theatricality antitheatricality mimesis diegesis and performativity Ballet Class Melissa R. Klapper, 2020 A pathbreaking social history that takes seriously the experiences of the countless everyday people who pursued recreational ballet Ballet Class An American History explores the growth of this now quintessential extracurricular activity as it became an integral part of American childhood across borders of gender class race and sexuality Noel Streatfeild Nancy Lyman Huse, 1994 In this comprehensive analysis of a woman hailed by her fellow Britons as a National Monument Nancy Huse argues that Streatfeild's work challenges the status of girls' books described in most criticism as ephemeral or constituting a category separate from great books Huse attributes the appeal of Streatfeild's books to their contemporary themes and traditional values and finds that in exploring the tensions of heredity and environment Streatfeild anticipated many contemporary questions about the role of women the structure of the family and the implications of the class system In particular Huse notes Streatfeild in both her children's and adult novels used the poverty of women and their work in the domestic sphere to link the public with the private worlds shaping children Streatfeild's conservative upbringing rebellious youth and complex life long relationship with her family provided material for her novels according to Huse Streatfeild developed a conscious perspective on childhood that she used to defend child adult boundaries while sharpening story forms At the same time Huse contends her multifaceted talent admitted new subjects character types themes and information into the children's book because she assumed competence and intelligent curiosity as the basis of children's contributions to the family and to society In this vibrant portrait of the life and work of such an innovative children's writer Huse suggests some meaningful ways to evaluate the family novel the role of a children's novelist in preserving and constructing a historical record and the implications of formulaic patterns that derive from female experience **Christmas with the Chrystals & Other Stories** Noel Streatfeild, 2016-10-13 Christmas with the Chrystals is a gorgeous short story about how an influx of cheery young cousins at Christmas warms the heart of a haughty grandmother and lights up her chilly home This very special Yuletide story is accompanied by several Streatfeild Christmas extracts from her many children's novels including an almost never before seen sequel chapter to her bestseller Ballet Shoes There are also recollections of the author's own childhood Christmases taken from the Noel Streatfeild Christmas Holiday Book *The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950* George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *The Cambridge Guide to Women's Writing in English* Lorna Sage, 1999-09-30 This Guide aims to consolidate and

Wolfe,2019-06-10 This volume posits and explores an intermedial genre called theatre fiction understood in its broadest sense as referring to novels and stories that engage in concrete and sustained ways with theatre Though theatre has made star appearances in dozens of literary fictions including many by modern history s most influential authors no full length study has dedicated itself specifically to theatre fiction in fact there has not even been a recognized name for the phenomenon Focusing on Britain where most of the world s theatre novels have been produced and commencing in the late nineteenth century when theatre increasingly took on major roles in novels Theatre Fiction in Britain argues for the benefits of considering these works in relation to each other to a history of development and to the theatre of their time New modes of intermedial analysis are modelled through close studies of Henry James Somerset Maugham Virginia Woolf J B Priestley Ngaio Marsh Angela Carter and Doris Lessing all of whom were deeply involved in the theatre world as playwrights directors reviewers and theorists Drawing as much on theatre scholarship as on literary theory Theatre Fiction in Britain presents theatre fiction as one of the past century s most vital means of exploring reconsidering and bringing forth theatre s potentials
