and experiences in which we all recognize ourselves The book goes on to reflect on how we may be failing really to love and to be encouraged to hope that love might keep breaking out in us through us despite us *LEARNING TO LOVE* JENNY. MAKEPEACE,2023 **Learning to Love** Eileen Caddy,David Earl Platts,2018-11-06 An insightful guide for consciously bringing compassion and love into your life Explores feelings attitudes beliefs and past experiences that block us from loving and receiving love Includes deceptively simple yet profound exercises meditations and visualizations to support the exploration of your inner world Explains how these principles and techniques originated in Roberto Assagioli s system of psychosynthesis enriched by the Findhorn experience of living in community Every person is born with the capacity to love Over time however many of us have built barriers within ourselves as a reaction to painful experiences and following these we often develop fears beliefs and behaviors that keep these barriers firmly in place The primary lesson in life is to learn to love and this starts right on our doorstep Often it is self doubt and feelings of unworthiness that hold us back from experiencing all the love around us Only when we start to love and accept ourselves with all that we are can we love others freely and fully Learning to love requires an intention to change and a willingness to take action Once we understand how to work with our doubts and fears and learn how to change our beliefs and behavior our barriers will melt away and we spontaneously open up to connect deeply and harmoniously with the full flow of the river of life In this simple yet insightful guide Eileen Caddy and David Earl Platts detail the down to earth practicalities of exploring feelings attitudes beliefs and past experiences that block us from loving and from receiving love They show how bringing more love into our lives is not a mystery but often a journey back to ourselves and our core values The authors examine the feelings of acceptance trust forgiveness respect opening up and taking risks among others within a framework of compassionate understanding and non judgment Deceptively simple yet profound exercises meditations and visualizations support the reader in examining their inner world and implementing these vital concepts into their lives The teachings in the book are based on popular workshops that Eileen co founder of the Findhorn Foundation Community and David facilitated for years in and outside Findhorn Many of the underlying principles and techniques originate in the system of psychosynthesis devised by Roberto Assagioli Learning to Love invites you to make a free and informed choice to bring more love into your life and then helps you implement this choice step by step with confidence and joy Learning to Love, Etc. (Second Revised Edition.). Alan Henry Bell INGLEBY,1962 **Learning to Love** Ruth McKeever-Scott,2016 **Learning to Love** Rosemary Hammond,1993 *I Will Learn to Love You..* ,2015 **Learning to Love** Rodney J. Ferris,2010-12 This book is a resource for the spiritual journey and opening the heart It takes the reader from an image embedded in prehistory of how life can exist and be lived inside of love Being inside of love is like being in an inner landscape of your true spirit a spiritscape In other words we are all pure love speaking spiritually From that beginning image some key elements of planetary and human history are sketched out leading to the left brained world of today where we find love and peace mostly in lip service dreams and myth rather than

in reality This is the dysfunctional insane world we inhabit today where war and poverty are endemic and hope is an ephemeral delusion To address the gap between myth and reality ten steps are needed to arouse your right brained capacity for sacred seeing which enables and excites the birth of an ability to sense the love in your spiritscape and to embody it in the real world The process that unfolds is a transformation into an intuitive and synchronistic way of being that you can choose if you have the courage for personal healing This book goes beyond mere information and invites the reader to enter within their heart where love is seeking to manifest The process awakens your natural leadership capacity as stress is released Insane living may have you bound up but the ten steps proposed are simple yet profound If you are sick of the way things are if you are willing to look inside that world and breathe peace in your soul and if you want to make a lasting contribution to the salvation of the earth and its humanity this book is for you The author contends you can choose to live life in your heart and be in peace by so doing This process leads you naturally to want to contribute to creating love and peace in our world

Walk in Love Susan L. Cady, 2014-10-08 What does it mean to walk in love What does this love walk look like in our daily lives How do we accomplish this when life is hard and people are not always easy How will you choose to respond when life and people make loving others hard demanding and frustrating Learn to love others better as we study through the famous love passage found in 1 Corinthians 13 We ll be comparing this with the mutuality commands found throughout the New Testament the one anothers

**Knowing Love** Feng Yue, 2016-02-20 Love is ever present in our lives Whether we are seeking love in love running from love or just trying to understand it it is a significant force in the lives of us all Yet despite the way it dominates our very existence love is still one of the least understood aspects of life Although many of us believe that we cannot live without love we seem to know very little about it We can t explain what love is can t seem to acquire love when we need it and we rarely live in a constant state of love This book will share a discovery with you that will help you to understand love to experience love create love help people around you to love and help you to learn to create a life filled with love Throughout this book we will be looking at all aspects of love how it has been defined how it can be seen as the source of great sadness or immense happiness and how understanding one of the most common yet significant human phenomena can lead you to a life of happiness and contentment There are many skills we are not born with but have learnt in life When we learn to drive type on the keyboard or perform a martial art when we become competent these things eventually become our second nature They become a natural part of us The purpose of learning about love is just like learning any other skill Love is a way of looking at the world We all have our own default way of looking at the world but this doesn t maximize our experience of love and it can t help us to realise our full potential Love helps us to look at ourselves as a whole it helps us to understand ourselves as well as others holistically This never changes because it is the true nature of everything around us When we can see life through love we not only experience love we also become healthier more productive creative and effective in everything we do When it becomes the natural way for us to look at ourselves others and the world we only need

to be who we are and the way we are even consciously to experience love success and happiness in our lives The stress of life disappears because nothing is more relaxing than being the way we are In order to train ourselves to adapt to a way the love look at the world we have to learn to be aware of many of what our instincts tell us It can be hard work But love is the way it is the only way for us to experience the freedom we dream of to give the people we love the lives they deserve and be the protector and guardians of every creation of love on this earth In this book I want to take you on a journey towards living a life of love It will be a journey of discovery from examining concepts of love through to understanding a way of being that will transform your life Through this book you will not only come to understand love you will also feel like you truly know its personality its nature and how it works You will feel that love is a close friend that you truly know and have grown up with With love as a friend you will be able to feel what love feels you will start to see many of the misunderstandings and wrong perceptions people have towards love and as a close friend you can then begin to enjoy the presence of love in your life You will learn how to live and grow with love transforming your life and the loves of those around you     **Learn to Love** Una Lacey,1949     *Learning to Love in 27 Days* Norman R. Wise,2010-08-16 The most difficult task we have in our lives is to love Love is the difference between success and failure If we live a life of love we are a success If we do not live a life of love we are a failure The reality is we don't live in such a black and white world We live in a life of grey Sometimes we love and are successful Sometimes we do not love and fail Never is our love perfect We know only substantial and partial success at loving Yet it is our duty and desire to love and love well One of the most felt needs of our lives is to love and be loved This book is a devotional meditation on Romans 12 9 21 which is a passage which outlines how we are to love God and other people The passage has 27 challenges on learning to love These are organized so that you can use them as a spiritual process to help you grow in your ability to love
