions of its frequency and spread. Jewishness and Beyond, which can be read as an introduction to the identity dilemmas of Hungarian Jews in the age of emancipation, reveals the motivations and strategies behind the conversions of Hungarian Jews, the complex reactions within and outside of their communities, and converts' own grappling with conversion's expected and unforeseen outcomes.

Long Before Stonewall Thomas A. Foster, 2007-07-01 2007 Choice Outstanding Academic Title Although the 1969 Stonewall riots in New York City symbolically mark the start of the gay rights movement, individuals came together long before the modern era to express their same-sex romantic and sexual attraction toward one another and in a myriad of ways. Some reflected on their desires in quiet solitude, while others endured verbal, physical, and legal harassment for publicly expressing homosexual interest through words or actions. Long Before Stonewall seeks to uncover the many iterations of same-sex desire in colonial America and the early Republic, as well as to expand the scope of how we define and recognize homosocial behavior. Thomas A. Foster has assembled a pathbreaking interdisciplinary collection of original and classic essays that explore topics ranging from homoerotic imagery of black men to prison reform to the development of sexual orientations. This collection spans a regional and temporal breadth that stretches from the colonial Southwest to Quaker communities in New England. It also includes a challenge to commonly accepted understandings of the Native American berdache. Throughout, connections of race, class, status, and gender are emphasized, exposing the deep foundations on which modern sexual, political, movements, and identities are built.

The Women's Camp in Moringen Gabriele Herz, 2006 The Nazi regime opened its first concentration camps within weeks of coming to power, but with the exception of Dachau, the history of these early improvised camps and their inmates is not yet widely known. Gabriele Herz's memoir, published for the first time, is a unique record of a Jewish woman's detention in the first women's concentration camp in Moringen, housed in part of an old established workhouse at a time when most other inmates were communists or Jehovah's Witnesses. This original translation of her wry and perceptive memoir is accompanied by an extensive introduction that sets

Herz's experience in the history both of political detention under the Nazi regime and of the German workhouse system
 Publisher's website **Sydney and Its Waterway in Australian Literary Modernism** Meg Brayshaw, 2021-02-01 This book examines literary representations of Sydney and its waterway in the context of Australian modernism and modernity in the interwar period. Then as now Sydney Harbour is both an ecological wonder and laden with economic, cultural, historical and aesthetic significance for the city by its shores. In Australia's earliest canon of urban fiction, writers including Christina Stead, Dymphna Cusack, Eleanor Dark, Kylie Tennant and M. Barnard Eldershaw explore the myth and the reality of the city built on water. Mapping Sydney via its watery and littoral places, these writers trace impacts of empire, commercial capitalism, global trade and technology on the city while drawing on estuarine logics of flow and blockage, circulation and sedimentation to innovate modes of writing temporally, geographically and aesthetically specific to Sydney's provincial modernity. Contributing to the growing field of oceanic or aqueous studies, *Sydney and its Waterway and Australian Modernism* shows the capacity of water and human-water relations to make both generative and disruptive contributions to urban topography and narrative topology. **Unity**, 1882 **Westminster and Foreign Quarterly Review**, 1872 *The Westminster Review*, 1872 **Lippincott's Monthly Magazine**, 1883 **Lippincott's Magazine**, 1883 *Internal Revenue Acts of the United States, 1909-1950* Bernard D. Reams (Jr.), 1979
