

CYCLE WORLD TEST HONDA SHADOW 700

A CASE OF PREVENTIVE MEDICINE

Most any motorcyclist can't call a Honda Shadow 700 preventive medicine. Not when the 1990 Shadow 700 was unveiled as a commercially minded and robust model, Honda offered only one reason for all of the bike's changes: prevention. The '90 Shadow had been one of the most successful models in recent years, and Honda simply wanted to ensure that what was healthy stayed healthy.

And there was no question about the previous Shadow's excellent good health, as far as its domestic performance was concerned, at least. From its very introduction as 1983's 750, the particular light-blue-and-white 'V-Twin' not only became Honda's best-selling model, but America's best-selling motorcycle of any kind, period. Until last year, it had a gas displacement at the top of the sales charts by another model, Honda's own ultra-suspensive Rebel 250.

But, it wasn't the Rebel that

sparked the rebelling of the Shadow. It was a combination of the Honda Shadow and the Yamaha Virago. Parked next to either of these two, a 1989-1990 Shadow of 1983-1985 vintage looked positively lackluster. Where the Shadow shined off in sporting chrome and highly polished aluminum, the Shadow had only plastic and blacked paint. Where the Yamaha had a full tank and a multi-looking engine, the Shadow seemed like budget and Bikes.

So as a cosmetic makeover, Honda has given the '90 Shadow a new look. Not instead of going after the look, light and robust look of the Rebels, Honda went to work remodeling the Shadow to what is called the "big, long and low" image. And the bike is long, with an 81-inch wheelbase. It can measure paragon any other motorcycle made. And with a seat just 17 inches off the ground, the Shadow is low, as well.

That basic profile is nothing new.

1986 Honda Shadow 700 Manual
