Border Witness Michael Dear, 2023-02-21. What a century of border films teaches about the real and imagined worlds of the US Mexico borderlands and how this understanding helps build better relations across boundaries. *Border Witness* is an account of cultural collision and fusion between Mexico and the United States as seen on the ground and in films from the past hundred years. Blending film studies with political and cultural geography, Michael Dear investigates the making of cross border identity and community in the territories between two nations. *Border Witness* introduces a new border film genre just now entering its golden age. A geographer and activist, Dear adopts an accessible and engaged perspective combining the stories told by these films with insights drawn from his own decades long research and travel. From early silent films to virtual reality and from revolution to the present global crisis, border films provide fresh evidence for real and imagined politics and for envisioning future transborder architectures carved from in between spaces. In an era of global geopolitics that favors walls and war over diplomacy, Dear's insights have relevance for borders around the world.

Carlos Slim Diego Osorno, 2019-09-24. Can one of the richest men in the world be a good person? The rich are not like us. Great wealth brings both power and immunity, a pairing that opens a yawning moral abyss at the feet of the world's billionaires. Carlos Slim is one of eight people whose combined wealth equals that of the 3.6 billion people who make up the poorest half of humanity. A businessman who dominates telecoms and global real estate and a major shareholder of the New York Times, Slim exerts a degree of power in Mexico unmatched by any politician. The biography of Carlos Slim, one of the richest people of all time, is a case study in the ethical and psychological effects of extraordinary wealth. Not just the tale of the first man from a developing country ever to reach the top of the Forbes list of billionaires, it presents a living embodiment of the financial mentality of our time: a man who mistrusts politicians and believes the market to be the answer to everything, even corruption. In short, Slim's story is that of Latin America's last half century and indeed the wider world. After years of thorough investigation, Diego Osorno has produced an extraordinary portrait.
