A Good Investment? Amy Brown,2015-11-15 Select students and teachers worked the room at a fundraising event for a New York City public high school Amy Brown calls College Preparatory Academy It was their job to convince wealthy attendants that College Prep with its largely minority and disadvantaged student body and its unusually high rate of graduation and college acceptance was a worthy investment To this end students and teachers tried to seem needy and deserving hoping to make supporters feel generous important and not threatened How much Brown asks does competition for financing in urban public schools depend on marketing and perpetuating poverty in order to thrive And are the actors in this drama deliberately playing up stereotypes of race and class A Good Investment offers a firsthand look behind the scenes of the philanthropic approach to funding public education a process in which social change in education policy and practice is aligned with social entrepreneurship The appearance of success equity or justice in education Brown argues might actually serve to maintain stark inequalities and inhibit democracy Her book shows that models of corporate or philanthropic charity in education can in fact reinforce the race and class hierarchies that they purport to alleviate As their voices reveal the teachers and students on the receiving end of such a system can be critically conscious and ambivalent participants in a school s racialized marketing and image management Timely and provocative this nuanced work exposes the unintended consequences of an education marketplace where charity masquerades as justice

Brooklyn Fictions James Peacock,2016-08-25 Vast and diverse Brooklyn is often portrayed in literature as a place of traditional community values and face to face relations distinct from anonymous capital driven Manhattan Brooklyn Fictions discovers what such representations of the New York borough can teach us about diversity and the individual the local and the global Combining analysis of popular texts such as Sister Souljah s The Coldest Winter Ever with more canonical novels such as Jonathan Lethem s The Fortress of Solitude this study draws on the work of a variety of theorists on community and globalization and uses Brooklyn as a case study for an exploration of the complex relationship between romantic ideals of community and global economic forces With cites often depicted as sites of conflict and fear this is a crucial contribution to our understanding of the contemporary urban community and the ethical issues involved in conceptualizing and portraying it in literature
