Criminal Major Case Management Larry Wilson,2012-03-23 In high profile investigations when the suspect pool is very large resources are unduly strained unless the pool can be narrowed down to the most likely offenders The Persons of Interest Priority Assessment Tool POIPAT provides an objective and consistent means of establishing a priority ranking of suspects or persons of interest in any investigation Created and used correctly the tool can determine if any suspect POI should be considered a high medium or low investigative priority saving time and resources and potentially saving additional victims Criminal Major Case Management Persons of Interest Priority

Assessment Tool POIPAT describes how to set up a POIPAT system for any investigation where there are numerous POIs and limited resources Using the unsolved Jack the Ripper mystery as a sample case study it walks readers through the steps of creating and using the POIPAT system The book begins by providing an overview of offender profiling and the basic considerations for developing elements for a POIPAT It explains the Element Weighting Chart EWC and discusses how many points each element should be weighted based on its level of importance The author describes how to determine what point totals constitute a high medium or low priority so that police managers can know how best to direct their resources He also discusses tracking how POIs are eliminated through an elimination coding system thereby avoiding potential duplication and allowing investigators to hone in on the person most likely to have committed the crime Finally the book uses the POIPAT system to draw conclusions about some of the best known suspects who were most likely to have been the real Jack the Ripper Seeing how the technique is used in a real case investigators will discover how to effectively create unique POIPATs for their own cases The downloadable resources contain a template that can be modified for any type of investigation and a number of additional tools and guides

Jack the Ripper: The Hand of a Woman John Morris, 2012-03-26 The Jack the Ripper murders of 1888 continue to exert a macabre hold on our imagination Among the first serial murders their brutality and bizarreness and the seeming impossibility of detection have a terrible fascination What kind of person could have performed such horrific deeds and could have overstepped the boundary of what marks humankind How could they not have been caught by the unprecedented police effort The murders were reported on around the world and the murderer was the first to be given a macabre nickname He has been the subject of hundreds of books and several films but his identity remains a mystery Suspects have included the

eminent Victorian doctor Sir William Gull royal gynecologist Sir John Williams and the painter Walter Sickert Conspiracy theories abound involving Masonic Jewish and other connections This is the story of the extensive research of John Morris and his late father Starting with the many unresolved questions about the murders they shockingly concluded that they could be answered if Jack was in reality a woman not a man But who could she be After many twists and turns they reach an all too plausible conclusion
