Folktales Retold Amie A. Doughty, 2015-03-14 Folktales and fairy tales are living stories as part of the oral tradition they change and evolve as they are retold from generation to generation In the last thirty years however revision has become an art form of its own with tales intentionally revised to achieve humorous effect send political messages add different cultural or regional elements try out new narrative voices and more These revisions take all forms from short stories to novel length narratives to poems plays musicals films and advertisements The resulting tales paint the tales from myriad perspectives using the broad palette of human creativity This study examines folktale revisions from many angles drawing on examples primarily from revisions of Western European traditional tales such as those of the Grimm Brothers and Charles Perrault Also discussed are new folktales that combine traditional storylines with commentary on modern life The conclusion considers how revisionists poke fun at and struggle to understand stories that sometimes made little sense to start with

Postmodern Picturebooks

Lawrence R. Sipe, Sylvia Pantaleo, 2010-04-26 Over the past 15 years there has been a pronounced trend toward a particular type of picturebook that many would label postmodern. Postmodern picturebooks have stretched our conventional notion of what constitutes a picturebook as well as what it means to be an engaged reader of these texts. The international researchers and scholars included in this compelling collection of work critically examine and discuss postmodern picturebooks and reflect upon their unique contributions to both the field of children's literature and to the development of new literacies for child, adolescent and adult readers.

Talking Beyond the Page Janet Evans, 2020-10-28 Talking Beyond the Page shows how different kinds of picturebooks can be used with children of all ages and highlights the positive educational gains to be made from reading, sharing, talking and writing about picturebooks. With contributions from some of the world's leading experts, chapters in this book consider how children think about and respond to visual images and other aspects of picturebooks; children's responses can be qualitatively improved by encouraging them to think and talk about picturebooks before, during and after reading them; the non-text features of picturebooks when considered in their own right can help readers to make more sense out of the book; different kinds of picturebooks such as wordless, postmodern, multimodal and graphic novels are structured so children can respond creatively to picturebooks as art forms; picturebooks can help children deal with complex issues in their lives. Talking beyond the Page also includes an exclusive interview with Anthony Browne who shares thoughts about his work as an author-illustrator. This inspiring and thought-provoking book is essential reading for teachers, student teachers, literacy consultants, academics interested in picturebook research and those organising and teaching on teacher education courses in children's literature and literacy.

This text provides a comprehensive introduction to children's and young adult literature in EFL teaching. It demonstrates the complexity of children's literature and how it can encourage an active community of second language readers with multilayered picturebooks, fairy tales, graphic novels and radical young adult fiction. It examines the opportunities of children's literature in EFL teacher education including the intertextuality of children's literature as a gate opener for canonised adult literature, the rich patterning of children's literature supporting Creative Writing, the potential of interactive drama projects.
