Americans and paints a portrait of New England life that is at once dark witty and revealing *The Spaces of Violence*

James Giles, 2006-04-09 Probes the interrelationship of violence and space in 10 contemporary American novels James R Giles examines 10 novels for the unique ways they explore violence and space as interrelated phenomena These texts are Russell Banks's Affliction Cormac McCarthy's Outer Dark and Child of God Lewis Nordan's Wolf Whistle Dorothy Allison's Bastard

Out of Carolina Don DeLillo's End Zone Denis Johnson's Angels Sherman Alexie's Indian Killer Robert Stone's Dog Soldiers and Bret Easton Ellis's American Psycho These stories take place in settings as diverse as small towns college campuses suburbs the brokerage houses and luxury apartments of Wall Street football stadiums Appalachian hills and America's no man's land of Greyhound bus stations and highways Violence Giles finds is mythological and ritual in many of these novels whereas it is treated as systemic and naturalistic in others Giles locates each of the novels he studies on a continuum from the mythological to the naturalistic and argues that they represent a fourthspace at the margins of physical social and psychological space a territory at the cultural borders of the mainstream These textual spaces are so saturated with violence that they suggest little or no potential for change and affirmation and are as degraded as the physical social and mental spaces out of which they emerge A concluding chapter extends the focus of *The Spaces of Violence* to texts by Jane Smiley Toni Morrison Edwidge Danticat and Chuck Palahniuk who treat the destructive effects of violence on family structures

The Contemporary American Short-Story Cycle James Nagel, 2004-04-01 James Nagel offers the first systematic history and definition of the short story cycle as exemplified in contemporary American fiction bringing attention to the format's wide appeal among various ethnic groups He examines in detail eight recent manifestations of the genre all praised by critics while uniformly misidentified as novels Nagel proposes that the short story cycle with its concentric as opposed to linear plot development possibilities lends itself particularly well to exploring themes of ethnic assimilation which mirror some of the major issues facing American society today

Cracker Ingenuity P. T. Elliott, E. M. Lowry, 2025-09-23 Wondering what to do with all those oil drums in your yard Does a lack of funds inspire you to race lawnmowers instead of cars or enter cow chip tossing contests instead of bridge tournaments Ever invite friends over for a fancy dinner only to realize that you're flat broke and fresh out of groceries Look no further P T Elliott and E M Lowry's *Cracker Ingenuity* is the ultimate guide to making something out of nothing a testament to the universal truth that there's more to life than money Herein you'll find the recipes instructions anecdotes and advice of the masters who have managed not only to get by on hardly a dime but to have a great time while doing so from monster truck rallies to state fairs and from high rise trailer parks to four star troats trailer boats

Sum of the Parts Kent C Ryden, 2011-04-01 Proponents of the new regional history understand that regional identities are constructed and contested multifarious and not monolithic that they involve questions of dominance and power and that their nature is inherently political In this lively new book writing in the

spirit of these understandings Kent Ryden engagingly examines works of American regional writing to show us how literary partisans of place create and recreate attack and defend argue over and dramatize the meaning and identity of their regions in the pages of their books Cleverly drawing upon mathematical models that complement his ideas and focusing on both classic and contemporary literary regionalists Ryden demonstrates that regionalism in the cultural sense retains a great deal of power as a framework for literary interpretation For New England he examines such writers as Robert Frost and Hayden Carruth Mary E Wilkins Freeman and Edith Wharton and Carolyn Chute and Russell Banks to demonstrate that today's regionalists inspire closer more democratic readings of life and landscape For the West and South he describes Wallace Stegner's and William Faulkner's use of region to respectively exclude and evade or confront and indict For the Midwest he focuses on C J Hribal William Least Heat Moon Paul Gruchow and others to demonstrate that midwesterners continually construct the past anew from the materials at hand filling the seemingly empty midlands with history and significance Ryden reveals that there are many Wests many New Englands many Souths and many Midwesterns all raising similar issues about the cultural politics of region and place Writing with appealing freshness and a sense of adventure he shows us that place and the stories that emerge from and define place can be a source of subversive energy that blunts the homogenizing force of region inscribing marginal places and people back onto the imaginative surface of the landscape when we read it on a place by place landscape by landscape book by book basis

Where the New World is Martyn Bone, 2018 Assesses how fiction published since 1980 resituated the U S South globally and how earlier twentieth century writing already had done so in ways traditional southern literary studies tended to ignore Bone argues that this fiction has challenged understandings of the South as a fixed place largely untouched by immigration and globalization

Another Tale to Tell Fred Pfeil, 1990-05-17 Through his work as a fiction writer critic and activist Fred Pfeil has sought to extend the progressive possibilities within contemporary American culture Idiosyncratic and provocative Another Tale to Tell moves from evaluations of politically engaged texts and practices such as Hans Haacke's deconstructive artwork Chester Himes Harlem police thrillers cyberpunk and the feminist science fiction of Octavia Butler to considerations of the history dynamics and potential of postmodern culture Pfeil's work on postmodernity is distinct from the spate of their works on the subject in its insistence on the social base of postmodern practices within today's professional

managerial class and in his endeavour both to use and to criticize Marxist feminist psychoanalytic and poststructuralist thought in order to illuminate our present political impasses and openings From his audacious reading of the film *River s Edge* as the terminus of the vexed history of bourgeois narrative and his analysis of Reaganite oedipality in *Back to the Future* to his unsettling meditation on the poststructuralist paradise embodied in contemporary SF Pfeil sorts through a welter of contemporary cultural texts and practices for the glimmerings of a postmodern narrative and politics that may truly be another tale to tell
