Buy Now Emily West, 2022-02-22 How Amazon combined branding and relationship marketing with massive distribution infrastructure to become the ultimate service brand in the digital economy Amazon is ubiquitous in our daily lives we stream movies and television on Amazon Prime Video converse with Alexa receive messages on our smartphone about the progress of our latest orders In *Buy Now* Emily West examines Amazon s consumer facing services to investigate how Amazon as a brand grew so quickly and inserted itself into so many aspects of our lives even as it faded into the background becoming a sort of infrastructure that can be taken for granted Amazon promotes the comfort and care of its customers but not its workers to become the ultimate service brand in the digital economy West shows how Amazon has cultivated personalized intimate relationships with consumers that normalize

its outsized influence on our selves and our communities She describes the brand s focus on speedy and seamless ecommerce delivery represented in the materiality of the branded brown box the positioning of its book retailing media streaming and smart speakers as services rather than sales and the brand s image control strategies West considers why pushback against Amazon s ubiquity and market power has come mainly from among Amazon s workers rather than its customers or competitors arguing that Amazon s brand logic fragments consumers as a political bloc West s innovative account the first to examine Amazon from a critical media studies perspective offers a cautionary cultural study of bigness in today s economy

humanities who focus their work on understanding the polyphonic evolution of the United States landscape. It simultaneously assesses the development of the US landscape as well as the scholarly thought that has driven innovation and continued research about that landscape. Four broad sections focus on key areas of scholarship: environmental landscapes, social, cultural, and popular identities in the landscape, political landscapes, and urban economic landscapes. A special essay, *American Landscapes Under Siege*, and accompanying short case studies call attention to the legacies and realities of race in the American landscape, bridging the discussion of social and political landscapes. This companion offers an invaluable and up-to-date guide for scholars and graduate students to current thinking across the range of disciplines which converge in the study of place, including Geography, Cultural Studies, and History, as well as the interdisciplinary fields of American Studies, Environmental Studies, and Planning.

Care-Centered Politics Robert Gottlieb, 2022-08-02. Why a care economy and care-centered politics can influence and reorient such issues as health, the environment, climate, race, inequality, gender, and immigration. This agenda-setting book presents a framework for creating a more just and equitable care-centered world. Climate change, pandemic events, systemic racism, and deep inequalities have all underscored the centrality of care in our lives. Yet care work is for the most part undervalued and exploited. In this book, Robert Gottlieb examines how a care economy and care politics can influence and remake health, climate, and environmental policy, as well as the institutions and practices of daily life. He shows how, through this care-centered politics, we can build an ethics of care and a society of cooperation, sharing, and solidarity. Arguing that care is a form of labor, Gottlieb expands the ways we think about home care, child care, elder care, and other care relationships. He links them to the Green New Deal, Medicare for All, immigration, and the militarization of daily life. He also provides perspective on the events of 2020 and 2021, including the COVID-19 pandemic, climate change, and movements calling attention to racism and inequality as they relate to a care politics. Care, says Gottlieb, must be universal: whether healthcare for all, care for the earth, care at work, or care for the household, shared equally by men and women. Care-centered politics is about strategic and structural reforms that imply radical and revolutionary change. Gottlieb offers a practical, mindful yet also utopian politics of daily life.
