writing a well thought out first draft script written to internationally acceptable standards Certificate in Video Production Professional Level CPA John Kimani, Dr. James Scott ,2023-07-02 Introduction to Video Production Pre Production Scriptwriting Camera Operation Lighting Sound Design Editing Post Production **Rewriting Television** Alison Peirse, 2025-01-14 Rewriting Television suggests that it is time for a radical overhaul of television studies If we don't want to merely recycle the same old methods approaches and tropes for another twenty years we need to consider major changes in why and how we do our work This book offers a new model for doing television or film or media studies that can be taken up around the world It synthesizes ideas from production studies screenwriting studies and the idea of writing otherwise to create a new way of studying television It presents an entirely original approach to working with practitioner interviews that has never been seen before in film television or media studies It then offers a series of original reflections on form story and voice and considers how these reflections could shape future writing in our discipline s Ultimately this is a book of ideas This book asks what if This book is an opportunity to imagine differently The Pleasures of Structure Julian Hoxter, 2015-02-26 The Pleasures of Structure starts from the premise that the ability to develop a well understood and articulated story structure is the most important skill a screenwriter can develop For example good structure requires a great premise and rigorous character development Without clear character motivations and goals which are themselves indicative of key structural beats your story is going exactly nowhere Using the simple and flexible W model of screenplay structure developed in the prequel Write What You Don't Know Hoxter sets this out as its starting point This model is tested against a range of examples which are chosen to explore the flexibility not only of that model but of movie storytelling more generally Writers and students often worry that they are asked to work to formula This book will test that formula to breaking point For example the first case study will offer the example of a well written professional mainstream movie against which our later and more adventurous examples can be compared So the lessons we learn examining the animated family adventure movie How To Train Your Dragon lead us directly to ask questions of our second case study the acclaimed Swedish vampire movie Let the Right One In Both movies have protagonists with the same basic problem the same goal and they use the same basic structure to tell their stories Of course they are very different films and they work on their audiences in very different ways Our linked case studies will expose how simple choices like reversing the order of elements of the protagonist's transformational arc and shifting ownership of key story beats has an enormous impact on how we respond to a structural model that is otherwise functionally identical **Hollywood Online** Ian London, 2024-03-07 Hollywood Online provides a historical account of motion picture websites from 1993 to 2008 and their marketing function as industrial advertisements for video and other media in the digital age The Blair Witch Project is the most important example of online film promotion in cinema history Over the last thirty years only a small number of major and independent distributors have converted internet created buzz into box office revenues with similar levels of success Yet readings of how the film's internet

campaign broke new ground in the summer of 1999 tend to minimize or overlook or ignore the significance of other online film promotions Similarly claims that Blair initiated a cycle of imitators have been repeated in film publications and academic studies for more than two decades This book challenges three major narratives in studies about online film marketing Hollywood's major studios and independents had no significant relationship to the internet in the 1990s online film promotions only took off after 1999 because of Blair and Hollywood cashed in by initiating a cycle of imitators and scaling up corporate activities online Hollywood Online tests these assumptions by exploring internet marketing up to and including the film's success online Pre Blair 1993-9 then by examining the period immediately after Blair Post Blair 2000-8 which broadly coincides with the rise and decline of DVD as well as the emergence of the social media sites MySpace Facebook and Twitter

McClean,2008-09-26 How digital visual effects in film can be used to support storytelling a guide for scriptwriters and students Computer generated effects are often blamed for bad Hollywood movies Yet when a critic complains that technology swamps storytelling in a review of Van Helsing calling it an example of everything that is wrong with Hollywood computer generated effects movies it says more about the weakness of the story than the strength of the technology In Digital Storytelling Shilo McClean shows how digital visual effects can be a tool of storytelling in film adding narrative power as do sound color and experimental camera angles other innovative film technologies that were once criticized for being distractions from the story It is time she says to rethink the function of digital visual effects Effects artists say contrary to the critics that effects always derive from story Digital effects are a part of production not post production they are becoming part of the story development process Digital Storytelling is grounded in filmmaking the scriptwriting process in particular McClean considers crucial questions about digital visual effects whether they undermine classical storytelling structure if they always call attention to themselves whether their use is limited to certain genres and looks at contemporary films including a chapter long analysis of Steven Spielberg s use of computer generated effects and contemporary film theory to find the answers McClean argues that to consider digital visual effects as simply contributing the wow factor underestimates them They are she writes the legitimate inheritors of film storycraft
