## **Tumbledown By Robert Boswell:**

**Tumbledown** Robert Boswell, 2013-08-06 Robert Boswell's first novel since *Century's Son* showcases once again his dazzling technical skill, intelligence, and moral seriousness. *The New York Times Book Review*, *A Library Journal*, *Best Indie Fiction of 2013*. At age thirty-three, James Candler seems to be well on the road to success. He's in line for a big promotion at Onyx Springs, the treatment facility where he's a therapist. He has a fiancée, a sizable house, and a Porsche. But he's falling in love with another woman, he's underwater on his mortgage, and he's put his hapless best friend in charge of his signature therapeutic program. Even the GPS on his car can't seem to predict where he should turn next. And his clients are struggling in their own hilarious, heartbreaking ways to keep their lives on track. How can he help them if he can't help himself? In *Tumbledown*, Robert Boswell presents a large, unforgettable cast of characters who are all failing and succeeding in various degrees to make sense of our often irrational world. In a moving narrative twist, he boldly reckons with the extent to which tragedy can be undone, the impossible accommodated.

**Who Says?** Lisa Zeidner, 2021-02-09 A thorough, illuminating, and entertaining guide to crafting point of view, a fiction writer's most essential choice. Who is telling the story to whom is the single most important question about any work of fiction; the answer is central to everything from style and tone to plot and pacing. Using hundreds of examples from Jane Austen to Chimamanda Ngozi Adichie, Leo Tolstoy to Stephen King, novelist and longtime MFA professor Lisa Zeidner dives deep into the points of view we are most familiar with—first and third person—and moves beyond to second person narration, frame tales, and even animal points of view. Engaging and accessible, *Who Says* presents any practicing writer with a new system for choosing a point of view, experimenting with how it determines the narrative, and applying these ideas to revision.

*The Answer to the Riddle Is Me* David Stuart MacLean, 2014-01-14 A deeply moving account of amnesia that reminds us how we are all always trying to find a version of ourselves that we can live with. *Los Angeles Times*. On October 17, 2002, David MacLean woke up on a train platform in India with no idea who he was or why he was there. No money. No passport. No identity. Taken to a mental hospital by the police, MacLean then started to hallucinate so severely he had to be tied down. He could remember song lyrics but not his family, his friends, or the woman he was told he loved. The illness, it turned out, was the result of a commonly prescribed antimalarial medication he had been taking. Upon his return to the United States, he struggled to piece together the fragments of his former life. In this mesmerizing, unsettling memoir about the ever-echoing nature of identity, written in vivid, blooming detail, he tells the harrowing, absurd, and unforgettable story of his journey back to himself. Gillian Flynn, author of *Gone Girl*. MacLean is an exceedingly entertaining psychotic. A raw, honest, and beautiful memoir. *The New York Times*. If bad things are going to happen, we are lucky when they happen to someone with the wit, humanity, and sweetness to say nothing of an eye for detail and a gift for pacing that MacLean brings to this wrenching tale. Readers who flip open the book will find MacLean preserved between pages, goofy and serious, lost and found. *Chicago Tribune*. MacLean writes eloquently about the bizarre and

disturbing experience of having his sense of self erased and then reconstructed from scratch *The New Yorker* **The Missouri Review**, 2014 *Play Among Books* Miro Roman, Alice\_ch3n81, 2021-12-06 How does coding change the way we think about architecture This question opens up an important research perspective In this book Miro Roman and his AI Alice\_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books Focusing on the intersection of information technology and architectural formulation the authors create an evolving intellectual reflection on digital architecture and computer science *A Tightly Raveled Mind* Diane Lawson, 2014-10-27 Diane Lawson's amazing insight into the mysteries and witchcraft of psychoanalysis combined with her extraordinary writing skills makes this a one of a kind novel that I found impossible to put down Abraham Verghese author of *Cutting for Stone* Sigmund Freud would have liked Dr Nora Goodman a sexy forty something psychoanalyst with her handful of neurotic patients who can't seem to allow themselves happiness love or success She's not exactly a steady customer herself born to a ranting bipolar Talmudic scholar and a mother with a heart as cold as a slaughterhouse on the Kansas prairie in January But now she has two kids and an overbearing psychiatrist husband She hates him She hates his insular social world Nora wants a new life sans husband but what she gets is something terribly different It starts one Monday morning when her eight o'clock patient blows himself to smithereens The following week another patient dies The police see the first as an accident the second a straightforward suicide Nora thinks her practice is being targeted by a killer She hires private investigator Mike Ruiz a tightly wound ex cop who couldn't care less for Sigmund Oh Freud Mike says Isn't he dead Freud is always watching while the unlikely pair struggle to an unexpected end Diane Lawson was born and raised in La Russell Missouri population 128 She did her undergraduate studies at the University of Missouri her psychiatric residency at Michael Reese Hospital in Chicago and her psychoanalytic training at the Institute for Psychoanalysis also in Chicago She has two children and lives and practices in San Antonio Texas *Where Blackbirds Fly* Shann Ray, 2025 *Where Blackbirds Fly* offers the American West a journey into the human heart through fierce narratives of intimacy both lovely and heartbreaking Countering social upheavals Ray affirms the power of empathy the wisdom of wilderness and the transcendent presence of divine mystery **Big Lonesome** Joseph Scapellato, 2017-02-28 An inventive ranging debut story collection from a writer hailed by Charles Yu as a stunningly original voice warm bleak dark ecstatic full of silences and power and life Reinventing a great American tradition through an absurdist discerning eye Joseph Scapellato uses these twenty five stories to conjure worlds themes and characters who are at once unquestionably familiar and undeniably strange *Big Lonesome* navigates through the American West from the Old West to the modern day West to the Midwest from cowboys to mythical creatures to everything in between exploring place myth masculinity and what it means to be whole or to be broken Though he works in the tradition of George Saunders and Patrick deWitt writing subversive surreal
