Greece Carol G. Thomas,2014-11-10 *Greece A Short History of a Long Story* presents a comprehensive overview of the history of Greece by exploring the continuity of Greek culture from its Neolithic origins to the modern era Tells the story of Greece through individual personalities that inhabited various periods in the lengthy sweep of Greek history Uses an approach based on recent research that includes DNA analysis and analyses of archaeological materials Explores ways in which the nature of Greek culture was continually reshaped over time Features illustrations that portray the people of different eras in Greek history along with maps that demonstrate the physical sphere of Greece and major events in each of the periods The Politics of Ancient Israel Norman Karol Gottwald,2001-01-01 This work offers a reconstruction of the politics of ancient Israel within the wider political environment of the ancient Near East Gottwald begins by questioning the

view of some biblical scholars that the primary factor influencing Israel's political evolution was its religion *Symbol, Service, and Song* J. Nathan Clayton, 2021-11-09 In the Old Testament the Levites stand as key ministry leaders for the worship of the people of God from their origins with Moses and the tabernacle to their service at the Jerusalem temple to their roles in the postexilic period This study proposes a multidimensional reading of the texts centered on the Levites in the Davidic narratives of 1 Chronicles 10-29 From a literary point of view the notion that the Levites are closely associated with the symbol of God's presence is explored From a historical perspective the roles of the Levites in expanding the service to God and his people is examined And from a theological perspective the means by which the Levites facilitate the song of God's people is studied Overall this work seeks to defend the idea that these texts contribute significantly to the rhetorical argumentation the historiographic method and the biblical theological meaning of the canonical books of Chronicles generally and of the Davidic narratives of 1 Chronicles 10-29 specifically as they emphasize the central role played by proper Levitical worship leadership at the time of David and during the challenging situation of the Chronicler's Yehudite postexilic audience

Alexander Guy Maclean Rogers, 2005-10-11 For nearly two and a half millennia Alexander the Great has loomed over history as a legend and an enigma Wounded repeatedly but always triumphant in battle he conquered most of the known world only to die mysteriously at the age of thirty-two In his day he was revered as a god in our day he has been reviled as a mass murderer a tyrant as brutal as Stalin or Hitler Who was the man behind the mask of power Why did Alexander embark on an unprecedented program of global domination What accounted for his astonishing success on the battlefield In this luminous new biography the esteemed classical scholar and historian Guy MacLean Rogers sifts through thousands of years of history and myth to uncover the truth about this complex ambiguous genius Ascending to the throne of Macedonia after the assassination of his father King Philip II Alexander discovered while barely out of his teens that he had an extraordinary talent and a boundless appetite for military conquest A virtuoso of violence he was gifted with an uncanny ability to visualize how a battle would unfold coupled with devastating decisiveness in the field Granicus Issos Gaugamela Hydaspes as the victories mounted Alexander's passion for conquest expanded from cities to countries to continents When Persia the greatest empire of his day fell before him he marched at once on India intending to add it to his holdings As Rogers shows Alexander's military prowess only heightened his exuberant sexuality Though his taste for multiple

partners both male and female was tolerated Alexander's relatively enlightened treatment of women was nothing short of revolutionary He outlawed rape he placed intelligent women in positions of authority and he chose his wives from among the peoples he conquered Indeed as Rogers argues Alexander's fascination with Persian culture customs and sexual practices may have led to his downfall perhaps even to his death Alexander emerges as a charismatic and surprisingly modern figure neither a messiah nor a genocidal butcher but one of the most imaginative and daring military tacticians of all time Balanced and authoritative this brilliant portrait brings Alexander to life as a man without diminishing the power of the legend

Your Spiritual Lineage: Researching the Genealogy of Your Soul William Bray, 2006-10-30 Your Spiritual Lineage Researching the Genealogy of Your Soul Pioneering a New Understanding of the Origins of Personality Development Traditional psychology proposes that personality development begins at birth Instead this new study proposes that each of us has subconscious memories of past lives that form a much earlier origin A child prodigy may be selectively remembering talents skills and accomplishments from a previous lifetime that he is building on early in this one We are drawn to professions we are familiar with because we've done them before and may choose places to live visit or vacation because they are pleasant and familiar to us from a past life walking on our own faded footprints without realizing it When one of his students in conversation began quoting poetry of Arthur Rimbaud without knowing it author William E Bray began exploring the possibility that his student might have been Rimbaud in a past lifetime Subsequent research led him to develop a lineage chart showing that the spiritual lineage of Rimbaud stretched back through Andre Breton Virgil and Alexander the Great He shows how the adventures of Aeneas would have been based on Virgil's subconscious memories of his own exploits when he would have been Alcibiades in a past life Each chapter leads the reader through an exciting search to discover the past lives of some of the world's most important figures The book is also written as a guide to help the reader learn how to research his own past lives

The History of Afghanistan Meredith L. Runion, 2017-04-24 This chronological account traces the history of Afghanistan from pre civilization to present day events and considers the future of democracy in Afghanistan For centuries Afghanistan has endured control by a gamut of political regimes as a result of its strategic location along the trade route between Asia and the Middle East The area has been at the center of constant conflict and only in recent years has recovered from the vestiges of warfare The second edition of this popular reference offers a fresh glimpse at the country showing modern Afghanistan to be a melting pot of cultures tribes and political influences all under the guiding belief of Islam In addition to thorough coverage of the country's political economic and cultural history the book provides students with an account of recent events in Afghanistan since 2007 such as the death of Osama bin Laden in Pakistan and the removal of NATO soldiers Other changes include a revised timeline an updated glossary additions to the notable figures appendix and an expanded bibliography that includes electronic resources
