Twenty Prose Poems By Charles Baudelaire:

Twenty Prose Poems Charles Baudelaire,1968 From the introduction by Michael Hamburger Baudelaire s prose poems were written at long intervals during the last twelve or thirteen years of his life The prose poem was a medium much suited to his habits and character Being pre eminently a moralist he needed a medium that enabled him to illustrate a moral insight as briefly and vividly as possible Being an artist and sensualist he needed a medium that was epigrammatic or aphoristic but allowed him scope for fantasy and for that element of suggestiveness which he considered essential to beauty His thinking about society and politics as about everything else was experimental like the thinking of most poets it drew on experience and imagination rather than on facts and general arguments That is another reason why the prose poem proved a medium so congenial to Baudelaire

Twenty Prose Poems of Baudelaire. Translated with an Introduction by Michael Hamburger Charles Pierre BAUDELAIRE, Michael Hamburger, 1946

Prose Poetry and the City Donna Stonecipher, 2017-11-20 In this fascinating book Donna Stonecipher doubles down on the development of prose poetry and the city Tactically her sweeping complex yet meticulous essay engages Baudelaire's sudden or is it sudden incursion from the constraints of verse into the roominess of prose paragraphs of place while linking civic horizontality and corporate verticality Tracking possibilities in using everything from architecture to landscape to cookbooks finally like her essay exuberantly and expertly gathers together rhizomatic threads of thinkers and poets of the last two centuries Reads like a song Norma Cole This fascinating exploration of the prose poem begins with a question that most other studies have overlooked or taken for granted What if anything do cities and prose poetry have to do with each other Donna Stonecipher's touchstone for this question is Charles Baudelaire's prose poems in *Le Spleen de Paris* but her excavation of the relationship between the built environment of prose poem and city moves backwards to ancient Greece and forwards to the new sentence As Stonecipher unpacks the dialogic space of the prose poem her essay moves vertically and horizontally providing histories of the skyscraper and the aesthetics and ethics of vertical ascension and much else As she moves nimbly through large swaths of intellectual architectural urban and aesthetic history Stonecipher engages debates central to poetics and to modernity itself taking seriously the challenge of considering how aesthetic forms register respond to and transform their built social and historical environments An indispensable and enlightening guide that is also a pleasure to read Susan Rosenbaum

American Hybrid Poetics Amy Moorman Robbins, 2014-07-21 American Hybrid Poetics explores the ways in which hybrid poetics a playful mixing of disparate formal and aesthetic strategies have been the driving force in the work of a historically and culturally diverse group of women poets who are part of a robust tradition in contesting the dominant cultural order Amy Moorman Robbins examines the ways in which five poets Gertrude Stein Laura Mullen Alice Notley Harryette Mullen and Claudia Rankine use hybridity as an implicitly political strategy to interrupt mainstream American language literary genres and visual culture and expose the ways in which mass culture in the twentieth and twenty-first centuries has had a powerfully standardizing impact on the collective American imagination By forcing encounters between incompatible traditions consumer culture with the avant-garde low culture forms with experimental poetics prose poetry with linguistic subversiveness these poets bring together radically competing ideologies and highlight their implications for lived experience Robbins argues that it is precisely because these poets have mixed forms that their work has gone largely unnoticed by leading members and critics in experimental poetry circles

John Donne and Contemporary Poetry Judith Scherer Herz, 2017-09-18 This collection of poems and essays by both poets and scholars explores how John Donne's writing has entered into the language the imagination and the navigation of erotic and spiritual desires and experiences of twentieth and twenty-first century writers The chapters chart a winding path from a description of the Donne and Contemporary Poetry

Project at Fordham University to an encounter with the Holy Sonnets to a set of modern holy sonnets and then through the work of a poet who used Donne's Devotions on Emergent Occasions to chart his own dying. There are further poems on sickness and recovery, an essay on Donne and disease that brings in the work of an Australian poet, and several chapters of poems with various Donnean echoes. Of the final four chapters, one places Donne in relation to another poet and one to the Psalms, followed by two chapters on Donne's speech figures and his poetics.

The Oxford Guide to Literature in English Translation Peter France, 2000. Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures, many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part, consists of entries grouped by language of origin; some are devoted to individual texts, e.g. the Thousand and One Nights, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and translators.

The Poems and Prose Poems of Charles Baudelaire Charles Baudelaire, 1919. Baudelaire is one of the major innovators in French literature. His poetry is influenced by the French romantic poets of the earlier 19th century, although its attention to the formal features of verse connects it more closely to the work of the contemporary Parnassians. As for theme and tone, in his works we see the rejection of the belief in the supremacy of nature and the fundamental goodness of man, as typically espoused by the romantics, and expressed by them in rhetorical effusiveness and public voice in favor of a new urban sensibility, an awareness of individual moral complexity, an interest in vice linked with decadence, and refined sensual and aesthetical pleasures, and the use of urban subject matter such as the city, the crowd, individual passers-by, all expressed in highly ordered verse, sometimes through a cynical and ironic voice. Formally, the use of sound to create atmosphere and of symbols, images which take on an expanded function within the poem, betray a move towards considering the poem as a self-referential object, an idea further developed by the Symbolists, Verlaine, and
