Libra By Don DeLillo:

The Cambridge Companion to Don DeLillo John N. Duvall, 2008-05-29 With the publication of his seminal novel *White Noise* Don DeLillo was elevated into the pantheon of great American writers His novels are admired and studied for their narrative technique political themes and their prophetic commentary on the cultural crises affecting contemporary America In an age dominated by the image DeLillo's fiction encourages the reader to think historically about such matters as the Cold War the assassination of President Kennedy threats to the environment and terrorism This Companion charts the shape of DeLillo's career his relation to twentieth century aesthetics and his major themes It also provides in depth assessments of his best known novels *White Noise* *Libra* and *Underworld* which have become required reading not only for students of American literature but for all interested in the history and the future of American culture Libra Don DeLillo, 2018-06-07 Think of two parallel lines One is the life of Lee H Oswald One is the conspiracy to kill the President What bridges the space between them What makes a connection inevitable There is a third line It comes out of dreams visions intuitions prayers out of the deepest levels of the self A troubled adolescent endlessly riding New York's subway cars Lee Harvey Oswald enters adulthood believing himself to be an agent of history This makes him fair game to a pair of discontented CIA operatives convinced that a failed attempt on the life of the US president will force the nation to tackle the threat of communism head on *Libra* is a gripping masterful blend of fact and fiction laying bare the wounded American psyche and the dark events that still torment it An audacious blend of fiction and fact *The Times* Literary Contexts in Novels, 2006 Libra. Don DeLillo Don DeLillo, 2011 Dealey Plaza Dallas Texas Friday November 22 1963 12 30 PM Shots ring out A president dies And a nation is plunged into psychosis Don DeLillo's extraordinary *Libra* is a brilliant reimagining of the events and people surrounding the assassination of President John F Kennedy Concentrating on the lives of Lee Harvey Oswald some rogue former spooks unhappy with Kennedy's presidency and Nicholas Branch a CIA archivist trying to make sense of or draw inferences from the mass of information after the assassination *Libra* presents an unapologetically provocative picture of America in the second half of the last century *Americana* Don DeLillo, 1989 Roman om Lee Harvey Oswalds liv fra teenager til den dag han myrder John F Kennedy **Libra** Don DeLillo, 2018-06 Dealey Plaza Dallas Texas Friday November 22 1963 12 30 PM Shots ring out A president dies And a nation is plunged into psychosis Don DeLillo's extraordinary *Libra* is a brilliant reimagining of the events and people surrounding the assassination of President John F Kennedy Concentrating on the lives of Lee Harvey Oswald some rogue former spooks unhappy with Kennedy's presidency and Nicholas Branch a CIA archivist trying to make sense of or draw inferences from the mass of information after the assassination *Libra* presents an unapologetically provocative picture of America in the second half of the last century **Incantations of the Sign** Warren Whitney, 1992 **Don DeLillo** David Cowart, 2012-08-15 Don DeLillo author of twelve novels and winner of the National Book Award the PEN Faulkner Award the William Dean Howells Medal and the Jerusalem Prize has begun to rival Thomas Pynchon as the

definitive postmodern novelist Always thought provoking and occasionally controversial DeLillo has become the voice of the bimillennial moment Charting DeLillo's emergence as a contemporary novelist of major stature David Cowart discusses each of DeLillo's twelve novels including his most recent work *The Body Artist* 2001 Rejecting the idea that DeLillo lacks affinities across the cultural spectrum Cowart argues that DeLillo's work invites comparison with that of wide range of antecedents including Dunbar Whitman Wittgenstein Heidegger Freud Lacan Derrida Hemingway Joyce Rilke and Eliot At the same time Cowart explores the ways in which DeLillo's art anticipates parallels and contests ideas that have become the common currency of poststructuralist theory The major site of DeLillo's engagement with postmodernism Cowart argues is language which DeLillo represents as more mysterious numinous even than current theory allows For DeLillo language remains what Cowart calls the ground of all making Don DeLillo *The Physics of Language* is a provocative investigation of the most compelling issues of contemporary fiction

The Hand of the Interpreter G. F. Mitrano, Eric Jarosinski, 2009 This collection of essays by scholars and artists of different disciplines and from different countries is designed to navigate the labyrinth of contemporary aesthetic ideologies with the aim of reassessing how we read both the way in which texts touch us and we them Theory has transformed texts into mute interlocutors exposed to infinite indeterminacy While the response to this sense of silence that undermines meaning is often informed by a nostalgia for older notions of close reading the essays in this volume work towards a re evaluation of key subjects such as reader writer and text The contributors engage with topics such as digital books popular culture alternative ways of book making visual verbal collaborations and thematic explorations of the hand in literature

Madness in Cold War America Alexander Dunst, 2016-08-19 This book tells the story of how madness came to play a prominent part in America's political and cultural debates It argues that metaphors of madness rise to unprecedented popularity amidst the domestic struggles of the early Cold War and become a pre eminent way of understanding the relationship between politics and culture in the United States In linking the individual psyche to society psychopathology contributes to issues central to post World War II society a dramatic extension of state power the fate of the individual in bureaucratic society the political function of emotions and the limits to admissible dissent Such vocabulary may accuse opponents of being crazy Yet at stake is a fundamental error of judgment for which madness provides welcome metaphors across US diplomacy and psychiatry social movements and criticism literature and film In the process major parties and whole historical eras literary movements and social groups are declared insane Reacting against violence at home and war abroad countercultural authors oppose a sane madness to irrational reason romanticizing the wisdom of the schizophrenic and paranoia's superior insight As the Sixties give way to a plurality of lifestyles an alternative vision arrives of a madness now become so widespread and ordinary that it may finally escape pathology

Libra Don DeLillo, 2009-02-27 The anti hero of *Libra* is Lee Harvey Oswald who is as hauntingly real in the book as he was elusive in reality Here he is as large and as small as life joining the marines poring over Marxist texts defecting to Russia handing out leaflets for the Fair

Play Cuba committee imagining himself as an agent of history That is until history presents itself in the form of two disgruntled CIA operatives who decide that an unsuccessful attempt on JFK's life one that could be linked to Fidel Castro is the only way to put Cuba back in geopolitical play and that Oswald would be the perfect instrument for their plans Praise for *Libra* One of the most ironic intelligent grimly funny voices to comment on life in present day America The New York Times *Libra* operates at a dizzyingly high level of intensity throughout it's that true fictional rarity a novel of admirable depth and relevance that's also a terrific page turner USA Today

The Future Belongs To Crowds: Media in Don DeLillo's *Libra*, *Mao II* and *White Noise* Jan Riepe, 2007-08-23 Thesis M A from the year 2006 in the subject American Studies Literature grade 2 0 University of Freiburg Englisch Seminar course Magisterprüfung language English abstract This paper analyzes the treatment of media in novels by Don DeLillo Key concepts in the study of media will be presented and explained in regard to how they are represented in DeLillo's novels The focus will be on the novels and not on the media after all this is a master's thesis in Literary and not in Communications Studies Media and media theory in our age of information capitalism are now more than ever before a topic that deserves close scholarly attention Media theorists agree that to study the media is to study one of the most important topics of the day and that such study should be compulsory part of every citizen's liberal education Fred Inglis *Media Theory An Introduction* Oxford Basil Blackwell 1990 p 6 Most people in their daily lives are permanently surrounded by media No matter if it is our entertainment information health knowledge memory identity dreams emotions or even our dying all have by now been incorporated by the media It is impossible to understand our acting and thinking without considering the influence of mediation The entire history of mankind is inseparable from media from language to the alphabet and the printing press all the way to today's instant electronic communication Every interpretation of anything is medially determined Arjen Mulder *Understanding Media Theory Language Image Sound Behavior* Rotterdam V2_Publishing NAI Publishers 2004 p 179 media are our means of understanding it is through them that we try to make sense of the world As this paper will show the mass media now have an enormous influence of both public and private life of Western culture in fact individuals as much as nations today formulate their agendas memories and identities in response to values and passions that are increasingly formed through mechanically reproduced images Lutz Koepnick *Walter Benjamin and the Aesthetics of Power* Lincoln London University of Nebraska Press 1999 p 213 Images and electronic media increase their cultural authority to the disadvantage of the print medium essentially it has been argued to the disadvantage of literature Yet this paper will show how the media are in turn incorporated into the contemporary American novel by Don DeLillo

Latent Destinies Patrick O'Donnell, 2000-10-27 Uses a discussion of contemporary films and literary works to present an understanding of paranoia as a defining element in postmodern late capitalist structure

Conspiracy Culture Dr Peter Knight, Peter Knight, 2013-04-15 Conspiracy theories are everywhere in post war American culture From postmodern novels to *The X Files* and from gangsta rap to feminist polemic there is a widespread suspicion that sinister

forces are conspiring to take control of our national destiny our minds and even our bodies Conspiracy explanations can no longer be dismissed as the paranoid delusions of far right crackpots Indeed they have become a necessary response to a risky and increasingly globalized world in which everything is connected but nothing adds up Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture from 1960s countercultural suspicions about the authorities to the 1990s where a paranoid attitude is both routine and ironic Conspiracy Culture analyses conspiracy narratives about familiar topics like the Kennedy assassination alien abduction body horror AIDS crack cocaine the New World Order as well as more unusual ones like the conspiracies of patriarchy and white supremacy Conspiracy Culture shows how Americans have come to distrust not only the narratives of the authorities but even the authority of narrative itself to explain What Is Really Going On From the complexities of Thomas Pynchon s novels to the endless mysteries of The X Files Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion Trust no one because we have met the enemy and it is us

Sites of Autopsy in Contemporary Culture Elizabeth Klaver,2012-02-01 In this compelling interdisciplinary study Elizabeth Klaver considers how autopsies are performed in a variety of contexts from the real thing in hospitals and county morgues to various depictions in paintings novels plays films and television shows Autopsies can serve a variety of pedagogical legal scientific and social functions and the autopsied cadaver Klaver shows has lately become one of the most spectacular bodies offered up to the public on film television and the Internet Setting her discussion within the history of the modern autopsy and including the narrative of her own attendance at a medical autopsy Klaver makes the autopsy readable in a number of diverse venues from Rembrandt s The Anatomy Lesson and Vesalius s Fabrica to The Silence of the Lambs The X Files and CSI Moving from the actual autopsy itself to its broader symbolic ramifications Klaver addresses questions as disparate as the social constructedness of the body the perception and treatment of death under late capitalism and the ubiquity of paranoia in contemporary culture

Asia First Joyce Mao,2015-06-09 After Japanese bombs hit Pearl Harbor the American right stood at a crossroads Generally isolationist conservatives needed to forge their own foreign policy agenda if they wanted to remain politically viable When Mao Zedong established the People s Republic of China in 1949 with the Cold War just underway they had a new object of foreign policy and as Joyce Mao reveals in this fascinating new look at twentieth century Pacific affairs that change would provide vital ingredients for American conservatism as we know it today Mao explores the deep resonance American conservatives felt with the defeat of Chiang Kai Shek and his exile to Taiwan which they lamented as the loss of China to communism and the corrosion of traditional values In response they fomented aggressive anti communist positions that urged greater action in the Pacific a policy known as Asia First While this policy would do nothing to oust the

communists from China it was powerfully effective at home Asia First provided American conservatives a set of ideals American sovereignty selective military intervention strident anti communism and the promotion of a technological defense state that would bring them into the global era with the positions that are now their hallmark **Novel History** Mark C. Carnes, 2004-03-05 Historical fiction is a contradiction in terms History is what happened fiction what did not Yet great novelists have often disregarded this logical difficulty taking up the tools of the historian to explore the shadowy recesses of the past Their labors have brought forth many literary treasures But how accurately do these masterpieces of the imagination reflect the past In *Novel History* twenty accomplished historians consider this question in relation to some of our most important historical novels Their essays are followed in most instances by a response from the novelist These dialogues illuminate one of the most fascinating and perplexing issues of our time the relation between the real past and our finest imaginative renderings of it *Novel History* includes essays by distinguished historians such as John Demos Michael Kammen Joan D Hedrick John Lukacs Eugene D Genovese Richard White and Tom Wicker and responses from notable novelists including Gore Vidal John Updike Russell Banks Don DeLillo Larry McMurtry Jane Smiley Madison Smartt Bell William Styron T Coraghessan Boyle William Kennedy Charles Frazier Thomas Fleming and Tim O'Brien *Novel History* is both a uniquely compelling perspective and a superb collection of literary history **Biography and the Postmodern Historical Novel** John F. Keener, 2001 This book describes and evaluated the ever intensifying uneasiness felt by contemporary readers and critics when they confront real people in fictional texts The book's range and depth of analysis is impressive The fortunes of Dutch Schultz Lee Harvey Oswald and Richard Nixon at the hands of novelists dramatists film makers and composers receive close attention and so do fictional representations of biographers themselves *The Environmental Unconscious in the Fiction of Don DeLillo* Elise Martucci, 2012-09-10 This book presents an ecocritical reading of DeLillo's novels in an attempt to mediate between the seemingly incompatible influences of postmodernism and environmentalism Martucci argues that although DeLillo is responding to and engaging with a postmodern culture of simulacra and simulation his novels do not reflect a postmodernist theory of the end of nature Rather his fiction emphasizes the lasting significance of the natural world and alerts us to the dangers of destroying it In order to support this argument Martucci examines DeLillo's novels in the context of traditional American literary representations of the environment especially through the lens of Leo Marx's discussion of the conflict between technology and nature found in traditional American literature She demonstrates that DeLillo's fiction explores the way in which new technologies alter perceptions and mediate reality to a further extent than earlier technologies however she argues that he keeps the material world at the forefront of his novels thereby illuminating the environmental implications of these technologies Through close readings of *Americana* *The Names* *White Noise* and *Underworld* and discussions of postmodernist and ecocritical theories this project engages with current criticism of DeLillo postmodernist fiction and environmental criticism
