Les Choses By Georges Perec:

Les choses Georges Perec, 1969 Story of a young French couple and their quest for material happiness A portrayal of French social conditions in the 1960s Georges Perec Paul Schwartz, 1988 *Things: a Story of the Sixties with a Man Asleep* Georges Perec, 2011 A story of a young couple who want to enjoy life but the only way they know how to do so is through ownership of things **French XX Bibliography** William J. Thompson, 2006-09 Provides a listing available of books articles and book reviews concerned with French literature since 1885 This work is a reference source in the study of modern French literature and culture The bibliography is divided into three major divisions general studies author subjects arranged alphabetically and cinema *Fast Cars, Clean Bodies* Kristin Ross, 1996-02-28 Fast Cars Clean Bodies examines the crucial decade from Dien Bien Phu to the mid 1960s when France shifted rapidly from an agrarian insular and empire oriented society to a decolonized Americanized and fully industrial one In this analysis of a startling cultural transformation Kristin Ross finds the contradictions of the period embedded in its various commodities and cultural artifacts automobiles washing machines women s magazines film popular fiction even structuralism as well as in the practices that shape determine and delimit their uses In each of the book s four chapters a central object of mythical image is refracted across a range of discursive and material spaces social and private textual and cinematic national and international The automobile the new cult of cleanliness in the capital and the colonies the waning of Sartre and de Beauvoir as the couple of national attention and the emergence of reshaped functionalist masculinities revolutionary corporate and structural become the key elements in this prehistory of postmodernism in France Modernization ideology Ross argues offered the promise of limitless even timeless development By situating the rise of end of history ideologies within the context of France s transition into mass culture and consumption Ross returns the touted timelessness of modernization to history She shows how the realist fiction and film of the period as well as the work of social theorists such as Barthes Lefebvre and Morin who began at the time to conceptualize everyday life laid bare the disruptions and the social costs of events And she argues that the logic of the racism prevalent in France today focused on the figure of the immigrant worker is itself the outcome of the French state s embrace of capitalist modernization ideology in the 1950s and 1960s **Original Copies in Georges Perec and Andy Warhol** Priya Wadhera, 2016-11-28 Priya Wadhera s Original Copies in Georges Perec and Andy Warhol is the first book to explore striking similarities between the works of these celebrated figures of the twentieth century Copies abound in Perec s *uvre* where pastiches paintings and intertexts dialogue with the history of copying in the past and present in literature and in art Both here and in Warhol s works the source of the copies is difficult to pinpoint shrouded in a fog linked to death This remarkable parallel provides insight into their widely admired works and a postmodern aesthetic where the original is stripped of its value and the copy reigns supreme In this study of the original and the copy Wadhera illuminates the nature of art itself Georges Perec's Geographies Charles Forsdick, Andrew Leak, Richard Phillips , 2019-10-14 Georges Perec

novelist filmmaker and essayist was one of the most inventive and original writers of the twentieth century A fascinating aspect of his work is its intrinsically geographical nature With major projects on space and place Perec s writing speaks to a variety of geographical urban and architectural concerns both in a substantive way including a focus on cities streets homes and apartments and in a methodological way experimenting with methods of urban exploration and observation classification enumeration and taxonomy Georges Perec s Geographies is the first book to offer a rounded picture of Perec s geographical interests Divided into two parts Part I Perec s Geographies explores the geographies within Perec s work in film literature and radio from descriptions of streets to the spaces of his texts while Part II Perecquian Geographies explores geographies in a range of material and metaphorical forms including photographic essays soundscapes theatre dance and writing created by those directly inspired by Perec Georges Perec s Geographies extends the body of Perec criticism beyond Literary and French Studies to disciplines including Geography Urban Studies Planning and Architecture to offer a complete and systematic examination of Georges Perec s geographies The diversity of readings and approaches will be of interest not only to Perec readers and fans but to students and researchers across these subjects **Things** Georges Perec,2009-12-01

Things A Story of the Sixties I is the story of a young couple who want to enjoy life but the only way they know how to do so is through ownership of things Perec s first novel won the Prix Renaudot and became the cult book for a generation In **IA Man Asleep** I a young student embarks upon a disturbing and exhaustive pursuit of indifference following his experience in non existence with relentless logic Reinventions of the Novel Karen-Margrethe Simonsen,Marianne Ping Huang,Mads Rosendahl Thomsen,2004 The history of the novel is a story of perpetual change so that its identity still remains open to question The sixteen articles in this book investigate connections differences and similarities in the novel around the world for the past three hundred years Rather than searching for the essence of the genre they look for the formal and thematic patterns on which the novel thrives considering such matters as tradition and modernity realism rhetoric and identity tableau and spatiality and wondering whether epic and avant garde are not quite contradictory terms Close readings combined with historical overviews and theoretical discussions open up new constellations in the history of the novel Untraditional cross readings are made between Rabelais and Jens Peter Jacobsen and between Balzac and Nicholson Baker Transformations of traditional modes of epic biography and Bildung are traced as far as Georges Perec and Gunter Grass **The Politics of Play** Aubrey Gabel,2025-10-15 Showing the political importance of play in postwar French literature In postwar France authors approached writing ludically placing rules and conditions on language and on the context of composition itself They eliminated e s and feminized texts they traveled according to strict rules and invented outright silly public personas The Politics of Play Oulipo and the Legacy of French Literary Ludics is a comprehensive examination of how and why French authors turned to these ludic methods to grapple with their political moment These writers were responding to a range of historical upheavals from the rise and fall of French feminist and Third Worldist groups to the aftermath of international

socialism both at home in the former Parisian Belt and in France more broadly and abroad in post Yugoslavia Balkan states and elsewhere Juxtaposing an array of case studies and drawing on cross disciplinary methodologies Aubrey Gabel reads three generations of the formalist literary group Oulipo including Raymond Queneau Georges Perec and Jacques Jouet alongside writers not traditionally deemed ludic or sometimes not even conventionally known as novelists such as the lesbian activist writer Monique Wittig and the editor François Maspero Gabel argues that literary ludics serve as both an authorial strategy and a political form playful methods allow writers not only to represent history in code but also to intervene creatively as political actors in the fraught social fields of midcentury France and beyond

Mémoires du quotidien : les lieux de Perec Derek Schilling, 2006-02-09 Traquer l'infra ordinaire l'ordinaire l'exceptionnel et le spectaculaire questionner les vidences inscrites dans les modes d'emploi de l'existence commune puiser par petites choses espaces et lieux afin de constituer une archive l'usage des générations présentes et venir tel fut l'un des principaux programmes de recherche de Georges Perec 1936-1982 Si cette interrogation sociologique du quotidien répond un devoir de mémoire personnel elle trouve toute sa place en France dans l'histoire longue d'une pensée du quotidien qui va de Braudel et Lefebvre Blanchot et Certeau En se mettant l'écoute du bruit de fond sur lequel se détachent l'événement et l'Histoire l'écritain des Choses d'espaces d'espaces ou encore du projet inachevé Lieux fonde un mode de connaissance oblique qui unit une esthétique partagée entre le dépouillement et l'exces reste exemplaire de notre difficile sortie de la modernité

Things Georges Perec, 1990 Two trailblazing novels by Georges Perec Things Jerome and Sylvie the young upwardly mobile couple lust for the good life They wanted life's enjoyment but this equated to ownership A Man Asleep A nameless student attempts to purify himself entirely of material desires and ambitions

The System of Objects Jean Baudrillard, 2020-03-31 The System of Objects is a tour de force a theoretical letter in a bottle tossed into the ocean in 1968 which brilliantly communicates to us all the live ideas of the day Pressing Freudian and Saussurean categories into the service of a basically Marxist perspective The System of Objects offers a cultural critique of the commodity in consumer society Baudrillard classifies the everyday objects of the new technical order as functional nonfunctional and metafunctional He contrasts modern and traditional functional objects subjecting home furnishing and interior design to a celebrated semiological analysis His treatment of nonfunctional or marginal objects focuses on antiques and the psychology of collecting while the metafunctional category extends to the useless the aberrant and even the schizofunctional Finally Baudrillard deals at length with the implications of credit and advertising for the commodification of everyday life The System of Objects is a tour de force of the materialist semiotics of the early Baudrillard who emerges in retrospect as something of a lightning rod for all the live ideas of the day Bataille's political economy of expenditure and Mauss's theory of the gift Reisman's lonely crowd and the technological society of Jacques Ellul the structuralism of Roland Barthes in The System of Fashion Henri Lefebvre's work on the social construction of space and last but not least Guy Debord's situationist critique of the spectacle

The Facts on File Companion to the

French Novel Karen L. Taylor, 2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization

On Both Sides of the Tracks Morgane Cadieu, 2024-01-09 An analysis of social mobility in contemporary French literature that offers a new perspective on figures who move between social classes Social climbers have often been the core characters of novels Their position between traditional tiers in society makes them touchstones for any political and literary moment including our own Morgane Cadieu's study looks at a certain kind of social climber in contemporary French literature whom she calls the *parvenant* Taken from the French term *parvenu* which refers to one who is newly arrived a *parvenant* is a character who shuttles between social groups A *parvenant* may become part of a new social class but devises literary ways to come back constantly undoing any fixed idea of social affiliation Focusing on recent French novels and autobiographies *On Both Sides of the Tracks* speaks powerfully to issues of emancipation and class Cadieu offers a fresh critical look at tales of social mobility in the work of Annie Ernaux Kaoutar Harchi Michel Houellebecq douard Louis and Marie NDiaye among others shedding fascinating light on upward mobility today as a formal literary problem

Conventional and Original Metaphors in French Autobiography Madalina Akli, 2009 This book studies three autobiographies each of which is at least partially devoid of chronological structure Sartre's *The Words* Perec's *W* or *The Memory of Childhood* and Sarraute's *Childhood* Calendar based order traditionally associated with autobiography fails to provide the coherence the readers expect Hence readers must create a sense of coherence at another level by using their conceptual resources *Conventional and Original Metaphors in French Autobiography* reveals that in these literary texts coherence is maintained based on the exploitation of conventional metaphors taken from everyday language which the autobiographers transform in a creative yet familiar manner These common metaphors offer guidance to readers and establish coherence between the shared life experiences of reader and autobiographer In the course of reading the autobiographers and the readers' life experiences overlap through familiar metaphors which serve as organizational devices in writing and as guiding principles in reading

Constraining Chance Alison James, 2009-02-03 This text examines the representation and staging of chance in literature through the study of a specific case the work of the 20th century French writer Georges Perec 1936-82

Stuff Theory Maurizia Boscagli, 2014-03-27 A groundbreaking theory of materialism which reconsiders the role of stuff the small objects that clutter our lives as they crowd the pages of modern literature

Historicizing Theory Peter C. Herman, 2012-02-01 *Historicizing Theory* provides the first serious examination of contemporary theory in relation to the various twentieth century historical and political contexts out of which it emerged Theory a broad category that is often used to encompass theoretical approaches as varied as deconstruction New Historicism and postcolonialism has often been derided as a mere relic of the 1960s In order to move beyond such a simplistic

assessment the essays in this volume examine such important figures as Harold Bloom Paul de Man Jacques Derrida Michel Foucault Stephen Greenblatt and Edward Said situating their work in a variety of contexts inside and outside of the 1960s including World War II the Holocaust the Algerian civil war and the canon wars of the 1980s In bringing us face to face with the history of theory *Historicizing Theory* recuperates history for theory and asks us to confront some of the central issues and problems in literary studies today
