Disciple Lucy Peppiatt,2012-10-12 In *The Disciple* Lucy Peppiatt addresses the question of what it means to become like Jesus in the context of our everyday lives Through the gifts of the Word and the Spirit our communities and our circumstances in life God forms us into the likeness of his Son and leads us into a life of freedom in relationship with the Father where we experience what it means to become truly and fully human *The Disciple* brings together theological depth stories from Scripture and examples from everyday life to paint a picture of the dynamic work of God in our lives and how we might respond to his work so that we are brought into the richness and reality of the life of the kingdom Following Jesus means being apprenticed and schooled in the ways of freedom and the fullness of life *The Disciple* combines theology and practice including suggestions of how to respond in practical ways as individuals and in our communities to the calling of God on our lives to follow him *Revisioning Christology* Oliver D. Crisp,2016-04-08 Constructive contemporary theology

requires serious engagement with the theologians of the past This book offers a series of studies in the Christology of key representatives in the Reformed tradition engaging their thought for contemporary dogmatics Thinkers from each of the five centuries in which Reformed theology has flourished are represented John Calvin John Owen Jonathan Edwards William Shedd Donald Baillie and Kathryn Tanner each of whom in different ways challenge conventional accounts of Christology The book is organized thematically linking historic and contemporary discussions of Christology in theology and philosophy by engaging the thinking of these theologians in a collegial way using their work as means of promoting constructive systematic theology today Oliver Crisp presents an important contribution to broadening our understanding of Reformed theology by showing how important theologians have taken views often at odds with textbook accounts of the tradition Written in an accessible style this book will appeal to a wide range of readers including upper level undergraduates graduate students and scholars of Christian theology philosophy and religious studies *A Brief Theology of Revelation* Colin E.

Gunton,2005-07-15 Professor Gunton asks whether there is more to be said for the motion of Christianity as a revealed religion than some of the more simplified recent treatments allow He analyses the concept of revelation illustrating its importance for understanding even beyond religious purposes He contends that natural theology and natural revelation are distinct categories and examines why they are so often confused He considers revelation in relation to scripture and tradition and the nature of inspiration **John Owen, Richard Baxter and the Formation of Nonconformity** Tim

Cooper,2016-05-06 John Owen 1616 1683 and Richard Baxter 1615 1691 were both pivotal figures in shaping the nonconformist landscape of Restoration England Yet despite having much in common they found themselves taking opposite sides in several important debates and their relationship was marked by acute strain and mutual dislike By comparing and

contrasting the parallel careers of these two men this book not only distils the essence of their differing theology it also offers a broader understanding of the formation of English nonconformity Placing these two figures in the context of earlier events experience and differences it argues that Restoration nonconformity was hampered by their strained personal relationship which had its roots in their contrasting experiences of the English Civil War This study thus contributes to historiography that explores the continuities across seventeenth century England rather than seeing a divide at 1660 It illustrates the way in which personality and experience shaped the development of wider movements

A Heavenly Directory Ryan M. McGraw, 2014-06-18 There is a growing body of historical literature on the importance of John Owen Ryan M McGraw seeks to reassess Owen's theology in light of the way in which he connected his trinitarian piety to his views of public worship McGraw argues that Owen's teaching on communion with God as triune was the foundation of his views of public worship and that he regarded public worship as the highest expression of communion with the triune God These themes not only highlight Owen's context as a Reformed orthodox theologian but the distinctive influence of English Puritanism on his theological emphases The connection between his practical trinitarianism and public worship runs through the course of his writings and every major area of his theology These include the nature of theology the knowledge of God the doctrine of the Trinity public worship spiritual affections apostasy covenant theology ecclesiology and Christology This work treats these themes in Owen's thought and shows how they intersect and are intertwined with the Trinity and public worship In addition this book provides a detailed exposition of the parts of Reformed worship While other works have treated the centrality of his trinitarianism in his theology few have acknowledged the importance of public worship in his thinking This research concludes that communion with God in public worship was integral to Owen's practical trinitarian theology

Postmodernism and the Ethics of Theological Knowledge Justin Thacker, 2016-04-08 This book establishes the necessary integration of theological knowledge with theological ethics It does this as a response to the postmodern critique of Christianity as exemplified in Rorty and Lyotard They argue that any claim to know God is necessarily tyrannical

Contemporary responses to such postmodern thinking often fail to address adequately the ethical critique that is made. This book redresses that balance by suggesting that our knowledge of God and love of the Other are so intimately connected that we cannot have one without the other. In the absence of love then we simply do not know God. Justin Thacker proposes that an effective theological response to postmodernity must address both knowledge and ethics in an integrated fashion as presented in this book. *Problem and Promise in Colin E. Gunton's Doctrine of Creation* William B. Whitney, 2013-07-04

While much dialogue has focused on aspects of Colin Gunton's Trinitarian theology, there has been a need for a full scale study of Gunton's doctrine of creation that locates the significance of his understanding of creation within the wider spectrum of his theology. *Problem and Promise* demonstrates how Gunton's doctrine of creation cannot be read in abstraction from his Trinitarian theology and argues that creation remains a central feature in Gunton's writing that holds lasting importance for understanding ethical and moral aspects of Gunton's theology. William B. Whitney establishes how this Trinitarian account of creation goes beyond offering a theological description of the created realm and also provides the basis for understanding human involvement in creation through the enterprises of culture. *From Trocchi to Trainspotting - Scottish Critical Theory Since 1960* Michael Gardiner, 2006-07-04

This book charts the course of Scottish Critical Theory since the 1960s. It provocatively argues that French critical theoretical ideas have developed in tandem with Scottish writing during this period. Its themes can be read as a breakdown in Scottish Enlightenment thinking after empire, precisely the process which permitted the rise of theory. The book places within a wider theoretical context writers such as Muriel Spark, Edwin Morgan, Ian Hamilton Finlay, James Kelman, Alexander Trocchi, Janice Galloway, Alan Warner and Irvine Welsh as well as more recent work by Alan Riach and Pat Kane who can be seen to take the post-Enlightenment narrative forward. In doing so, it draws on the work of the Scottish thinkers John Macmurray and R. D. Laing as well as the continental philosophers Gilles Deleuze and Paul Virilio.
